S2. BASIC LOCAL EXCHANGE SERVICE

S2.1 GENERAL

A. Basic local telephone service is provided by means of station, wire, switching and other facilities, and plant and equipment to enable the establishment of telephone communications between stations in the same or different exchanges at monthly rates applies under a group rate system. The facilities used to provide such basic local telephone service are also used in the furnishing of long-distance telephone services at rates applicable for such services.

B. The base rate area and exchange service area for each exchange are on maps located in Section 29 of this Price List.

C. Rates for Basic Local Exchange Service are related to the total access lines in service in the exchange plus total access lines in service in other exchanges within the local calling area of that exchange.

Nanafalia	37.84	50.95	20.00
Sweet Water	37.84	50.95	20.00

Basic Service Rates above do not include any federal, state or local fees or taxes, including without limitation, E-911 charges and the $.15 dual-party relay surcharge which shall be shown separately on a customer's bill. The rates listed above for Local Exchange do include a $.85 end user charge.

**Rates for more than one (1) business line. Basic local exchange rates for residential lines and for one (1) business line may be found in the Company's General Subscriber Services Tariff.

S2.5 LOCAL DIRECTORY ASSISTANCE SERVICE

A. The Company furnishes a Directory Assistance service for the purpose of aiding customers in obtaining listing information.

B. Directory Assistance Service allows a subscriber to provide a name to get a telephone number, ZIP Code and/or directory address.

C. There will be a charge for all customer calls to Directory Assistance, except:

1. Residential customers who have a visual or physical disability rendering them unable to use a telephone directory, and
2. Business customers employing one or more persons diagnosed with that same disability.

Such a diagnosis must be confirmed in writing by a physician or an appropriate group or agency. This exemption is applicable exclusively to calls made by the disabled individual from their line, or in the case of a business employing disabled person(s), from the line assigned to that disabled individual(s). Usage will be monitored by the Company

S2. BASIC LOCAL EXCHANGE SERVICE

S2.5 LOCAL DIRECTORY ASSISTANCE SERVICE (Cont'd)

C. There will be a charge for all customer calls to Directory Assistance, except: (Cont'd)

and is subject to review and investigation. Certification will be verified periodically. Confirmed, inappropriate use of the exemption could result in its removal.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.5 LOCAL DIRECTORY ASSISTANCE SERVICE (Cont'd)

D. Surcharges as specified in Section S2.6(C) will be applicable to all calls to Directory Assistance Service handled by the operator ("0-"), provided that the "0" operator is not the only source for Local Directory Assistance, or dialed by the customer ("0+").

E. Rates and Charges

1. Directory Assistance service
Request of a listing (maximum of two requests per call)

a. Within the Company's local calling or LATA/NPA serving area for the originating line

$1.99/call

b. Outside the Company's local calling and LATA/NPA serving areas for the originating line

$1.99/call

2. Directory Assistance service to Payphone Service Providers

All calls to Directory Assistance $1.99/call

S2.6 OPERATOR ASSISTED LOCAL CALLS AND LOCAL CALLING CARD SERVICE

A. General

For any Dial Calling Card Station, Operator Station or Person-To-Person message completed within the Local Calling Area, the appropriate service charge specified in S2.6(C) following, will be applied except as specified in S2.6(B) following.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.6 OPERATOR ASSISTED LOCAL CALLS AND LOCAL CALLING CARD SERVICE (Cont'd)

B. Application of Charges

1. The appropriate service charge, as specified in S2.6(C) following, will be applied to each completed call except:

   a. for calls to the Company for official telephone business,
   b. for emergency calls to agency type telephone numbers such as to those agencies of the federal, state or local government which have the capability and legal authority to provide aid in emergency situations and to any emergency medical number,
   c. when the caller identifies himself as being handicapped and unable to place the call due to his handicap,
   d. when the caller advises he has had service trouble in reaching the terminating number,
   e. for local emergency calls from a coin station,
   f. for station-paid calls from hotel guests, or

2. The call may be billed to the originating telephone, calling card, third number, collect, or any other Company-approved identification number.

C. Rates and Charges

1. The following charges for operator system served local calls apply in addition to the local dial rates:

   a. Billing Surcharges - Station-to-Station

(1)	Dial Calling Card	$1.00
(2)	Operator	$2.50
(3)	Inmate calls originating from correctional facilities(Automated)	$1.25

   b. Billing Surcharges - Person-to-Person Each. $5.00

S2. BASIC LOCAL EXCHANGE SERVICE

S2.6 OPERATOR ASSISTED LOCAL CALLS AND LOCAL CALLING CARD SERVICE (Cont'd)

C. Rates and Charges (Cont'd)

1. (Cont'd)

c.	Operator Dialed Surcharge[1] Station-to-station operator assisted or person-to-person operator assisted calls (excluding those billed to calling cards) where the operator dials the terminating number.	$1.25
d.	Partially Automated Surcharge[1] Station-to-station operator assisted calls where the customer dials the terminating number.	$1.00
e.	Zero Minus Charge Provision of Area Code, Place Name (in what Area Code is a city or exchange), Ring Back (caller wants call back to test whether equipment connected to his line "rings" when outside caller dials his number), Operator Dialing of 800, 888, 877, 866 and 855 numbers on the caller's behalf; each request (one request per call)	$0.95[2]

[1] In addition to any applicable Billing Surcharge.
[0] Applies when customer dials zero and no other digits from a local exchange wireline, requests and receives service as described. This charge is not applied to requests originating from payphones or wireless.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.6 OPERATOR ASSISTED LOCAL CALLS AND LOCAL CALLING CARD SERVICE (Cont'd)

D. Operator Assisted Premium Plan

A premium is defined as a commission applicable to surcharge revenue associated with local operator assisted call requests sent to the Company by the customer. Such premiums may be payable to subscribing customers based on the Company's surcharge revenue generated by said calls.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.6 OPERATOR ASSISTED LOCAL CALLS AND LOCAL CALLING CARD SERVICE (Cont'd)

D. Operator Assisted Premium Plan (Cont'd)

These calls must:

1. originate from a telephone line associated with the customer's account,
2. originate and terminate in the same Basic Local Calling Area,
3. be carried and completed by the Company via Company facilities and
4. be billed by the Company.

In the event the company billing records used to determine the premiums are destroyed or lost, the Company shall not be liable for payments of premiums on such lost data.

S2.7 LOCAL OPERATOR VERIFICATION/INTERRUPTION SERVICE

A. General

Verification Service provides operator assistance in determining if a called line is in use. Interruption Service provides for operator interruption of voice conversation in progress on a called line to advise the interrupted subscriber that the interrupting party has an emergency need to reach him. Data use of a subscriber line will be verified, but not interrupted. The customer may request these services for a charge, where facilities are available, by calling the "0" operator.

B. Application of Charges

1. The charges specified in Section S2.7(C) will apply to all requests except:

   a. emergency requests from official emergency agencies when the request is received on an agency line from agency personnel;

S2. BASIC LOCAL EXCHANGE SERVICE

S2.7 LOCAL OPERATOR VERIFICATION/INTERRUPTION SERVICE (Cont'd)

B. Application of Charges (Cont'd)

1. (Cont'd)

b. emergency requests in which the caller identifies that the request is to one of the following:

(1) an official public emergency agency,
(2) an emergency medical number, or
(3) a privately endowed and operated suicide, drug, alcohol, or runaway crisis reporting center; or

c. requests in which the operator encounters a trouble condition or has reason to believe a trouble condition exists.

C. Rates

1. Verification Charge - applies each time the operator verifies that a line is in use.	$2.50
2. Interruption Charge - applies each time the operator interrupts voice conversation in progress and does not depend on whether the called party agrees to release the line.	$5.00

3. If an operator both verifies the condition of the same line and interrupts conversation on the same request, only the interrupt charge applies.

4. The charges for Verify/Interrupt Service are in addition to any applicable message rates.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.8 DUAL PARTY RELAY SERVICE

The Company charges a monthly surcharge of $0.15 for Dual Party Relay Service. This service permits hearing- and speech-impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary Telephones. Communications take place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

S2.9 AREA CALLING SERVICE

A. Description of Service

1. Area Calling Service is an optional intra-LATA offering that provides seven-digit local calling from the subscriber's home rate center to all other participating local exchange companies' rate centers within a 40-mile radius (where distance is measured in airline miles) of the outside border of the nearest local exchange within Pine Belt's service area, in addition to the existing local calling area.

2. This service is not available to Company-owned or customer-provided public telephone subscribers.

B. Options and Rates

1. Options

Customers subscribing to Area Calling Service must choose a usage package from the options below. Line rates are in addition to basic local exchange rates.

	Residence	Business
Option 1		
Monthly Surcharge	No Charge	No Charge
Rate/minute for IXC calls	$0.01	$0.01
Option 2		
Monthly Surcharge	$7.50	$15.00
Unlimited calling in Band A & two Custom Calling Features		

S2. BASIC LOCAL EXCHANGE SERVICE

S2.9 AREA CALLING SERVICE (Cont'd)

B. Options and Rates (Cont'd)

2. Usage Rates

The following usage rates are applicable for all local calls and are based on airline mileage between wire centers. All calls between Pine Belt's exchanges are rated as Band A calls.

(a) PEAK – Applicable from 8:00 a.m. to 8:00 p.m. Monday through Friday, excluding holidays.

BANDS	1ST MINUTE	ADDITIONAL MINUTES
A (0-1 mi.)	0.010	0.010
B (1-10 mi.)	0.050	0.050
C (11-16 mi.)	0.080	0.080
D (17-22 mi.)	0.090	0.090
E (23-30 mi.)	0.100	0.100
F (31-40 mi.)	0.100	0.100
G (Special)	0.100	0.100

(b) OFF-PEAK – These usage rates are applicable from 8:00 p.m. to 8:00 a.m. Monday through Friday, all day Saturday and Sunday, and on holidays. When messages span more than that one rate period, total charges for the minutes in each rate period are summarized and the results for each period are totaled to obtain the total message charge.

BANDS	1ST MINUTE	ADDITIONAL MINUTES
A (0-1 mi.)	0.000	0.000
B (1-10 mi.)	0.045	0.045
C (11-16 mi.)	0.070	0.070
D (17-22 mi.)	0.080	0.080
E (23-30 mi.)	0.080	0.080
F (31-40 mi.)	0.080	0.080
G (Special)	0.080	0.080

(c) LEGAL HOLIDAYS – These usage rates apply on New Year's Day, July 4th, Labor Day, Thanksgiving, and Christmas.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.9 AREA CALLING SERVICE (Cont'd)

B. Options and Rates (Cont'd)

3. Area Calling Service Discount – Off-Peak rates will be applied to usage in Bands A through G which exceeds $50.00 during a billing period.

4. Detailed billing can be provided with Area Calling Service at the following monthly rates:

Detail	Residential	Business
Recurring	$2.82	$5.63
Non-recurring (1st mo.)	$7.50	$15.00
Additional months*	$5.00	$10.00

May not request more than 3 total months

S2.10 LIFELINE ASSISTANCE PROGRAM

Lifeline Assistance is a government assistance program developed to reduce rates for primary residential telephone service or broadband Internet access service to qualifying subscribers who receive income-based benefits. The Company participates in this program to increase the availability of telecommunications services to all consumers in its serving areas.

A. General

Lifeline Assistance reduces an eligible customer's monthly rates for basic voice telephone service or broadband Internet access service. An eligible customer receives one federally subsidized credit per month toward the cost of voice telephone service or broadband Internet access service.

1. Where available, the broadband Internet access service provides a minimum broadband speed of 15 Mbps downstream/1 Mbps upstream and a minimum usage allowance of 250 Gigabytes per month. Dial-up service and WiFi or similar service that cannot be accessed by subscribers at their residential address does not qualify as a broadband Internet access service for purposes of Lifeline Assistance.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)

A. General (Cont'd)

1. (Cont'd)

(a) If minimum broadband speed is not available, the Lifeline discount may be applied to the highest performing generally available residential offering that meets or exceeds 4 Mbps downstream/1 Mbps upstream.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations

To constitute a qualifying low-income customer eligible to receive Lifeline services, a customer must meet the requirements set forth in either paragraph 1. or 2. below:

1. A customer's household income must be at or below 135% of the Federal Poverty Guidelines for a household of that size;

(a) For purposes of these rules, "income" means gross income as defined under Section 61 of the Internal Revenue Code, 26 U.S.C. § 61, for all members of the household. This means all income actually received by all members of the household from whatever source derived, unless specifically excluded by the Internal Revenue Code, Part III of Title 26, 26 U.S.C. § 101, *et seq.*

(b) A "household" is any individual or group of individuals who are living together at the same address as one economic unit. A household may include related and unrelated persons. An "economic unit" consists of all adult individuals contributing to and sharing in the income and expenses of a household. An adult is any person eighteen (18) years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be

S2. BASIC LOCAL EXCHANGE SERVICE

S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

1. (Cont'd)

b. (Cont'd)

considered part of the same household. Children under the age of eighteen (18) living with their parents or guardians are considered to be part of the same household as their parents or guardians.

2. Lifeline Assistance is also available to qualified residential customers who participate in one of the following low income assistance programs. A customer will also be considered to be eligible even if he does not personally participate in any of the following programs, so long as an individual who lives in his household participates in at least one of these programs:

(a) Medicaid
(b) Supplemental Nutrition Assistance Program (SNAP)
(c) Supplemental Security Income (SSI)
(d) Federal Public Housing Assistance (FPHA)
(e) Veterans and Survivors Pension Benefit

3. In addition to meeting the qualifications provided in paragraph 1. or 2. of this section, in order to constitute a qualifying low-income customer, a customer must not already be receiving a Lifeline service, and there must not be anyone else in the customer's household subscribed to a Lifeline service.

4. Qualifying subscribers must provide the Company with acceptable documentation as proof of their eligibility to receive Lifeline service under the income-based or program-based requirements; the documentation must be securely retained by the Company. If the Company has a reasonable basis to believe that the subscriber no longer meets the qualifying criteria for Lifeline service, the Company must notify the subscriber of impending termination of the subscriber's Lifeline service in

S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

4. (Cont'd)

writing separate from the subscriber's monthly bill. If the subscriber fails to provide proof of eligibility within thirty (30) days following the Company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the expiration of the subscriber's time to respond to the request.

5. If the Company receives notification from the program administrator that the subscriber is receiving Lifeline service from another eligible telecommunications carrier or that more than one member of a subscriber's household is receiving Lifeline service, the subscriber will be de-enrolled from Lifeline Assistance without notice within five (5) business days following the Company's receipt of the program administrator's notification.

6. The Company will confirm a subscriber's continued eligibility to receive Lifeline service on an annual basis by requiring the subscriber to sign a certification as to his/her present qualifications for Lifeline service. The Company must notify the subscriber in writing separate from the subscriber's monthly bill that failure to respond to the recertification request will trigger de-enrollment. If the subscriber fails to provide proof of eligibility within sixty (60) days following the company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the expiration of the subscriber's time to respond to the recertification efforts.

7. A subscriber who requests de-enrollment must be de-enrolled by the Company within two (2) business days after the request.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

8. The Company will process all applications and apply the appropriate credit on the customer's monthly bill. A secondary service charge is not applicable for existing customers who subscribe to Lifeline Assistance.

9. As a participant in Lifeline Assistance, customers are eligible to receive Toll Limitation Service at no charge for any Lifeline voice telephone service that charges a fee for toll calls, either domestic or international, that is in addition to the monthly price of the customer's Lifeline service. This service will only be provided at the customer's request and is limited to plans that distinguish between local and long-distance calling.

10. Local service deposit requirements will be waived for customers who voluntarily receive Toll Limitation Service.

11. Participants in Lifeline Assistance shall not be disconnected from local telephone service for non-payment of long-distance charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of long-distance charges. Lifeline Assistance will not be connected if an outstanding balance is owed by the customer for local service.

12. Partial payments received from Lifeline voice telephone customers will first be applied to local service charges and then to any outstanding long-distance charges.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

13. Lifeline subscribers may apply their Lifeline discount to voice telephone service, broadband Internet access service, or a bundle of broadband Internet access service and voice telephone service; and plans that include optional calling features, such as, but not limited to, caller ID, call waiting, voicemail, and three-way calling. The Lifeline discount may also be applied to family shared data plans. The calling plan must be in the name of the eligible subscriber, and a household may receive only one Lifeline supported service. Partial payments from Lifeline subscribers purchasing bundled packages or packages containing optional calling features will first be applied to pay down the allocated price of the Lifeline supported services.
14. The PICC will not be billed to Lifeline customers who subscribe to toll blocking and are not presubscribed to a long-distance carrier.

C. Credits

1. Voice Telephone Service (N)

a. The following monthly credit will apply for each customer eligible for Lifeline Assistance who chooses to apply its Lifeline Assistance to voice telephone service.

	Monthly Credit
Federal Credit	$ 9.25

b. Credit amount will not exceed the basic charge for local telephone service, which includes the Subscriber Line Charge, access line and local usage.

c. Pursuant to FCC Rules 47 C.F.R. Section 54.403, stand-alone voice telephone Lifeline support or voice service with broadband below the minimum standards set forth in Section 54.408 of the FCC Rules will be phased out as described below: (N)

(i) Beginning 12/1/2019 - the support amount (C)

S2. BASIC LOCAL EXCHANGE SERVICE

S2.10 LIFELINE ASSISTANCE PROGRAM (Cont'd)

C. Credit (Cont'd)

1. Voice Telephone Service (Cont'd) (C)

will be $7.25 per month

(ii) Beginning 12/1/2020- the support amount will be $5.25 per month

(iii) Beginning 12/1/2021- the support amount will be $0.00. (See Note 1) (C)

Note 1: The support amount for standalone voice service, or voice service not bundled with broadband which meets the minimum standards set forth in Section 54.408, provided by a provider in a census block will remain at $5.25. (N)(C)

The maximum Lifeline Assistance credit available to Alabama customers is $9.25 per month. (N)

Credit amount will not exceed the basic charge for local telephone service, which includes the Subscriber Line Charge, access line and local usage, or for the Company's listed charge for the subscribed service offering or for similar offerings subscribed to by customers who do not qualify for Lifeline.

This discount is first applied to waive the monthly federal subscriber line charge (End User Common Line charge) if the carrier is receiving Lifeline support for the subscriber's voice telephony service, with the remainder applied to the subscriber's monthly rate for the primary individual line service or primary bundled access line service. (N)

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.1 APPLICATION

This Tariff applies to Long Distance Message Telecommunications Service (MTS) furnished or made available by the Company and its connecting companies, over facilities wholly within or partly within and partly without the state of Alabama, between two or more points within the state of Alabama where the respective rate centers of such points also are located within the same LATA in said state.

S3.2 GENERAL

A. Long Distance Message Telecommunications Service is that of furnishing facilities for communications between stations in different rate centers for either two-point or conference service.

B. Rates for service between points are based on airline mileage between rate centers. In general, each point is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes. Airline mileages between rate centers are determined as provided in S3.4 following.

C. Customer or Other Common Carrier-provided terminal equipment or system may be used with facilities furnished to the customer by the Company for Long Distance MTS.

D. Long Distance MTS is provided for use by the Customer and may be used by others when so authorized by the Customer.

S3.3 TWO-POINT SERVICE

S3.3.1 Service Between Land Wire Telephones

A. Classes of Service

Service is offered on a Station-to-Station basis, as either Dial, Dial Calling Card, or Operator, or on a Person-to-Person basis.

B. Rates and Charges

1. Charges for each Long Distance MTS message between any two points within the state and within the same LATA are determined as follows:

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.1 Service Between Land Wire Telephones (Cont'd)

B. Rates and Charges (Cont'd)

a. All messages are rated in full minute increments. Initial minute and additional minute basic rates are specified in the Basic Rate Schedule in Section S3.3.1.B.2. following. Initial minute rates are for connections of one minute or any fraction thereof. Additional minute rates are for each additional minute or any fraction thereof that the connection continues beyond the first minute.

b. For any Dialed Calling Card Station, Operator Station, or Person-to-Person message, the surcharge specified in Section S3.3.1.B.4. following is added to the Basic Rate Schedule charge.

2. Basic Rate Schedule

a. The following table contains the initial minute and additional minute rates for the Day rate period for all call classes. These rates are based on chargeable time (duration) of the message, as specified in Section S3.3.1.C. following, and the airline mileage between the rate centers of the two stations connected, as specified in Section S3.5. following.

	Residence		**Business**	
	Initial Minute or Fraction Thereof	**Each Additional Minute or Fraction Thereof**	**Initial Minute or Fraction Thereof**	**Each Additional Minute or Fraction Thereof**
(a) 1 - 10 miles	$0.16	$0.16	$0.20	$0.20
(b) 11 - 16 miles	$0.16	$0.16	$0.20	$0.20
(c) 17 - 22 miles	$0.16	$0.16	$0.20	$0.20
(d) 23 - 30 miles	$0.16	$0.16	$0.20	$0.20
(e) 31 - 40 miles	$0.16	$0.16	$0.20	$0.20
(f) 41 - 55 miles	$0.16	$0.16	$0.20	$0.20
(g) 56 - 70 miles	$0.16	$0.16	$0.20	$0.20
(h) 71 - 85 miles	$0.16	$0.16	$0.20	$0.20
(i) 86 - 100 miles	$0.16	$0.16	$0.20	$0.20

4. Billing and Operator Surcharges

a. For any message in the call classes listed following, add the surcharge shown following to the Basic Rate Schedule charge adjusted for time-of-day. Surcharges are not adjusted for time-of-day.

(1) Billing Surcharges - Station-to-Station Rate	
(a) Dial Calling Card	$1.00
(b) Operator	$2.50
(2) Billing Surcharges - Person-to-Person Each	$5.00
(3) Operator Dialed Surcharge	
(a) Station-to-Station operator assisted or person-to-person operator assisted calls (excluding those billed to calling cards) where the operator dials the terminating number.	$1.25

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.3 TWO-POINT SERVICE (Cont'd)

B. Rates and Charges (Cont'd)

3. Rate Periods and Rate Discounts (Cont'd)

(4) Partially Automated Surcharge	
(a) Station-to-Station operator assisted calls where the customer dials the terminating number.	$0.75

C. Timing of Messages

1. The time at the beginning of each minute of connection determines the applicable rate period. The time observed at the rate center of the calling station applies, whether the call is originated as sent-paid or collect.

2. On Station-to-Station calls, chargeable time begins when connection is established between the calling station and the called station or Miscellaneous Common Carrier mobile radio system.

3. On Person-to-Person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.1 Service Between Land Wire Telephones (Cont'd)

C. Timing of Messages (Cont'd)

4. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

5. Chargeable time does not include time lost because of faults or defects in the service.

D. Reversal of Charges (Collect Calls)

1. Collect calls are permissible for all telephone calls provided the charges are accepted at the called station. When a collect call is attempted to a coin telephone, the charges must be billed to a Company Calling Card or third party number, or the call may be reoriginated from the called stations.

2. The regularly established Operator Station-to-Station or Person-to-Person rates apply.

E. Rates Applicable on Certain Holidays

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day, and Labor Day, the holiday rate applicable is the Evening rate, unless a lower rate would normally apply.

F. Rates for Hearing or Speech Impaired Customers

1. Rates for certain MTS calls are reduced for hearing and/or speech impaired customers who meet requirements a. through d. following:

a. The customer is certified to the Company as having a hearing or speech impairment that prevents telephone voice communication.
b. The customer has non-voice equipment used for telecommunications.
c. The customer makes written application to the Company for the reduced MTS rates.

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.1 Service Between Land Wire Telephones (Cont'd)

F. Rates for Hearing or Speech Impaired Customers (Cont'd)

d. The customer designates to the Company one and only one telephone number associated with that customer's residence service. Reduced rates apply only to calls originated from this telephone number.

2. Rates for certain MTS calls are reduced for an agency that assists hearing or speech impaired persons under the following conditions:

a. The agency provides non-voice telecommunications equipment solely for the use of hearing or speech impaired persons.

b. The agency makes written application to the Company for the reduced MTS rates.

c. The agency designates to the Company one and only one local exchange telephone number associated with each piece of non-voice telecommunications equipment. Each such number may be used only for calls through the non-voice telecommunications equipment. Reduced rates apply only to calls originated from such designated telephone numbers.

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.1 Service Between Land Wire Telephones (Cont'd)

F. Rates for Hearing or Speech Impaired Customers (Cont'd)

3. All Dial Station-to-Station (DDD) messages occurring during the Day rate period originated from the designated telephone number will be discounted at 25 percent (%) off the total Basic Rate Schedule charge. All Dial Station-to-Station (DDD) messages occurring during the Evening and Night and Weekend rate periods originating from the designated telephone number will be discounted at 50 percent (%) off the total Basic Rate Schedule charge.

a. The discount is applied to the total Basic Rate Schedule charge for that portion of a message occurring within the discount period. When application of the discount results in a fractional charge, the amount will be rounded down to the lower cent.

b. When a message spans more than one rate period, total charges for the connection time in each rate period are calculated, discounts applied and the results for each rate period are totaled to obtain the total message charge.

G. Operator Assisted Premium Plan

1. General

A premium is defined as a commission applicable to all 0+ and 0- operator assisted calls. Such premiums may be payable to subscribing customers based upon the Company's revenue generated by said calls. These calls must:

a. originate from a telephone line associated with the subscribing customer's account,
b. originate and terminate in the same LATA,
c. be carried and completed by the Company via Company facilities and
d. be billed by the Company.

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.1 Service Between Land Wire Telephones (Cont'd)

G. Operator Assisted Premium Plan (Cont'd)

An additional premium for calls billed to a BellSouth Calling Card may be payable to subscribing customers based upon the monthly revenue generated from said 0+ and 0- operator assisted calls originated from a telephone line associated with the customer's account (the "Calling Card Premium"), as set forth in 3.c. following.

2. Terms and Conditions

a. Qualifying customers may participate in the premium plan by contacting the Company Business office to subscribe. In order to qualify for the premium plan, a customer must meet minimum revenue thresholds.

b. The Company may pay scheduled premiums to the subscribing customer. Such premiums will be based on the amount of IntraLATA revenue billed for the previous calendar month as calculated by the Company (the "Monthly Premium"), and will be paid to the customer within thirty (30) days of the end of such calendar month.

c. No premiums will be paid for any month in which the subscribing customer does not meet minimum monthly revenue thresholds. If a subscribing customer does not meet minimum monthly revenue thresholds for a period of six (6) consecutive months, the Plan will be automatically terminated.

d. In the event the Company billing records used to determine the premiums are destroyed or lost, the Company shall not be liable for payments of premiums on such lost data.

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.1 Service Between Land Wire Telephones (Cont'd)

G. Operator Assisted Premium Plan (Cont'd)

3. Scheduled Premiums

a. Monthly Scheduled Premiums may be payable to subscribing customers based upon the monthly IntraLATA revenue generated by 0+ and 0- operator assisted calls originated from the customer's telephone access line.

b. On each anniversary date of the customer's subscription, up to the fifth anniversary, the Company may make a single premium payment based upon the total of Monthly Scheduled Premiums paid since the effective date of subscription to the Plan (the "Anniversary Premium"). This Anniversary Premium will be in addition to any Monthly Scheduled Premiums. The Anniversary Premium will cease after the fifth anniversary.

c. The Company may pay the subscribing customer a Calling Card Premium in addition to the scheduled premiums. This Calling Card Premium shall remain constant for the duration of the customer's participation in the Plan, and shall be paid within thirty (30) days following the end of the calendar month in which the calls are billed.

H. Business Saver® Service

1. Description

a. This plan is available to business customers only.

b. Customers who subscribe to Business Saver® service may choose from three options with different term commitments which provide toll volume discounts. The amount of the discount is determined by the intrastate, intraLATA Company MTS charges on the customer's monthly bill as specified in 2. following. There is no additional charge to the customer for this service.

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.1 Service Between Land Wire Telephones (Cont'd)

H. Business Saver® Service (Cont'd)

1. Description (Cont'd)

c. The discounts apply to Message Telecommunications Service (MTS) usage rates as specified in B. preceding. The discounts do not apply to optional calling plans, operator surcharges, directory assistance charges, 976 charges, local exchange service charges or local exchange service calls.

d. The discounts are applied at the billing account level and are applied after the application of the time-of-day discounts as specified in B. preceding, of this section.

e. The discounts apply only to usage incurred after the service effective date for the option.

f. If the subscriber terminates a plan option prior to the term commitment, a termination liability as specified in 2. following will apply. During a 90-day grace period after subscription, the customer may disconnect the service without termination liability.

g. No minimum monthly toll usage is required to subscribe to Business Saver® service.

h. Neither a secondary service ordering charge nor a monthly rate will apply when subscribing to this service.

(a) Month-to-Month	0%	5%	10%	15%	$0
(b) 12-Month Term	5%	10%	15%	20%	$10.00
(c) 24-Month Term	15%	20%	25%	30%	$25.00

S3.3.2 Service Through Mobile Telephone Service Base Stations

A. General

1. The regulations and rates set forth following apply for Long Distance Message Mobile Telephone Service.

2. Long Distance Message Mobile Telephone Service is a communication service through a base station between a mobile unit and a land wire telephone located outside the mobile service area associated with such base station, or between two mobile units served through different base stations having different rate centers.

3. Long Distance Message Mobile Telephone Service also includes service through a mobile telephone service base station between a land wire telephone or mobile unit, and another station which is authorized by the Federal Communications Commission to communicate with the mobile telephone service base station, or between two such other stations.

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.3 TWO-POINT SERVICE (Cont'd)

4. The party on the mobile unit placing or receiving a long distance call shall inform the mobile service operator, upon request, as to the state in which the mobile unit is located at the time of placing or receiving the call.

B. Rates

1. The rates between the applicable land wire telephone rate center and the rate center of the serving base station, or between the rate centers of two base stations are the schedules of rates as set forth in S3.3.1.B. preceding.

2. Base Stations

Station Code	Rate Center	V – H Coordinates
Anis	Anniston, Ala.	7406 - 2304
Arab1	Arab. Ala.	7339 - 2478
Atm1	Atmore, Ala.	8056 - 2306
Bham	Birmingham, Ala.	7518 - 2416

S Rk1	Sand Rock, Ala.	7289 - 2354
Shef	Sheffield, Ala.	7354 - 2714
Tusca	Tuscaloosa, Ala.	7643 - 2535
Cols G	Columbus, Ga.	7556 – 2045

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.3 TWO-POINT SERVICE (Cont'd)

S3.3.3 Service Through Miscellaneous Common Carriers

A. Service is available to and from customers of a Miscellaneous Common Carrier with which arrangements have been made for the interchange of telephone traffic and is furnished through interconnecting equipment and local connecting facilities provided by the Company.

B. The rates between the applicable wire telephone rate center and the rate center of the Miscellaneous Common Carrier are the rates set forth in this Tariff for two-point service. The rate center of the Miscellaneous Common Carrier is the wire telephone rate center of the Company serving exchange. An additional charge which the Miscellaneous Common Carrier bills to and collects from its customer is applicable to the remainder of the haul as set forth in the Miscellaneous Common Carrier's tariff on file with the Alabama Public Service Commission.

S3.4 AIRLINE MILEAGE BETWEEN RATE CENTERS

S3.4.1 General

A. For the purpose of determining airline mileages vertical and horizontal grid lines have been established across the State of Alabama. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in airline miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map-projection equations. These rate centers and their V and H coordinates are shown in S3.4.3. following. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed as explained in S3.4.2. following.

B. For long distance message telecommunications service the rate center for a point not listed in this section is the rate center for the central office to which the point is assigned for long distance telecommunications rate purposes; where the point is not assigned to a central office, the rate center is the location of the point.

S3.4.2 Determination Of Airline Mileages

A. To determine the rate distance between any two rate centers proceed as follows.

1. Obtain the "V" and "H" coordinates for each rate center.

2. Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates. The difference is always obtained by subtracting the smaller coordinates from the larger coordinates.

3. Divide each of the differences obtained in S3.4.2.A.2. by three, rounding each quotient to the nearer integer.

4. Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in S3.4.2.A.3. by three and repeat step S3.4.2.A.4. Repeat this process until the sum of the squares obtained in S3.4.2.A.4. is less than 1778.

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.4 AIRLINE MILEAGE BETWEEN RATE CENTERS (CONT'D)

S3.4.2 Determination Of Airline Mileages (CONT'D)

5. The number of successive divisions by three in steps S3.4.2.A.3. and 4. determines the value of "N". Multiply the final sum of the two squares obtained in set S3.4.2.A.4. by the multiplier specified in the following table for the value "N" preceding.

N	Multiplier	Minimum Rate Mileage
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

6. Obtain square root of product in S3.4.2.A.5. and with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in S3.4.2.A.5. preceding, the minimum rate mileage corresponding to the "N" value is applicable.

S3.5 INTRA-LATA LONG DISTANCE OPERATOR VERIFICATION/INTERRUPTION SERVICE

S3.5.1 General

Intra-LATA Verification Service provides operator assistance in determining if a called line is in use. Intra-LATA Interruption Service provides for operator interruption of voice conversation in progress on a line to advise the interrupted subscriber that the interrupting party has an emergency need to reach him. Data use of a subscriber line will be verified, if verifiable, but not interrupted. The customer may request these intra-LATA long distance services for a charge, where facilities are available, by calling the "0" operator within their intra-LATA calling area.

S3.5.2 Application of Charges

1. The charges specified in S3.5.3 will apply to all requests except:

   a. emergency requests from official emergency agencies when the request is received on an agency line from agency personnel;
   b. emergency requests in which the caller identifies that the request is to one of the following:
      (1) an official public emergency agency,
      (2) an emergency medical number, or
      (3) a privately endowed and operated suicide, drug, alcohol, or runaway crisis reporting center; or
   c. requests in which the operator encounters a trouble condition or has reason to believe a trouble condition exists.

S3.5.3 Rates

1. Verification:
   A charge applies each time the operator verifies a line is in use.

	Rate
Each Verification	$2.50

2. Interruption:

   A charge applies each time the operator interrupts voice conversation in progress and does not depend on whether the called party agrees to release the line.

Each Interruption	$5.00

S3.5 INTRA-LATA LONG DISTANCE OPERATOR VERIFICATION/INTERRUPTION SERVICE (CONT'D)

S3.5.3 Rates(Cont'd)

3. If an operator both verifies the condition of the line and interrupts conversation on the same request, only the interrupt charge applies.

4. The charges for Intra-LATA Verify/Interrupt Service are in addition to any applicable message rates.

S3.6 INTRA-NPA LONG DISTANCE OPERATOR SERVICE REQUIRING TELEPHONE NUMBER ASSISTANCE

A. Intra-NPA Long Distance Operator Service Requiring Telephone Number Assistance is that service for which the operator is required to obtain the telephone number of the called party in order to complete the call. This service is furnished in conjunction with an intra-NPA long distance call placed through a "0" operator.

B. Application of Charges

1. The charge specified in S3.6.C. will be applicable to all subscribers except for residence customers who are unable to use a telephone directory because of a visual or physical handicap which can be confirmed by a physician, appropriate group, or agency.

2. Telephone Number Assistance Charge

a. A telephone number assistance charge applies to operator-assisted intra-NPA long distance Station-to-Station of Person-to-Person calls for which the "0" operator is required to obtain or to attempt to obtain the telephone number of the called party in order to complete the call.

b. Only one telephone number assistance charge will apply on any operator Person-to-Person intra-NPA long distance call.

c. On a completed collect intra-NPA long distance call, a telephone number assistance charge will be billed to the same telephone number or account number billed for the intra-NPA long distance call.

S3. MESSAGE TELECOMMUNICATIONS SERVICE

S3.6 INTRA-NPA LONG DISTANCE OPERATOR SERVICE REQUIRING TELEPHONE NUMBER ASSISTANCE (CONT'D)

B. Application of Charges (CONT'D)

2. Telephone Number Assistance Charge

d. A service charge, as specified in S3.6.C., for the long distance operator obtaining, or attempting to obtain, the telephone number of the called party will apply to all telephone number assistance calls described in S3.6.

C. Service Charge

1. Telephone Number Assistance Service Charge

S4. SERVICE CONNECTION CHARGES

CONTENTS

S4.1 General 1

S4.2 Definitions 1

S4.3 Application of Service Charges 6

S4.4 Rates 17

S4. SERVICE CONNECTION CHARGES

S4.1 GENERAL

A. Service charges are the nonrecurring charge or charges applied to the services ordered or connected into service at the customer's request. These include charges for initial commencement of service, changes, restoration, and rearranging of service or facilities.

B. Service charges may be paid under one of the following plans, at the option of the subscriber.

1. Plan 1 - Payment in full at the time service is requested.

2. Plan 2 - Payment in full, on first month's billing.

3. Plan 3 - Time payment of Service Connection Charges, over a period of 4 months. Service charges may be paid in monthly installments of not less than $10.00. In the event service is terminated, prior to the 4 months period, all outstanding amounts will become due and payable immediately.

S4.2 DEFINITIONS

A. Service Charge for Connection, Move or Change of Service

1. The term Service Charge as specified herein and in other sections of this Price list is defined as the non-recurring charge or charges applying to the ordering, installing, moving, changing, rearranging and furnishing of telephone service and miscellaneous and supplemental equipment, and other telephone facilities. Service Charges are categorized as

a. Service Ordering Charge,
b. Central Office Line Connection Charge,
c. Premises Work Charge and
d. Number Change Charge.

2. The Service Ordering Charge is separated into three categories.

a. The Service Ordering Charge with visit means the charge that applies per customer request for work performed by the Company in connection with the

S4. SERVICE CONNECTION CHARGES

S4.2 DEFINITIONS (Cont'd)

A. Service Charge for Connection, Move or Change of Service (Cont'd)

2. The Service Ordering Charge is separated into three categories. (Cont'd)

receiving, recording and processing of the customer request for service to be completed at one time and a visit to the customer's premises is required to complete the requested work. The service ordering functions covered by the initial increment of Premises Work Charges are equivalent to those covered by a Service Ordering Charge with visit; therefore, for purposes of this definition, the initial increment of the Premises Work Charge is considered to be comparable to a Service Ordering Charge with visit.

b. The Service Ordering Charge without visit means the charge that applies per customer request for work performed by the Company in connection with the receiving, recording and processing of the customer's request for service to be completed at one time and a visit to the customer's premise is not required to complete the requested work.

c. The Record Service Ordering Charge is the charge that applies to listing activity requested by the customer.

d. The term per customer request means all work or service ordered by one customer to be performed or provided at the same time on the same premises on the same system. Where both business and residence service is furnished on the same premises, the "per customer request" treatment is applicable separately for each service. When more than one Service Ordering Charge applies at the same time on the same premises, only one Service Ordering Charge with visit or first increment of the Premises Work Charge is applicable. The remaining Service Ordering Charges will be without premises visit.

S4. SERVICE CONNECTION CHARGES

S4.2 DEFINITIONS (Cont'd)

B. Central Office Line Connection Charge

The term "Central Office Line Connection Charge" applies to the charge for arranging an exchange line to provide service between central office and the customer's premises and/or other premises where the service is to be terminated. The charge applies for work including but not limited to:

1. Making and changing connections in the Central Office.
2. Making and changing connections in distribution facilities between the Central Office and the customer's premises, including necessary cross connections and line and station transfers.

C. Installation Charge

An Installation Charge is a nonrecurring charge applying to the provision of certain items of equipment or facilities as distinguished from a Service Charge applicable for establishing, moving or changing basic telephone service is in addition to applicable Service Charges. An Installation Charge may sometimes be referred to as an "initial or "nonrecurring" charge.

D. Termination Charge

A Termination Charge is a charge applying when a subscriber discontinues an item of service or equipment prior to the expiration of the initial service period designated for such item.

E. Restoration Charge

A Restoration Charge is a charge applying to restoring service following a temporary suspension of such service for nonpayment of charges.

S4. SERVICE CONNECTION CHARGES

S4.2 DEFINITIONS (Cont'd)

F. Maintenance of Service Charge

A Maintenance of Service Charge is a nonrecurring charge applicable for each repair visit to a customer's premises in connection with a service difficulty or trouble report due to the following:

1. A condition in a customer-provided terminal, or communications system, or customer-provided or maintained inside wiring arranged for connection to Company facilities;

2. A receiver off-hook condition in customer premises equipment;

3. Or where specifically stated in this Price list. It also applies to the testing of private line multipoint circuits when it is determined that the trouble is not in the Company-provided facilities.

G. Record Service Order Charge

A Record Service Order Charge is a charge involving customer listing activity requested by the customer, which requires no Company central office or customer premises action (other than changes from nonpublished listing to a listed number).

H. Number Change Charge

A Number Change Charge is a charge which applies for a customer originated request for a change of a telephone number, PABX or Centrex station number.

I. Standard Network Interface - Residence or Non-Key Business

The Standard Network Interface is that point on the customer's premises where all premises services are connected to the telecommunications network. The Standard Network Interface is a nontariffed weatherproof enclosure consisting of a protector, standard registration program jack or equivalent and an entrance bridging device.

S4. SERVICE CONNECTION CHARGES

S4.2 DEFINITIONS (Cont'd)

J. Customer Premises Inside Wire

Customer Premises Inside Wire is that wire that runs between the Standard Network Interface where the Exchange Access Lines terminate and those standard jack terminations or equivalent, including the standard jack or equivalent, on the customer's premises to which terminal equipment can be connected for access to the Exchange Access Line. Customer premises inside wire will be provided by the customer subject to the provisions of the General Exchange Tariff of this tariff, Part 68 of the Federal Communications Commission Rules and Regulations, applicable electrical codes and related Company practices. Company practices will be made available to the subscriber at the Telephone Company business office.

K. Premises Work Charge (Cont'd)

Premises Work is that work performed by a Company representative on a customer's premises exclusive of work required to establish or re-establish network access to a Standard Network Interface (unless specifically stated in this tariff) and includes but is not limited to service ordering and equipment handling. Therefore the appropriate charges for these work functions for residence and simple business applications is the respective Premises Work Charge. Additional charges may apply for services provided under applicable sections of this Price list.

L. Simple Business

The term Simple Business as specified herein is defined as business individual or party line basic exchange service which does not terminate in a communications system. The term Business Non-Key is synonymous with the term Simple Business.

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES

A. General

1. Service charges as used herein and in other sections of this tariff are applicable to the ordering, connecting, moving, changing, rearranging and furnishing of telephone service and other telephone facilities and service. The charges apply as follows except as provided hereinafter in other sections of this Price list.

2. Service order charges are applicable to the following services:

   a. All classes of Basic Local Exchange Service
   b. Coin Telephone Service
   c. Voice Mail
   d. Directory Listings
   e. Miscellaneous Service Arrangement and Auxiliary Equipment

3. Where the service desired necessitates the use of more than one item of service subject to the service charge, the total charge is the sum of the separate service charges for each item of service furnished, except as hereinafter provided.

4. When service is re-established at a location which has been destroyed or made untenable by fire, wind or flood, service charges for connection, move or change do not apply when service is re-established within a reasonable time. If the subscriber desires service at a new location for a temporary period, service charges for connection will apply for the establishment of service at a temporary location but no service charge will apply when service is re-established at the former location.

5. Service charges may be paid at the time of application of service or as otherwise provided herein.

6. Where service is established at a concession rate, except employees' concessions, no concession is allowed from the regular service charges.

7. Service charges apply to changing or adding custom calling features, number changes or any other miscellaneous service as specified in this Price list.

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application

1. Premises Work Charge

a. The Premises Work Charge applies for customer-requested change work performed by the Company on the customer's premises exclusive of establishing or re-establishing network access to a Network Interface located at the normal point designated by the Company.

b. The Premises Work Charge applies per Company employee performing billable work on the customer's premises. Billable Premises Work is work performed on a customer's premises by a Company employee or representative at the customer's request and not covered by other charges. This includes work preparation, actual work and cleanup. The sum of their time is used to determine the number of 15-minute increments to be billed with only one initial increment billed per service order worked except when the customer specifically requests more employees than the Company would normally dispatch. Where additional employees are specifically requested by the customer, the initial Company employee specifically requested.

c. Premises Work Charges will apply separately "per customer request" on service requests where billable premises work is performed.

d. Premises Work Charges are applicable, in addition to the charges for individual items of equipment or service in other section of this Price list.

e. Premises work performed beyond the protector or equivalent for Semi-Public Coin Telephone Service is billable work subject of the Non-Key Business Premises Work Charge.

f. Premises work performed beyond the protector, or equivalent, for Data Service, Intrastate Wide Area Telecommunications Service and Foreign Exchange Service is billable premises work subject to the appropriate Premises Work Charges.

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

1. Premises Work Charge (Cont'd)

g. Premises Work Charges apply to extend the location of the Standard Network Interface to a point requested by the customer which is other than where the Company would normally locate the Standard Network Interface.

h. Premises Work Charges apply for a customer requested relocation, change or modification of an existing Standard Network Interface.

i. Premises Work Charges apply for installing a Standard Network Interface to existing lines when requested by customer.

2. Service Charges for Connection of New Service

a. Except as provided hereinafter, all requests for services requiring service ordering, central office line connection or premises work are subject to the appropriate charge(s) required to provide that service as provided for in the preceding schedule of charges.

b. Where the service desired requires more than one central office line connection charge, the sum of the separate charges for each function applies except as hereinafter provided. Service Ordering Charges apply as indicated in Definitions 1.b.

c. Service charges are not applicable to orders covering full disconnections.

d. When service is re-established at a location which has been destroyed by fire or made untenantable by fire, wind or flood, service charges for connection, move or change do not apply. If the subscriber desires service at a new location for a temporary period, service charges for connection will apply for the establishment of service at the temporary location. Charges in the location of existing stations to points outside the premises

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

2. Service Charges for Connection of New Service (Cont'd)

d. (Cont'd)

occupied by the subscriber are considered new service connections at the new locations.

e. Service charges for connection, move or change do not apply to telephone service previously provided over a Government System in military housing where there is no break in the continuity of service.

f. Transfers of responsibility or change of name involving a change of responsibility should be handled in accordance with provisions of Rules and Regulations, Transfer of Service Between Subscribers. If the change does not require central office line connection work or premises work, a Service Ordering Charge without premises visit is applicable. If the change does involve central office line connection work and/or premises work or number change, the charge for each element of the Service Charge will apply as appropriate.

g. Residence customers using PABX or Key equipment at their residence (except one-button telephone and keyless telephone equipped with external key for two-line pickup) are subject to the Key or PABX Service Charges.

h. For Intrastate Wide Area Telecommunications Service Access Line, the application of service charges is identical to the application of service charges for business non-key, unless specifically stated in this Price list.

i. For Semi-public Coin Telephone Service, the Business Non-Key Service Connection Charges apply.

j. Billable work performed by Company employees located at an on-premises work station is subject to the initial increment of the Premises Work Charge (plus subsequent increments as appropriate).

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

3. Service Charges for Adding New or Additional Service and Equipment Other than Central Office Lines or Moving or Changing Existing Service and Equipment

a. Adding New or Additional Service or Equipment Other than Central Office Lines

On orders for new items of equipment other than central office lines and trunks, the appropriate service charges will apply for service ordering and premises work plus any Installation Charge associated with the particular item being connected.

b. Moving or Changing Existing Service or Equipment

(1) The appropriate charges for Service Ordering and Premises Work Charges apply as indicated in Definitions preceding; except in those cases where the Premises Work Charges are based on the estimated cost of making the move or change required.

(2) In connection with changes, except as provided herein and except when a Basic Termination Charge or minimum service period applies, nonrecurring charges expressly stated in other sections of this Price list will apply in addition to the Service Ordering and appropriate applicable Service Ordering and Premises Work Charges.

(3) For rearrangement of drop wire and/or protector, the appropriate charge for Office Line Connection Charges are applicable.

(4) For a customer originated change of telephone number or PABX or Centrex station number, a Number Change Charge is applicable for each number changed, plus the appropriate Service Ordering Charge.

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

3. Service Charges for Adding New or Additional Service and Equipment Other than Central Office Lines or Moving or Changing Existing Service and Equipment (Cont'd)

b. Moving or Changing Existing Service or Equipment (Cont'd)

(5) For a change from Residence to Business Service, without a number change, the Business Service Ordering Charge, without visit, is applicable. For a change from Business to Residence, the Residence Service Ordering Charge, plus a Residence Number Change Charge is applicable. When downgrading from a Business to Residence Service, the number must be changed.

4. Service Charges Except Where Specifically Stated, Do Not Apply in the Cases Listed Below:

a. Changing from a private listing to a listed number.

b. Changes in telephone numbers made, when in the judgment of the Company, such changes are necessary for continuation of satisfactory service.

c. Orderings covering full or partial disconnection.

d. For each of the cases listed above, any additional work done concurrently with excepted work will entail service charges applicable to that work.

5. Installation Charge

Installation Charges, where applicable, are identified and presented throughout this Price List as a part of the offering of individual items of equipment or of service features.

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

6. Termination Charge

A Termination Charge is determined by applying the percentage if the unexpired portion of the Basic Termination Charge for the Initial Service Period to the full Initial Service Period.

a. The Basic Termination Charge and the Initial Service Period are indicated in the section of this Price list covering the service items to which they apply.

b. When a subscriber cancels an order for service carrying a Basic Termination Charge prior to the establishment of that service, a Termination Charge applies equal to the cost incurred by the Company in engineering, ordering and providing the equipment and disposing of it, less credits obtained through disposal. The Termination Charge in this event will not exceed the Basic Termination Charge.

7. Minimum Service Charge for Willful Destruction of Telephone Lines or Equipment

The Company undertakes to maintain and repair the facilities which it leases to customers. The customer is assessed the actual cost of each apparatus, equipment, or lines destroyed due to malicious, willful and negligent damage. The customer may not, nor permit others to, rearrange, disconnect or remove any equipment or wiring installed by the Company.

If facilities are rearranged, disconnected or removed, the Company shall have the right to make a charge sufficient to recover any losses experienced as a result of such unauthorized tampering.

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

7. (Cont'd)

When the Company is required to make a visit to the customer's premises for the purposed of correcting a trouble caused by willful destruction of the telephone lines or equipment, the minimum service charge, consisting of the appropriate first and additional increments, as specified below, will apply if another specific service charge does not apply.

The minimum Charge for willful, malicious or negligent damage to Residential and Simple Business service is the Appropriate Premises Work Charge as set forth in the rates shown below. The minimum Charge for willful, malicious or negligent damage to Key, PABX, and Centrex service is the Complex Premises Work Charge as set forth in the rates shown below.

8. Maintenance of Service Charge

The customer shall be responsible for the payment of Company charges for visits by the Company to the customer's premises where a service difficulty or trouble report results from customer-provided equipment or facilities. If the customer has a maintenance contract with the Telephone Company for the customer-provided equipment or facilities causing the service difficulty, the following charges will not be applicable. In the absence of a maintenance contract with the Telephone Company for the customer-provided equipment causing the service difficulty, the charges shown in Section S4.3(B)(7) above will apply.

9. Restoration and Suspension Charges

In the event service is temporarily suspended for non-payment, such service will be restored upon payment of all charges due.

Restoration Charge of Service Order Premise Visit Not Required and a Central Office Line Connection Charge, per central office line or trunk will apply for private lines disconnected in the central office.

S4. SERVICE CONNECTION CHARGES

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

9. Restoration and Suspension Charges (Cont'd)

Restoration Charge of a Service Order Charge and a Central Office Line Charge, per central office line will apply for party lines. Private lines not disconnected in the central office will pay Premise Visit Charge and Central Office Line Charge.

If the premises are visited to temporarily disconnect service for nonpayment and at the time the Company agent is on the premises, payment is rendered, even if service is not disconnected, the subscriber will be required to pay a Service Order Premise Visit Charge.

Customers not reconnected within ten (10) calendar days from date of suspension will be treated as a new customer and appropriate service charges and a new deposit will apply.

When, at the request of a customer, service is temporarily suspended (fully or partially), a Service Ordering Charge will apply at the time of suspension.

10. Visit Charge

a. Rates

1. When a regular visit is required during normal working hours as a result of trouble caused by customer-provided equipment, the charge billed will be the charge set forth under Maintenance of Service Charge. A minimum charge of the initial Premises Work Charge will apply with time over the minimum being computed on fifteen minute increments.

2. When a premise visit is required during other than regular working hours, such as nights, Sundays or holidays, as a result of trouble caused by customer-provided equipment, the charge billed will be the charge set forth under Maintenance of Service Charge.

S4.3 APPLICATION OF SERVICE CHARGES (Cont'd)

B. Application (Cont'd)

10. Visit Charge (Cont'd)

a. Rates (Cont'd)

(2) (Cont'd)

(a) Charges will begin and terminate from the time of departure from the nearest available maintenance personnel's permanent headquarters and his return thereto.

(b) A two hour minimum will apply with time over being computed to the nearest fifteen-minute increment thereof.

b. Conditions

1. The following procedures will apply when the Company becomes aware of a trouble condition:

(a) The Company will first endeavor to clear the trouble without a visit to the customer's premises.

(b) If the location of the trouble cannot be determined as shown in 1(a) above, the company will attempt to contact the customer by telephone. If the customer is so contacted, the Company will request the customer to disconnect the customer-provided equipment or facilities in order to determine the location of the trouble condition. If disconnection of the customer-provided equipment or facilities does not clear the trouble and a visit to the customer's premises is necessary and the trouble found is not the results of the customer-provided equipment or facilities, no visit charge will apply.

B. Application (Cont'd)

10. Visit Charge (Cont'd)

b. Conditions (cont'd)

1. (Cont'd)

(c) If the customer does not or cannot disconnect the customer-provided equipment or facilities from the line, the Company will initiate a premises visit to establish the location of the trouble. If the source of the trouble is determined to be located in customer-provided equipment or facilities, the appropriate visit charge will apply.

(d) If a customer cannot be contacted, the Company may, at its option, temporarily disconnect the customer's service until the customer can be contacted and the trouble source determined. At such time, the procedures set forth in 1b. and 1c. above may apply.

(e) Upon contact, the customer may request the company to defer its visit until the customer has his customer-provided equipment or facilities tested, in which case, circumstances permitting, the Company will delay its visit for a reasonable time.

(f) If the customer asks the Company to defer its visit in accordance to 1e. above, and does not disconnect his equipment, repair or cause to be repaired his equipment or consent to a visit by the company within a reasonable time, the Company has the right to take such action necessary for the protection of it's facilities and shall immediately inform the customer of such action.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.1 CUSTOM CALLING SERVICES

A. Definitions

1. Call Waiting

This feature signals a subscriber talking on his line that another call has been placed to his line. The subscriber may place either call on hold while talking to the other.

2. Call Forwarding

With this feature all incoming calls are forwarded to another telephone number. This arrangement may be activated by dialing a code and the telephone number of the service to which calls are to be forwarded and is deactivated by dialing another number. The Call Forwarding customer is responsible for the payment of any applicable message unit charge or direct distance dialed message toll charge for each call between his Call Forwarding telephone and the telephone to which the call is being forwarded. The charge applies to all calls that are answered at the telephone to which the calls are being forwarded, including person-to-person and collect calls even though they may not be accepted at the answering service.

3. Three-Way Calling

This feature enables a third party to be added to a two-way conversation without operator assistance.

4. Speed Calling

This feature permits up to eight (8) predesignated telephone numbers to be accessed by dialing a one-digit code. Up to 30 predesignated telephone numbers can be accessed by a two-digit code.

8. Call Transfer

This feature permits a customer to transfer incoming calls to another designated telephone number by notifying the telephone company.

6. Direct Connect

This feature will automatically dial a predesignated telephone number after the telephone receiver has been left off-hook for a specific length of time.

B. General

1. Custom Calling Services are furnished subject to the availability of special central office facilities.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.1 CUSTOM CALLING SERVICES (Cont'd)

B. General (Cont'd)

2. Custom Calling Services are available to residence and business customers with one party telephone service only.

3. No assurance can be given that transmission will be fully satisfactory during conference and call forwarding calls.

C. Rates

1. The following rates and charges are in addition to all other applicable rates and charges for service furnished.

	Monthly Rate Per C. O. Line Equipped	
	Business	Residence
a. Call Waiting	$ 2.82	$ 2.47
b. Call Forwarding	2.82	2.47
c. Three-Way Calling	3.53	3.16
d. Warm Hotline	2.82	2.47
e. Speed Calling 1	2.33	1.76
f. Speed Calling 2	2.82	2.47

2. Packages

a. Call Waiting with Call Forwarding	$ 4.87	$ 3.75
b. Call Waiting with Three-Way Calling	5.10	4.02
c. Call Forwarding with Three-Way Calling	5.63	4.22
d. Call Forwarding with Call Transfer	4.21	2.94
e. Call Transfer with Three-Way Calling	5.63	4.43
f. Call Waiting with Three-Way Calling	$7.04	$5.02
l. Speed Calling - Abbreviated Dialing (8) with Direct Connect	4.36	3.36
m. Speed Calling - Abbreviated Dialing (30) with Direct Connect	4.87	3.69

S5.2 TOLL RESTRICTION SERVICE

A. General

1. Toll Restriction is a service which enables customers to restrict certain types of outgoing calls from being placed over their exchange lines/trunks. This capability is provided only by means of recorded announcement restriction. It is available to basic exchange customers with Individual Lines Residence or Business Service.

2. Toll Restriction is furnished only from central offices equipped to provide this service and where facilities permit.

3. Subscribing to Toll Restriction does not relieve customers of responsibility for calls charged to their numbers.

4. The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes.

5. Toll Restriction does not provide restriction of non-chargeable calls to Company numbers, such as Repair Service or Public Service Emergency numbers (911).

6. Codes that can be screened are 1+, 0-, 0+, 00-, (1+/0+) 411, 976, NPA 900, 1DDD 01+, 1DDD 011+.

7. The initial request for blocking of 900 and 976 calls is provided at no charge to the customer.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.2 TOLL RESTRICTION SERVICE (Cont'd)

B. Rates

The monthly rate for Toll Restriction Service is $2.12

C. Toll Restriction with PIN Override

1. Customers may override Toll Restriction on a per call basis, leaving the call blocking feature intact on subsequent calls. To do so, customers must first dial a special PIN (1-7 digits). No PIN will be necessary to dial the Company's local calling area, 911 or 800 numbers. Subscribers have the ability to change their PIN through the use of a PIN Change Access Code.

S5.3 OFF PREMISES STATION SERVICE

A. General

An auxiliary station is an additional station connected on the same circuit as the main station, and having the same number as the telephone station.

B. Conditions

1. Off premises stations may be furnished subject to the following conditions:

   a. May be located on the premises of another customer and restricted to answering incoming calls only provided the other has his own s eparate service at the same location.

   b. Business off premises stations may be provided at a residence location of the same customer residence main station service is also provided.

   c. Residence off premises stations may be provided at a business location of the same customer where business main station service is also provided.

   d. Mileage charges shown applicable will be based upon the route measurement mileage between the locations of the main stations.

C. Rates

	Rate
1. Off Premises Station Mileage, per 1/4 mile or fraction thereof route measurement.	$1.41

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.4 DIRECT INWARD DIALING (DID) SERVICE

A. General

1. Direct Inward Dialing (DID) Service provides for inward dialing from the telecommunications network directly to stations associated with switching equipment located on the customer's premises. DID Service requires special equipment and will be provided only where DID facilities are available in the central office, and the switching equipment located on the customer's premises is properly equipped for DID Service. The Company's obligation to furnish service is dependent upon its ability to procure and retain, without unreasonable expense, suitable facilities and rights for the provision of such service.

2. DID Service must be provided on all trunks in a group arranged for inward service. Routing of calls to selected numbers within the DID number group over a separate group is not contemplated.

3. All switching systems with which DID Service is associated must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.

4. Where DID Service is requested from more than one wire center or from separate trunk groups within the same wire center, such service provided from each wire center or each trunk group within the same wire center shall be considered a separate service.

5. DID Service is furnished upon the condition that the customer obtain adequate facilities to permit the use of DID Service without injurious effect upon it or any other service provided by the Telephone Company. The Telephone Company may terminate or refuse to furnish service to any customer, without incurring any liability, if the use of the service would interfere with or impair other services provided by the Telephone Company. In the case of such termination of service, at least five days must have elapsed following written notification to the customer by mail, or in person, of the Telephone Company's intention to terminate the service.

6. A Minimum Revenue Guarantee (MRG) shall be an amount equal to six months revenue due the Telephone Company from the customer from the date of cutover of the service. This MRG reduces 1/6 for each month of service provided.

B. Rates

	Monthly Rate	Installation Charge
Standard DID Service:		
Per 20 lines equipped	$3.00	$350.00

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.5 RESERVED FOR FUTURE USE.

S5.6 SPECIAL BILLING NUMBER SERVICE

A. General

Special Billing Number Service contemplates a separate listing of toll telephone messages each month for each special billing number used in placing toll calls.

B. Conditions

1. Special Billing Number Service may be provided in conjunction with P.B.X. Services.

2. The minimum period for which this service may be offered is six (6) months.

C. Rates

	Monthly Rates
Each special billing number	$2.50

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.7 ENHANCED CUSTOM CALLING SERVICE

A. General

Enhanced custom calling service is a group of central office call management features offered in addition to basic telephone service. Enhanced custom calling service consists of the features defined below.

B. Definitions

1. Auto Call Back

This feature enables a customer to place a call to the telephone number associated with the most recent call received whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next thirty minutes both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.

2. Repeat Dialing

Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next thirty minutes both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.7 ENHANCED CUSTOM CALLING SERVICE (Cont'd)

B. Definitions (Cont'd)

3. Priority Call

4. Priority Call provides a distinctive ringing pattern to the subscribing customer for up to four specific telephone numbers. The customer creates a screening list of up to four telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a Priority Call pattern is a (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring. If the customer subscribes to Call Waiting and a call is received from a telephone number on the Call Selector screening list while the line is in use, the Call Waiting tone will also be distinctive. When a telephone number on the Priority Call screening list also appears on the Preferred Call Forwarding list, the Preferred Call Forwarding will take precedence. Likewise, when the same number is shown on the Call Block list, the call will be blocked. A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or an identified telephone number that represents all the lines in a collection of lines, such as multiline hunt groups.

5. Preferred Call Forwarding

Preferred Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to ten numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list. If the customer also subscribes to Call Block and the same telephone number is entered on both screening lists, the Call Block feature must be deactivated to allow the call to forward. This feature will not work if the calling line is not referenced to and originated by the main telephone number, or an identified telephone number that represents all the lines in a collection of lines such as multiline hunt groups.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.7 ENHANCED CUSTOM CALLING SERVICE (Cont'd)

B. Definitions (Cont'd)

6. Call Block

This feature provides the customer the ability to prevent incoming calls from up to ten different telephone numbers. A screening list is created by the customer either by adding the last number associated with the line or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive his call at this time. If the customer also subscribes to Preferred Call Forwarding and/or Distinctive Ringing and the same telephone numbers appear on those screening lists, Call Block will take precedence. This feature will not work if the incoming call is from a telephone number in a multiline hunt group unless the telephone number is the main telephone number in the hunt group, or is telephone number identified.

7. Call Trace

Call Tracing enables the customer to initiate an automatic trace of the last call received. Upon activation by the customer, the network automatically sends a message to the Telephone Company indicating the calling number, the time the trace was activated, and in some locations, the time this feature would be required to contact the appropriate law enforcement official. Only calls from within Enhanced Custom Calling Service equipped offices are traceable using Call Tracing. This feature will not work if the incoming call is from a telephone number in a multiline hunt group, unless the telephone number is the main telephone number in the hunt group, or is telephone number identified. In some locations, if the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, Call Tracing will not record the correct number.

8. Call Selector

Call Selector allows the customer to select up to ten customer telephone numbers from which calls are to be received. All other calls are routed to a recorded announcement that informs the caller that the customer does not wish to receive his call. Call Selector takes precedence over Call Block, Preferred Call Forwarding, and Distinctive Ringing. If a calling number is not on the customer's list, no further screening feature is required.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.7 ENHANCED CUSTOM CALLING SERVICE (Cont'd)

B. Definitions (Cont'd)

8. Caller ID

This feature enables the customer to view on a customer provided display unit the Directory Number (DN) on incoming telephone calls. When Caller ID is activated on a customer's line, the Directory Numbers of incoming calls are displayed during the first long silent interval of the ringing cycle. Any customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of this equipment to perform satisfactorily with the network features described herein. If the incoming call is from a caller who subscribes to Teen Service, the telephone number transmitted will always be the main number rather than the Teen Service number. If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for display. If the incoming call originates from a multi-line hunt group, the telephone number transmitted will always be the main number of the hunt group. Caller ID is not available operator handled calls.

9. Caller ID Blocking - Per Line

This feature enables certain customers as described in S5.7.C.1.c to prevent the transmission of their Directory Number on all outgoing calls placed from the customer's line. Calling Number Delivery Blocking - Per Line is in operation on a continuous basis. If the preassigned access code for Calling Number Delivery Blocking - Per Call is dialed on a line that is provisioned with Calling Number Delivery - Per Line, the Directory Number may be delivered.

10. Caller ID Blocking - Per Call

This feature allows a customer to temporarily prevent the transmission of that customer's directory number (DN) and thus control its availability to the called party. The transmission of the Directory Number can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number.

11. Caller I.D. Deluxe

This feature allows a customer to see the name and number of the person or entity calling the customer.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.7 ENHANCED CUSTOM CALLING SERVICE (Cont'd)

B. Definitions (Cont'd)

12. Call Waiting Deluxe

This feature allows a customer to see the name and number of the person or entity calling the customer both when the line is in use and when it is not in use. Anonymous call rejection is provided without charge to customers subscribing to Call Waiting Deluxe.

13. Do Not Disturb

This feature allows a subscriber to divert incoming calls to an announcement stating that the station is in the Do Not Disturb status. The calling party then has the option of dialing a pre-arranged Personal Identification Number (PIN) which will override the Do Not Disturb function and allow the call to be completed.

14. Busy Line Call Forwarding

This feature provides for calls terminating to a customer's busy telephone line to be forwarded to another telephone number. The Company sets up the Call Forwarding telephone number per the customer's instruction. Changes to the call forwarding telephone number set up are subject to appropriate Service Connection Charges, as described in Section 4 of this Price List.

15. Don't Answer Call Forwarding

This feature provides for calls terminating to a customer's idle telephone line to be forwarded to another telephone number after a preselected number of rings. The Company sets up the Call Forwarding telephone number per the customer's instruction. Changes to the call forwarding telephone number set up are subject to appropriate Service Connection Charges, as described in Section 4 of this Price List.

C. Conditions

1. The Following Limitations Apply:

a. Enhanced service is provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within Enhanced service equipped offices. Also, feature screening lists can only contain telephone numbers of subscribers served out of Enhanced service equipped offices.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.7 ENHANCED CUSTOM CALLING SERVICE (Cont'd)

C. Conditions (Cont'd)

1. The Following Limitations Apply: (Cont'd)

b. The service will not work on an originating basis with Company provided Public and Semi-Public Telephone Service, toll terminals or trunks.

c. Appropriate service order charges apply except during Company selected periods of special promotion. These charges will apply when the Company is required to restore functions that are disabled by the customer, i.e., reestablished screening lists.

2. All Limitations listed in S7.12 C.1. are applicable to the Caller ID feature in addition to the following:

a. The Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-published Listing Service as described in Section 15 of this Price List.

b. Calling Number Delivery Blocking - Per Line is available free of charge upon request to domestic violence intervention agencies, state and county departments of human resource shelters, the Attorney General Crime Victim Assistance office, and other such agencies, their employees and volunteers, or individuals where it is certified that the personal safety of these employees or individuals will be jeopardized without Per Line blocking.

c. Calling Number Delivery Blocking - Per Call is provided free of charge subject to availability of facilities where technically feasible. The Company assumes no liability for and will be held harmless from any incompatibility of the customer's provided equipment to perform satisfactorily with the network feature described herein.

S5.8 DIRECTORY ASSISTANCE CALL COMPLETION SERVICE

A. Description of Service

1. Directory Assistance Call Completion (DACC) is an optional service provided to users of Directory Assistance (DA) Service.
2. DA customers may choose to have the telephone number they are requesting dialed by the DA Operator System.
3. The service is available to Business and Residence customers except as limited in S3.7.4 following.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.8 DIRECTORY ASSISTANCE CALL COMPLETION SERVICE (Cont'd)

A. Description of Service (Cont'd)

4. Individual message detail is not included as a part of this service.

5. The service is available only where billing and network capability exists.

6. Customers may request blocking of DACC calls originating from their telephone lines by contacting the local Company business office.

B. Limitations of Service

1. The service is not available for the following classes of service call categories:

a. UniServ DA number requests
b. Any Special Line Class Codes
c. 976 DA number requests
d. Alternately Billed Calls; e.g., Collect, Calling Card, or Billed to Third Number
e. Calls from tandems where the end user cannot be identified
f. Calls from Payphone Service Provider Telephones

C. Application of Charges and Exemptions

1. The charges specified in S3.14.6 following will be applicable to all subscribers.

2. Chargeable Calls

For charging purposes, a DACC completed call is defined as a call whereby customers who obtain a telephone number from Directory Assistance will also be connected to the number without having to hang up.

D. Rates and Charges

Charge Per Completed Call	$1.00

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.9 N11 ABBREVIATED DIALING CODES

A. Description

1. Abbreviated dialing codes enable callers to connect to a location in the phone network that otherwise would be accessible only via a seven or ten-digit telephone number. The network must be pre-programmed to translate the three-digit code into the appropriate seven or ten-digit telephone number and route the call accordingly. For N11 codes, the first digit can be any digit other than 1 or 0, and the last two digits are both 1.

2. The following N11 abbreviated dialing codes were assigned for specific uses by FCC Decisions Nos. 97-51 and 00-256, issued in CC Docket 92-105:

211 - Community Information and Referral Services

311 - Non-Emergency Governmental Services

511 - Traffic and Transportation Information

711 - Telecommunications Relay Service

811 - One-Call Notification Systems

B. Terms and Conditions

1. The offering of these abbreviated dialing codes can be delivered via regular exchange access lines (by individual business line, residential line, PBX trunks, etc.)

2. Access to these abbreviated dialing codes is not available through the following dialing arrangements:

1+
0+, 0- (credit card, third-party billing, collect calls)
101XXXX

Operator assisted calls will not be completed.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.9 N11 ABBREVIATED DIALING CODES (Cont'd)

B. Terms and Conditions (Cont'd)

3. The Company will provide only the delivery of the calls. The entity that has been granted authorization to use the N11 abbreviated dialing code will be responsible for providing any announcements and services to the callers.

4. Directory listings may be provided for N11 services under the terms, conditions, and rates specified in Section 10 of this tariff.

5. The N11 subscriber must comply with any orders and rules pertaining to the provisioning of N11 service, as adopted by the FCC in CC Docket 92-105 and any subsequent orders and is restricted from selling or transferring the N11 code to an unaffiliated entity, either directly or indirectly.

6. Calls to the N11 code that translate to a disconnected number will be routed to intercept or a maximum of sixty (60) days when the N11 provider is a Company subscriber.

7. Disputes regarding geographic coverage by two or more N11 subscribers will be referred to the Alabama Public Service Commission.

8. Only a single seven or ten-digit local number or a single ten-digit toll free number may be used as the point-to-point number.

9. The N11 subscriber should work separately with cellular or wireless companies and competitive local exchange carriers (CLECs) to ascertain whether the CLEC, cellular or wireless customers will be able to reach referral services provided by dialing N11, which is not the responsibility of the Company.

10. N11 will be provided under the following conditions:

(a) The N11 subscriber will subscribe to adequate telephone facilities initially and subsequently as may be required to adequately handle calls to N11 without impairing the Company's general telephone service or telephone plant.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.9 N11 ABBREVIATED DIALING CODES (Cont'd)

B. Terms and Conditions (Cont'd)

10. N11 will be provided under the following conditions: (Cont'd)

(b) The N11 subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks and patents used in connection with said service.

(c) The N11 subscriber will be liable for, and will indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith, including but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, of any patent, trademark, copyright, or resulting from any claim of liable and slander.

(d) Suspension of N11 Service is not allowed.

(e) The N11 subscriber will respond promptly to any and all complaints lodged with any regulatory authority against any service provided via N11. If requested by the Company, the N11 subscriber will assist the Company in responding to complaints made to the Company concerning the subscriber's N11 Service.

(f) The Company will provide both oral and written notification when a N11 subscriber's service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of N11. The Company reserves the right once notification is made to institute protective measures up to and including termination at any time and without further notice. The Company may take protective

10. N11 will be provided under the following conditions: (Cont'd)

(f) (Cont'd)

measures when the N11 subscriber makes no modification or is unwilling to accept modification in method of operation, or continues to cause service impairments.

11. The following conditions apply if the Nl1 subscriber provides a pre-recorded announcement:

(a) The N11 subscriber will provide the announcements. The Company will provide only delivery of the call.

(b) The provision of access to the N11 network by the Company for the transmission of announcements or recorded program services is subject to the availability of such facilities and the requirements of the local exchange network.

(c) The N11 subscriber assumes all financial responsibility for all costs involved in providing announcements or recorded program services including, but not limited to, the recorder-announcement equipment producing the recording, advertising and promotional expenses.

(d) The N11 subscriber assumes all financial responsibility, according to other specific rates and charges under tariff, for all facilities required to connect the recorder-announcement equipment located on the subscriber's premises.

12. The Company may take all legal and practical steps to disassociate itself from N11 subscribers whose business and/or public conduct (whether demonstrated or proposed) is of a type that in the Company's discretion generates unacceptable levels of complaints by end users.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.9 N11 ABBREVIATED DIALING CODES (Cont'd)

B. Terms and Conditions (Cont'd)

13. The Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties in Company facilities and equipment or on equipment owned or leased by the subscriber.

14. The Company, its employees, or its agents are not liable to any person for civil damages resulting from or caused by any act or omission in development, design, installation, operation, maintenance, performance or provision of N11 service, except for willful or wanton misconduct.

C. Rates and Charges

	Nonrecurring Charge
Initial Setup, Per Exchange	$300.00
Subsequent Changes, Per Exchange	$ 50.00

S5.10 Regular Reminder Call

A. An alarm call service that allows subscribers to set reminders for a specific date in the future or for regular calls at the same time each day. A reminder may be scheduled for any date up to one year. Offered with Voice Mail service or as a standalone service.

B. Monthly Rate $3.87

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.11 VOICE MAIL BASIC SERVICE

A. Voice Mail Basic is a central office based service which provides customers with the capability to receive, send, store and retrieve voice messages over the telephone network. Voice Mail Basic answers incoming calls placed to the customer's telephone line when the called number is busy and/or if the called number does not answer. The service will greet incoming callers with a personal or a company-provided greeting. It then receives and saves the caller's messages for retrieval by the customer at any time, from anywhere, using only a touchtone telephone and a four digit personal identification number (PIN).

One or both of the following features are required to make Voice Mail Service operational:

1. Busy Line Call Forwarding
2. Don't Answer Call Forwarding

These required features (the Voice Mail Service Package) will be offered at a monthly rate as listed below. Any additional Call Forwarding features requested by the Voice Mail customer will be provisioned from the Custom Calling Services Price list at the specified monthly rate.

B. Rates

	Monthly Rate
Residential Voice Mail	$ 2.95
Business Voice Mail	$ 3.10

C. Limitations

Messages may be altered or destroyed during collection or distribution of the customer's message(s) due to faults or defects in Company equipment. The Company shall not be liable, directly or indirectly, for damages unless caused by the willful misconduct of the Company.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.12 TEEN LINE

A. General

1. Teen Line provides three additional telephone numbers to an existing telephone line. Each number will have a distinctive coded ring to identify which telephone number is being called. Each line equipped with a second telephone number will have a directory listing for both the primary and secondary numbers at no additional charge. Additional directory listings may be furnished at the Additional Listing Rate specified in Section 15 of this price list.

2. Teen Line may only be added to an existing Residence or Business service. This feature will only be provided from central offices equipped for this service.

3. If a customer has Teen Line and Call Forwarding, one of the following options must be selected:

Option 1: Calls placed to both telephone numbers are forwarded.
Option 2: Calls to the Primary Directory Number only are forwarded.

These options are programmed in the serving central office and can be changed only by company personnel. Appropriate Service Order Charges will be applied for any changes made after the initial installation of this service.

A Secondary Service Order Charge applies in addition to a Central Office Work Charge when Teen Line is ordered as part of new service, as an addition to existing service, or to change the service.

B. Rates

1. The following monthly rates apply for each Teen Line:

Residence	Business
$15.41	$12.77

Rates for this service are determined in the same manner as set forth elsewhere in this price list for regular Residence and Business services.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.13 INSIDE WIRE MAINTENANCE PLAN

A. Description of Service

The Inside Wire Maintenance Plan covers equipment malfunctions from the Network Interface to the modular jacks inside the customer premises. The plan does not cover telephone equipment.

B. Requirements for Subscription to Plan

1. Any customer-owned equipment must meet any applicable electrical codes, the rules and regulations set forth in 47 C.F.R. Part 68, and any applicable company-imposed rules or practices, AND

2. a. Inside Wiring must be inspected and approved by a Pine Belt representative OR

b. An initial thirty (30) day waiting period must pass after the service is ordered.

C. Price $3.10/month

S5.14 BUNDLED OFFERINGS

A. General

1. Pine Belt offers numerous bundled offerings containing several combinations of popular services. Several such offerings are available exclusively to residential customers, other offerings are available exclusively to business customers.

2. Additional features (basic or advanced) may be added to any of the bundles below. For all residential customers and business customers subscribing to one (1) line, such features will be sold at the rates and under the descriptions, rates, and other regulations found in Pine Belt’s tariff, on file with the Alabama Public Service Commission. For all business customers subscribing to more than one (1) line, such features are available at a discounted rate, denominated as a “package rate,” as shown below.

S5. MISCELLANEOUS SERVICE ARRANGEMENTS

S5.14 BUNDLED OFFERINGS (Cont'd)

A. General (Cont'd)

3. All bundled offerings include domestic long-distance service, but customers may choose a different long-distance carrier as their Primary Interexchange Carrier (PIC). In the event a customer chooses a carrier other than Pine Belt as its PIC, the customer will owe no usage-sensitive charges otherwise applicable to the use of long-distance services. The customer will not, however, receive or be entitled to any sort of discount on the monthly rate charged for the bundle.

S7. PRIVATE LINE SERVICE

CONTENTS

S7.1 Undertaking of the Company 1

S7.2 DS1 Service 5

S7.3 Digital Local Channels 15

S7.4 Voice Grade Service 17

S.7 INTRALATA PRIVATE LINE SERVICE

S7.1 UNDERTAKING OF THE COMPANY

A. Provision of Facilities

1. The Company or the Company and other carriers will provide all facilities necessary for private line service to the demarcation point at a customer premises, except that, the customer or authorized user may provide his own terminal equipment or communications systems for use with such service as specified in 1. through 3. following or as otherwise specified hereinafter.

   (a) Where the customer or authorized user provides his own communications system, or terminal equipment the customer or user shall provide all station apparatus and associated channels which are a part of the system and which are located on the same customer's premises as the system.

   (b) When a private line is used for data transmission which requires terminal equipment (data sets), such data sets may be provided by the customer or authorized user except that the Company shall furnish all data sets located in the Company's central offices. Where the customer or authorized user elects to provide his own data set(s) on a given private line, it shall be the responsibility of the customer or authorized user to ensure the continuing compatibility of such data set(s) with the facilities furnished by the Company.

   (c) When a private line is used for transmission purposes other than voice, it is contemplated that the customer or authorized user will provide the station equipment for such other purposes.

2. The Company undertakes to maintain and repair the facilities which it furnishes. The Customer or authorized user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company except upon the written consent of the Company.

S.7 INTRALATA PRIVATE LINE SERVICE

S7.1 UNDERTAKING OF THE COMPANY (Cont'd)

C. Work Performed Outside Regular Working Hours

The rates and charges specified in this Price list contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the customer. If, at the request of the customer, work is performed outside of regular working hours, either to meet his convenience or because the time allowed is insufficient to permit completion during regular hours or if the customer interrupts work which has begun, the customer may be required to pay any additional costs incurred.

C. Scope

1. IntraLATA Private Line Service is the furnishing of the Company facilities for communication between specified locations 24 hours daily seven days per week. Facilities may be those of the company only or those of the Company and connecting companies.

2. The Company does not undertake to transmit messages.

3. IntraLATA Private Line Services not specified in this Price list will be provided on an Individual Case Basis (ICB).

4. IntraLATA Private Line Service is available to end user customers only. BellSouth, IXC competitive local exchange carriers and other carriers must order under the Company's Special Access Tariff.

5. Provisions of Private Line Services referenced in this Section are subject to availability of Company facilities, equipment, and technical capabilities, and, as applicable any limitations and operating characteristics of equipment and technical capabilities.

D. Liability

1. The Company is not liable for any act or omission of the other company or companies furnishing a portion of the service.

S.7 INTRALATA PRIVATE LINE SERVICE

S7.1 UNDERTAKING OF THE COMPANY (Cont'd)

D. Liability (Cont'd)

2. The Company does not guarantee or make any warranty with respect to equipment provided for use in an explosive atmosphere. The customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, where suffered, made, instituted or asserted by the customer or by any other party or person, or any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of said equipment so provided.

3. The Company may require each customer to sign an agreement for the furnishing of such equipment as a condition precedent to the furnishing of such equipment.

4. The Company shall be under no liability for the quality or defects in voice recordings where Company combined transmitting and recording equipment is utilized in making such recordings.

5. Unauthorized Computer Intrusion

The Company's liability, if any, for its willful misconduct is not limited by this section of the Price list. With respect to any other claim or suit by a subscriber, common carrier, reseller, or any other party for damages caused by, or associated with, any unauthorized computer intrusion, including but not limited to the input of damaging information such as a virus, time bomb, any unauthorized access, interference, alteration, destruction, theft of, or tampering with, a Company computer, switch, data, database, software, information, network or other similar system, the Company's liability, if any, shall not exceed an amount equal to the proportionate charge by the Company for the service for the period during which the service provided by the Company was affected or so utilized.

S7.1 UNDERTAKING OF THE COMPANY (Cont'd)

D. Liability (Cont'd)

6. Transmission of Data

The Company shall not be held liable for any damage, harm or loss of data caused by the subscriber using the Company's voice-grade telephone access lines and/or facilities for the transmission of data. The Company's liability shall be limited to errors or damages to the transmission of voice messages over these facilities, and the liability shall be limited to an amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

7. Errors or Damages Caused by System Date Limitations

The Company's liability for errors or damage resulting from the inability of the Company's systems to process dates, such as the Year 2000, shall be limited to the amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

8. Unauthorized Devices

The Company shall not be held liable or responsible for any damage or harm that may occur as the result of unauthorized devices or the failure of the Company to detect unauthorized devices on the subscriber's line.

S7. INTRALATA PRIVATE LINE SERVICE

S7.2 DS1 SERVICE

A. General

1. DS1 service is furnished for Private Line IntraLATA communications by the Company.

2. DS1 service is a service for the transmission of digital signals only and using only digital transmission facilities.

3. DS1 service provides for the simultaneous two-way transmission of isochronous digital signals at DS1 speeds of 1.544 Mbps where facilities are available.

4. To insure satisfactory operation, the terminal equipment provided by the customer shall be compatible with the DS1/1.544 Mbps channel facility provided by the Company.

5. Unless specified following, the regulations for DS1 service specified herein apply in addition to the regulations set forth in the General Rules and Regulations.

6. The rates specified for DS1 service following contemplate the provision of a digital quality facility over existing interoffice carrier equipment and/or exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for DS1 service.

B. Regulations

1. Description of Service

   a. DS1 service is furnished for the simultaneous two-way transmission of serial, Bipolar Return-to-Zero, isochronous digital signals, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format, at a speed of DS1/1.544 Mbps between two-points located within a LATA.

S7.2 DS1 SERVICE (Cont'd)

B. Regulations (Cont'd)

1. Description of Service (Cont'd)

b. DS1 service is available on a month-to-month basis or under variable rates based on lengths of 12 months, 24 months, or 36 months, under conditions specified in this Tariff.

c. The Company does not represent its DS1 service as adapted for such connections, and shall not be responsible for the through transmission of signals or the quality of such transmission on such connections.

d. A Channel Service Unit (CSU) or appropriate Termination Equipment (TE) provided by the customer is required at a customer's or authorized user's premises to perform such functions as proper termination of service, amplification, signal shaping, and remote loop-back.

e. The design, maintenance, and operation of DS1 service contemplates communications originating and terminating as (1) a customer premises to customer premises channel via the Company's Serving Wire Center (SWC) and/or through remote SWC's; (2) a customer premises to the Serving Wire Center - and/or to remote SWC's - partial channel (link); or (3) a Central Office to Central Office (interoffice) partial channel (link); or (4) between SWC's of this Company and a central office of a connecting company within the LATA.

2. Definitions
Channel Service Unit - The term "Channel Service Unit" (CSU) denotes equipment provided by the Customer to terminate a digital facility on the customer's or user's premises.

Channelization – is an optional channel service package to activate voice and data facilities.

S7.2 DS1 SERVICE (Cont'd)

B. Regulations (Cont'd)

2. Definitions (Cont'd)

Digital Local Channel - The term "Digital Local Channel" denotes a path for DS1 service furnished from the demarcation point on the customer's premises to their Serving Wire Center ("SWC").

DS1 - This denotes a channel service expressed in its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate, and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BRTZ) bit stream format, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format. Unframed signal formats are not permitted or compatible with Company equipment.

Interoffice Channel - The term "Interoffice Channel" denotes a path (or paths) for digital transmission between Company SWC within the LATA, or between Company SWCs and other ILEC serving wire centers within the LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Superframe Format ("SF") and Extended Superframe Format ("EFT") – Superframe Format and Extended Superframe Format provides Clear Channel Capability.

C. Application of Rates

1. Digital Local Channels furnished between a Serving Wire Center and the customer's premises will be charged at rates set forth for Digital Local Channels under Rates and Charges.

2. Interoffice Channels furnished between Central Offices will be charged at rates based on airline distance between the Central Offices.

S.7 INTRALATA PRIVATE LINE SERVICE

S7.2 DS1 SERVICE (Cont'd)

C. Application of Rates (Cont'd)

3. DS1 service is available on a month-to-month basis or under variable rate periods with rates based on lengths of 12 months, 24 months, or 36 months.

4. A Termination Liability Charge is applicable at the date of termination. The applicable charge is dependent on the contract period subscribed to and will be equal to the number of months remaining in the contract times the monthly rate provided under the contract.

D. Responsibility of the Company

1. The responsibility of the Company shall be limited to the furnishings and maintenance of DS1 service to that point on the customer's premises where provision is made for the connection of customer-provided equipment. If the customer requires a different location in the same building, it can be provided under the Premises Network Wiring Charge found in this tariff.

2. The Company shall not be responsible for installation, operation, or maintenance of any terminal equipment or communications systems provided by a customer. DS1 service is not represented as adapted for the use of such equipment or system. Where such equipment or system is connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for DS1 service and to the maintenance and operation in a manner proper for such digital service. The company shall not be liable for:

- the through transmission of signals generated by such equipment or system, or for the quality of, or defects in, such transmission or

- the reception of signals by such equipment or systems, or

- the damage to terminal equipment or communications systems provided by a customer or authorized user due to testing.

S7.2 DS1 SERVICE (Cont'd)

D. Responsibility of the Company (Cont'd)

3. The Company shall not be responsible to the customer if changes in any of the facilities, operations, or procedures of the Company utilized in the provision of DS1 service render any facilities or equipment provided by a customer obsolete, or require modification or alteration of such equipment or system or otherwise affects its use or performance.

4. The Company undertakes to maintain and repair the facilities which it furnishes. The customer may not rearrange, disconnect, remove, or attempt to repair any equipment installed by the Company without prior written consent of the Company.

E. Responsibility of the Customer

1. The customer is responsible for installing and testing his premises equipment or facilities to insure that when they are connected with DS1 service such equipment or facilities are operating properly.

2. The operating characteristics of the customer's premises equipment or facilities shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the equipment provided by a customer does not: endanger the safety of Company employees or the public; damage, require change in or alteration of the equipment or other facilities of the company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's facilities or otherwise injure the public in its use of the Company's services. Upon notice from the Company that the equipment provided by a customer is causing or is likely to cause such hazard or interference the customer shall take such steps as shall be necessary to remove or prevent such hazard or interference.

S.7 INTRALATA PRIVATE LINE SERVICE

S7.2 DS1 SERVICE (Cont'd)

E. Responsibility of the Customer (Cont'd)

3. The customer's responsibility shall include cooperative testing with the Company as may be necessary. Where regeneration and/or equalization adjustments or changes may be required to compensate for rearrangements and/or changes in outside plant facilities, the customer will be responsible for all expenses incurred in changes to his premises equipment.

4. The customer shall be responsible for payment of a Trouble Determination Charge as set forth in this tariff for visits by the Company to the premises of the customer where the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.

F. Rates and Charges

1. DS1 Local Channel is furnished between a Serving Wire Center and the customer's premises. Rates are based on the airline distance between the Serving Wire Center and the customer's premises. DS1 service rates below include the central office trunk termination (COTT).

(a) DS1 Local Channel, each DS1 with COTT

	Nonrecurring Charge	Month to Month	12 Months	24 Months	36 Months
Each DS1	$300.00	$335.00	$279.00	$261.00	$244.00

(b) Channelization (Optional)

DS1 to Voice	$312.00 Per Month

S.7 INTRALATA PRIVATE LINE SERVICE

S7.2 DS1 SERVICE (Cont'd)

F. Rates and Charges (Cont'd)

2. Interoffice Channels are furnished between Central Offices. Listed rates are per-channel and based on the airline distance between Central Offices.

	Nonrecurring Charge	Month to Month	12 Months	24 Months	36 Months
Fixed Monthly Rate	$310.00	$75.00	$65.00	$60.00	$55.00
Each airline mile, or fraction thereof	---	$21.00	$16.00	$14.00	$12.00

3. Clear Channel Capability

(a) Clear Channel Capability is furnished on a per DS1 service channel basis.

(b) Clear Channel Capability (CCC) is an arrangement that alters a DS1/1.5444 Mbps signal with unconstrained information bits, to meet pulse density requirements outlined in Technical Reference 73525. This will allow a customer to transport an all zero octet over a DS1 service channel providing an available combined maximum 1.536 Mbps data rate. This arrangement requires the customer signal at the channel interface to conform to Bipolar with 8 Zero Substitution (B8ZS) line code as described in Technical Reference 73525.

S7.2 DS1 SERVICE (Cont'd)

F. Rates and Charges (Cont'd)

3. Clear Channel Capability (Cont'd)

(c) CCC is provided on DS1 service channels between two customer designated premises, from a customer premises to their Serving wire Center or Node Central Office and/or to a remote Serving Wire Center or Node Central Office, and from a central office to a central office, and is subject to the availability of facilities. This optional feature may be ordered at the same time the DS1 service channel is ordered, or it may be ordered as an additional feature of an existing DS1 service channel.

(d) CCC may be provided in a Superframe and Extended Superframe Format.

Per DS1 service channel optioned as

	Monthly Rate	Nonrecurring Charges Initial	Subsequent
a. Superframe Format (SF)	$-	$-	$600.00
b. Extended Superframe Format (ESF)	$ -	$-	$600.00

4. Move Charge

A move charge, per DS1 service channel, applies for each DS1 Local Channel moved to a new location in the same building. This move charge is equal to the DS1 Local Loop Channel Nonrecurring Charge, Service Change Charge - Inside Moves, plus Premises Visit Charges.

A move charge, per DS1 service channel, applies for each DS1 service moved to a new location in the Company territory within the same state. This move charge is equal to the sum of all nonrecurring charges applicable to a new DS1 service channel installation at the new location.

S7.2 DS1 SERVICE (Cont'd)

F. Rates and Charges (Cont'd)

5. Service Connection Charges

a. Service Establishment Charges are applicable, for each DS1 service channel ordered, for receiving and recording information and/or for taking action in connection with a customer's request, and processing the necessary data. These charges include engineering design, common centralized testing, and coordination.

b. Service Change Charges are applicable for receiving and recording information and/or taking action in connection with a customer's Inside Move or transfer of service responsibility request, for processing the necessary data on an existing DS1 service channel. A Service Change Charge is applicable for each DS1 service channel associated with the customer request (in lieu of a Service Establishment Charge).

c. Premises Visit Charges are applicable, per DS1 Local Channel, for the termination of a channel at a customer's premises or for inside moves. Only one Premises Visit Charge applies when more than one channel service of the same type is terminated or moved at the same premises at the same time.

d. Connection charges are applicable for the connection and testing of DS1 Local Channels and/or Interoffice Channels. These charges applied are those nonrecurring charges contained in A. and B. preceding.

S7.2 DS1 SERVICE (Cont'd)

F. Rates and Charges (Cont'd)

5. Service Connection Charges (Cont'd)

e. Charges for DS1 Service

(1) Service Establishment Charge

(a) Per DS1 Service Channel Nonrecurring Charge Each $575.00

(2) Service Change Charge

(a) Per DS1 Service Channel

(i) For Inside Moves, each $350.00

(ii) Per Transfer of Responsibility, each $350.00

(3) Premises Visit Charge

(a) Per DS1 Local Channel or for an inside move[3]

Per Visit 43.33

[3] This charge is applicable to additional stations installed subsequent in a building.

S7. INTRALATA PRIVATE LINE SERVICE

S7.3 DIGITAL LOCAL CHANNELS

A. Rates and Charges

1. Digital Data Channel is furnished between a Serving Wire Center and the customer's premises. The Digital Data Channel Charges apply per local Channel and include a Channel Termination at the Company's Central Office.

		Nonrecurring Charge First	Add'l	Month to Month	12 Months	24 Months
(a)	2.4 Kbps	$414.00	$271.00	$65.00	$58.75	$56.50
(b)	4.8 Kbps	$414.00	$271.00	$65.00	$58.75	$56.50
(c)	9.6 Kbps	$414.00	$271.00	$65.00	$58.75	$56.50
(d)	19.2 Kbps	$414.00	$271.00	$65.00	$58.75	$56.50
(e)	56.0 Kbps	$459.00	$311.00	$105.00	$93.00	$86.00
(f)	64.0 Kbps	$470.00	$351.00	$105.00	$93.00	$86.00

1. A Digital Data Interoffice Channel is furnished between a serving wire center and the Central Office or between the Central Offices. A fixed rate and a rate per mile apply to each Digital Data Interoffice Channel provided.

a. Interoffice channel, each channel

		Nonrecurring Charge	Month to Month	12 Months	24 Months
(1)	Fixed Rates Applicable				
(a)	2.4, 4.8,9.6, and 19.2 Kbps	$67.00	$22.00	$19.50	$19.00
(b)	56.0 and 64.0 Kbps	$67.00	$40.00	$36.00	$34.00
(2)	Each mile or fraction thereof				
(a)	2.4, 4.8,9.6, and 19.2 Kbps	--	$2.05	$1.90	$1.75
(b)	56.0 and 64.0 Kbps	--	$4.10	$3.80	$3.50

S.7 INTRALATA PRIVATE LINE SERVICE

S7.3 DIGITAL LOCAL CHANNELS(Cont'd)

A. Rates and Charges (Cont'd)

3. Optional Features, Functions, and Charges

a. Multipoint Service, per local or interoffice channel bridged[4]

	Nonrecurring Charge	Month to Month	12 Months	24 Months
(1) 2.4, 4.8,9.6, & 19.2 Kbps	$28.00	$25.00	$24.00	$22.00
(2) 56.0 & 64.0 Kbps	$28.00	$25.00	$24.00	$22.00

b. Secondary Channel Capability per local Channel

Each 1,2,3	140.00	$15.00	$14.00	$13.00

c. Data Over Voice Channel, per local channel

9.6 Kbps[5]	$540.00	$40.00	$38.00	$36.00

d. Speed Service Charge

	Nonrecurring Charge	
	First	Additional
Per Local Channel	$300.00	$170.00

[4] This option may not be available where 56.0 Kbps repeaters are required for digital local channels, and is not available with 64.0 Kbps or when the Data Over Voice Channel option is used.
[5] Not available at all service locations.

S7. INTRALATA PRIVATE LINE SERVICE

S7.4 VOICE GRADE SERVICE

A. Provision of Services

1. General

a. Channel Services provided under the provisions of this Tariff are offered for IntraLATA Services only. Voice Grade Services consist of Local Channels, Interoffice Channels, and Optional Features and Functions.

B. Rate Categories

Following are the basic rate categories which apply to Voice Grade service.

1. Local Channels

a. A local Channel provides for a communications path between the demarcation point at a customer premises
and the serving wire center of that premises. One local channel charge applies per channel termination.

2. Interoffice Channels

This rate category provides for the transmission facilities between serving wire centers associated with two customer premises, between serving wire centers associated with a customer premises and a Company hub, or between two Company hubs.

Interoffice mileage is portrayed as a flat rate and a rate per mile. For method of determining airline mileage, see the NECA Tariff.

S.7 INTRALATA PRIVATE LINE SERVICE

S7.4 VOICE GRADE SERVICE (Cont'd)

B. Rate Categories (Cont'd)

3. Optional Features and Functions

This rate category provides for features and functions which may be added to a service and to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of the performance characteristics which may be obtained. This category includes a. and b. following.

a. Hub Functions

A hub is a Company designated wire center where bridging or multiplexing functions are performed i.e., connecting three or more customer premises in a multipoint arrangements or channelizing analog or digital services requiring a lower capacity or bandwidth.

b. Provides for such things as signaling, conditioning, transfer arrangements, protection switching, etc.

C. Service Configurations

1. There are two types of service configurations which can be provided. These are described as follows:

a. Two-Point Service

A two-point service connects two customer premises either directly through a serving wire center(s) or through a Company hub where additional functions are performed.

b. Multipoint Service

(1) Multipoint service connects three or more customer premises through a Company hub.

S.7 INTRALATA PRIVATE LINE SERVICE

S7.4 VOICE GRADE SERVICE (Cont'd)

C. Service Configurations (Cont'd)

1. There are two types of service configurations which can be provided. These are described as follows (Cont'd)

b. Multipoint Service (Cont'd)

(2) There is no limitation on the number of mid-links available with multipoint service. However, when more than three mid-links are provided in tandem, the quality of the service may be degraded. A mid-link is a channel between hubs (i.e., bridging locations).

(3) Voice Grade Multipoint Channel services for data use have a limit of six two-wire facility type local channels or 20 four-wire facility type local channels when used with customer-provided station equipment.

(4) Only certain types of service are available for multipoint applications.

D. Special Routing of IntraLATA Voice Grade Service.

1. The Voice Grade services furnished in this Tariff are provided over such routes as the Company may elect.

2. Special routing is involved where, in order to comply with requirements specified by the customer, the Company furnishes the private line service in a manner which includes one or both of the following conditions:

(a) Where two or more private lines must be furnished over different physical routes.

(b) Where a private line must be furnished on a route which avoids specified geographical locations.

3. When special routing of services is furnished a customer, the rates will be determined on an individual case basis.

S7.4 VOICE GRADE SERVICE (Cont'd)

E. Service Descriptions

1. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day, for a minimum period of one month. These channels may also be furnished on a link (partial channel) basis when connected to services such as DS1. Channels which also provide tie line service will not be furnished to connect a flat rate system with a message rate system. The transmission characteristics and various types of services furnished are described in B. and C. following.

2. Basic parameters and specifications for Voice Grade Service are described for the end to end operations as follows:

Basic Parameters	For Speech Application	For Data Application
Net Loss	Local Channels used with terminal equipment: Limit as specified in the following Local Channel descriptions. Losses or gains present in CPE have not been included.	
DC Resistance	Local Channel limit as specified in the following Local Channel descriptions. Does not imply or guarantee end to end DC continuity.	
Frequency Error	Plus or Minus 5 Hz (Ref'cd to 1000 Hz loss)	Plus or Minus 5 Hz
Frequency Response		
300 - 3000 Hz	-3dB to + 12 dB	-3dB to + 12 dB
500 - 2500 Hz	-2dB to + 8 dB	-2dB to + 8dB
Envelope Delay Distortion		
800 - 2600 Hz	Not Controlled	Less than 1750 Microseconds
C-Notched Noise (with a -13dBm0 1000 Hz Test Signal)	Not Controlled	Noise Level 24dB below signal level
Impulse Noise	Not Controlled	15 Counts in 15 minutes at a threshold of 6dB below a -13dBm0 rms 1000 Hz Signal

S7.4 VOICE GRADE SERVICE (Cont'd)

E. Service Descriptions (Cont'd)

2. (Cont'd)

Phase Jitter	Not Controlled	10 degrees peak to peak
Non-Linear Distortion		
2nd Order Distortion	Not Controlled	25 dB below signal level
3rd Order Distortion	Not Controlled	30dB below signal level

3. Transmission parameters for voice grade service are described as follows:

a. Voice Grade

(1) Two-Wire - A two-wire interface with effective two-wire facilities engineered for a 1004 Hz net loss of 0 to 10dB. Generally furnished for voice transmission, or Supervisory Control Use. Multipoint service may be provided.

(2) Four-Wire - A four-wire interface with effective four-wire facilities engineered for a 1004 Hz net loss of 0 to 16dB. Generally furnished for voice transmission. Multipoint service may be provided.

S7.4 VOICE GRADE SERVICE (Cont'd)

E. Service Descriptions (Cont'd)

3. (Cont'd)

b. Data

(1) Two-Wire - A Two-Wire interface with four-wire facilities engineered for a 1004 Hz net loss of 16dB. Generally used in the provision of analog data services. Multipoint services may be provided.

(2) Four-Wire - A Four Wire interface with four-wire facilities engineered for a 1004 Hz net loss of 16dB. Generally used in the provision of analog data services. Multipoint service may be provided.

4. Telemetry/Alarm Bridging Service

a. Regulations

(1) This section contains the regulations applicable for Telemetry/Alarm Bridging Service.

(2) Except as otherwise specified following, the regulations contained herein are in addition to the regulations found in other sections of this Tariff.

(3) Telemetry/Alarm Bridging Service requires the use of equipment as specified following and voice grade local channels.

(4) Terminal equipment provided by the customer to use with this service must meet specifications for such customer-provided equipment found in other sections of this Price list.

(5) No more than 128 remote stations may be connected to a master station over an individual Split Band Active Bridge.

S7.4 VOICE GRADE SERVICE (Cont'd)

E. Service Descriptions (Cont'd)

4. Telemetry/Alarm Bridging Service (Cont'd)

a. Regulations (Cont'd)

(6) In Split Band Active Bridging arrangements, secondary bridges must be directly connected to the primary bridge via mid-link channels. Secondary bridges cannot be connected through other secondary bridges to allow additional layers of tandeming.

(7) Secondary bridges, utilized in Split Band, Active Bridging arrangements, reduce the two-wire remote station capacity of the primary bridge. The initial secondary bridge reduces the primary bridge capacity by twelve two-wire remote station connections. Each subsequent secondary bridge reduces the primary bridge capacity by four additional two-wire remote station connections. At the customer's option external bridging may be provided for connecting secondary bridges at the rate applicable following without reducing the two-wire capacity of the primary bridge.

(8) Standard multipoint bridging charges as provided in other sections of this Price list are not applicable to this service except as provided in g. preceding.

(9) Access over remote station channels is provided through a local channel and through the appropriate channel connection as contained following. Interconnection of remote stations located outside the serving wire center where the bridge to which they are to be connected is located will require interoffice channels at charges contained in this Price list.

S7.4 VOICE GRADE SERVICE (Cont'd)

E. Service Descriptions (Cont'd)

4. Telemetry/Alarm Bridging Service (Cont'd)

a. Regulations (Cont'd)

(10) Access over each four-wire mid-link channel for Split Band Active Bridging is through voice grade interoffice channels at charges contained in this Price list. Additionally, mid-link channel connections are required as described following.

b. Service Description

(1) Telemetry/Alarm Bridging Service is a multi-station, voice frequency, private line service designed to provide connections between a master station and a number of remote stations simultaneously. Direct transmission between remote stations is not intended. This service is intended for application in multipoint, voice frequency, data or tone signaling arrangements with transmission at rates up to 400 baud.

(2) Telemetry/Alarm Bridging Service

Split Band, Active Bridging - A bridging arrangement providing for a four-wire (master station or mid-link channel) frequency split common port and multiple two-wire (remote station) ports intended for application in multipoint, voice frequency, data or tone signaling arraignments. Two-way (polling) communication between the master station and each remote station is intended.

S7. INTRALATA PRIVATE LINE SERVICE

S7.4 VOICE GRADE SERVICE (Cont'd)

F. Rate Regulations

Types of rates and charges

1. The two types of rates and charges are monthly rates and nonrecurring charges and are described as follows:

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specified work activity. The three types of nonrecurring charges that apply are installation of service, installation of features and functions and service arrangements.

(1) Installation of Service

Nonrecurring charges apply for each service terminated at the customer's premises. For the installation of local channels when more than one of the same type of service, between the same locations, for the same customer is ordered and installed at the same time, one at each location is billed at the First Service Installed rate and the others are billed at the Additional Service Installed rate.

The nonrecurring charges for the Installation of Services are set forth following as Nonrecurring Charges for the Local Channel and the Interoffice Channel rate elements.

S7. INTRALATA PRIVATE LINE SERVICE

S7.4 VOICE GRADE SERVICE (Cont'd)

F. Rate Regulations (Cont'd)

1. (Cont'd)

b. Nonrecurring Charges (Cont'd)

(2) Nonrecurring charges apply for the installation of features and functions available with the various services. For some features and functions there is a lower charge if installed coincident with the service and a higher charge if installed subsequent to the service.

c. Service Rearrangements

(1) Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements or a change in the physical location of the point of termination at a customer premises. Changes which result in the establishment of new minimum period of obligations are treated as disconnects and starts. Changes in the physical location of the point of termination are treated as moves and are described and set forth in this Price list.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

F. Rate Regulations (Cont'd)

Types of rates and charges (Cont'd)

1. (Cont'd)

c. Service Rearrangements (Cont'd)

(1) (Cont'd)

Administrative changes will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Private Line Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the service). Administrative changes are as follows:

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes name),

- Change of customer or customer's premises address when the change of address is not a result of a physical relocation of equipment,

- Change in billing data (name, address or contact name or telephone number.

S7.4 VOICE GRADE SERVICE (Cont'd)

F. Rate Regulations (Cont'd)

Types of rates and charges (Cont'd)

1. (Cont'd)

c. Service Rearrangements (Cont'd)

(2) All other service rearrangements will be charged for as follows:

- If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the local channel rate element will apply. The charges will apply only for the location(s) that is being added.

- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.

- If the change involves changing the type of signaling on a voice grade service the subsequent, nonrecurring charge will apply for the new type signaling. The charge will apply per service termination affected.

- For all other changes, including a change of the customer of record involving no physical changes to the service provided or the addition of optional features without separate nonrecurring charges, a charge equal to a local channel rate element nonrecurring charge will apply. Only one such charge will apply per service, per change.

F. Rate Regulations (Cont'd)

Types of rates and charges (Cont'd)

1. (Cont'd)

c. Service Rearrangements (Cont'd)

(3) Moves

(a) A move involves a change in the physical location of one of the following:

(i) The point of interface at the customer premises.

(ii) The customer's premises.

(b) The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(i) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half the nonrecurring (i.e., installation) charge for the affected service termination at the customer's premises. There will be no change in the minimum period requirements. If a move is made at the same time a service rearrangement is made, the total charge will never exceed a full nonrecurring charge for the basic service.

Types of rates and charges (Cont'd)

1. (Cont'd)

c. Service Rearrangements (Cont'd)

(3) Moves (Cont'd)

(b) (Cont'd)

(ii) Move to a Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established at the new location. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

G. Rates

1. Local Channels

a. Voice Grade - Per point of Termination

	Monthly Rate	Nonrecurring Charge First	Additional
Voice			
Two or Four Wire	$ 55.00	$315.00	$130.00
Data			
Two or Four Wire	$ 60.00	$360.00	$160.00

S7.4 VOICE GRADE SERVICE (Cont'd)

G. Rates (Cont'd)

2. InterOffice Channel Mileage

a. When station locations of a voice grade service are located in different wire center serving areas, interoffice channel charges apply. Charges are based on the direct airline distance measured between the serving wire centers.

A fixed and per mile charge applies as set forth following,

	Fixed Monthly Charge	Monthly Charge Per Mile	Nonrecurring Charge Per Channel
Voice Grade Service	$35.00	$2.25	$96.00

3. Optional Features and Functions

a. Bridging

Bridging charges are applicable where more than two Local Channels, or one or more Local Channels and more than one Interoffice Channel, or more than one Local Channel and one Interoffice Channel are bridged or hubbed at the same wire center.

3. Optional Features and Functions (Cont'd)

c. Conditioning (Voice Grade Services)

(1) Conditioning provides more specific transmission characteristics for data services. There are two types of C-conditioning and one type of D-conditioning, each with different technical specifications. C-type conditioning controls attenuation distortion and envelope delay distortion. D-type conditioning controls the signal to C-notched noise ratio and intermodulation distortion.

Conditioning is charged on a per Local Channel Basis for two-point and multipoint service. For two-point services the parameters apply to each service. For multipoint services the parameters apply to any path between any two service points.

(2) When a channel is equipped with Type D1 conditioning and is utilized for voice communications, the Company does not undertake to represent that the channel will be suitable for such voice transmission.

(3) C-Type Conditioning

C-Types of Conditioning per local channel

		Monthly Rate	Nonrecurring Charge Initial	Subsequent
(a)	C1 Type	$2.00	$10.00	$65.00
(b)	C2 Type	$2.00	$22.00	$74.00

(4) D-Type Conditioning

	D1 Type	$2.00	$16.00	$69.00

S8. FOREIGN EXCHANGE SERVICE

CONTENTS

S8.1 Foreign Exchange Service 1

S.8 FOREIGN EXCHANGE SERVICE

S8.1 FOREIGN EXCHANGE SERVICE

A. Regulations

1. Foreign Exchange Service is exchange service furnished to a subscriber from an exchange other than the one from which he would normally be served.

2. The term “Serving Exchange” shall mean the exchange from which Foreign Exchange is furnished. The term, Local Exchange, shall mean the exchange normally serving the area in which the subscriber's premises is located. The term “Interexchange Channel” designates that portion of the Foreign Exchange Service Circuit which is provided between the toll rate centers of the serving and local exchanges.

3. Foreign Exchange Service does not come within the Telephone Company's general undertaking, nor does the Telephone Company obligate itself to furnish such service generally; but, will do so, at it's option, where facilities of such a character are available as will permit satisfactory telephone transmission and where the service is warranted by the circumstances involved.

4. Foreign Exchange Service may be provided only in connection with Individual Line Business or Residence Service. The service will be furnished only at one location or premises for each channel or circuit.

5. Where the normal exchange is operated by this Telephone Company, Foreign Exchange Service is furnished only on the condition that the applicant is a subscriber to Individual Line Business or Residence Service, in the normal exchange, and at the same location where such service is proposed to be installed. Under this condition, when a Foreign Exchange Service subscriber discontinues normal Exchange Service, the normal Exchange shall immediately notify such Foreign Exchange subscriber and Foreign Exchange business office that the Foreign Exchange Service may be discontinued ten (10) days thereafter.

S8. FOREIGN EXCHANGE SERVICE

S8.1 FOREIGN EXCHANGE SERVICE (Cont'd)

A. Regulations (Cont'd)

6. Where the Foreign Exchange is operated by, or where all or a portion of the interexchange channel is furnished by another telephone company, Foreign Exchange Service will be provided only when satisfactory arrangements can be negotiated with such company to furnish it's portion of the necessary facilities.

7. Foreign Exchange calling for subscribers located in the Local Exchange will be limited to the calling area of the Serving Exchange. If any subscriber is found to be using the Foreign Exchange telephone for toll, the subscriber and the Foreign Exchange business office will be notified that the practice must be discontinued or the Foreign Exchange Service may be terminated ten (10) days after the date of such notice.

8. Interexchange mileage is the route distance between the toll rate centers of the two exchanges involved for that portion of the interexchange channel facilities furnished by this Telephone Company. For the portion of the interexchange channel facilities furnished by another telephone company, between toll rate centers of the two exchanges involved, the interexchange channel facility mileage charges of such company will apply.

9. Foreign Exchange Service is offered in connection with Flat Rate or Measured Individual Line Main Station Service. These channels may be furnished on a link (partial channel) basis when connected to FlexServ® service, MegaLink* Channel Service and/or LightGate® service.

10. Other services, equipment or facilities used in connection with Foreign Exchange Service, except as otherwise indicated in this Price list, are furnished subject to the rates and regulations applying in the foreign exchange from which the subscriber is served.

11. Foreign Exchange Service is furnished subject to the same restrictions as to the use of the service by other than the subscriber and his representatives, as apply in connection with other classes of service.

S8.1 FOREIGN EXCHANGE SERVICE (Cont'd)

A. Regulations (Cont'd)

12. Subscribers to Foreign Exchange Service are not required to subscribe to other service in the exchange from which they would normally be served.

13. Where the serving foreign exchange is a multi-office exchange, Foreign Exchange Service will be provided from whichever central office would be most economical to the Company; if an applicant desires operation from a different central office and facilities are available therefore, foreign central office mileage charges will apply for the channel required between the Company-selected central office and the central office from which the applicant desires to be served.

14. Allowance For Interruptions

a. Foreign Central Office Service

No allowance is made for interruptions of less than twenty-four hours. For interruptions of twenty-four hours or more, credit is allowed for the proportionate part of the monthly charge in multiples of one day for each twenty-four hours or major fraction thereof, of interruption for the portion of the facilities rendered inoperative by reason of the interruption.

b. Foreign Exchange Service

(1) No credit is allowed for interruptions to service of less than thirty minutes. Interruptions of thirty minutes or over are credited to the customer at the proportionate monthly contract charge in half-hour multiples for each half hour or major fraction thereof of interruption.

(2) Message Toll Telephone Service furnished at a customer's request when his Foreign Exchange Service is interrupted, is charged for at message toll telephone rates.

S8. FOREIGN EXCHANGE SERVICE

S8.1 FOREIGN EXCHANGE SERVICE (Cont'd)

B. Application, Billing and Collection Procedures

Interexchange FX Service will be furnished under the terms and conditions of the Foreign Exchange Service Agreement executed between this Company and the company involved. The Agreement contemplates that:

1. When a party located in this Company's Exchange Service area desires this class of service, he shall apply for the same to this Company, which will obtain from the company furnishing the Serving Exchange Service its charges and conditions for providing it's part of the applicants requested service, and on submission to applicant, and his acceptance by executed contract of the overall charges including those of this Company, both for installation and monthly flat rate cost and conditions of service. This applicant becomes an FX subscriber of this Company which will perform all billing to and collecting from said subscriber for the entire service rendered.

2. When a party located in another company's Exchange Service area desires FX Service to an exchange belonging to this Company, his application should be made to the other company which should handle all necessary arrangements for service, and on establishment of same, do all subscriber billing and collecting, this Company has no responsibility to the subscriber with respect to such matters.

C. Rates And Charges

1. The basic rate for Foreign Exchange Service is the established monthly service rate for the class of service provided in the Serving Exchange.

2. The local loop provided by this Company will be as provided for under Circuit Rental in S10.3.B of this Price list.

3. The Service and Installation Charges of the Serving Exchange are applicable.

S8. FOREIGN EXCHANGE SERVICE

S8.1 FOREIGN EXCHANGE SERVICE (Cont'd)

C. Rates and Charges (Cont'd)

4. Where all or a portion of the interexchange channel facilities are furnished by this Telephone Company, a mileage charge per quarter mile, or fraction thereof, per month, will apply for each circuit, measured in route miles between the terminal points of this Company's interexchange channel facilities.

5. Where all or a portion of the interexchange channel facilities are furnished by another telephone company, charges shall apply to such interexchange channel facilities as specified in the regulations of such participating company, for the portion of the interexchange channel provided.

6. For the provision of Flat Rate Interexchange FX Service with a connecting company, an Interconnection charge of $50.00 per circuit, per month will apply. In addition, the other applicable charges of this Price list will then apply from the point of connection to the applicant's location within the area served by this Company and the applicable charges of the connecting company will apply.

7. Where special equipment is required for satisfactory transmission and/or signaling on the Foreign Exchange circuit, such equipment will be provided at a monthly rate based on the costs involved.

8. The rates in this section are applicable regardless of the routing method used.

9. Methods Of Applying Rates

a. The rate for Foreign Exchange (FX) Service is the nonrecurring and monthly rate for

(1) Flat Rate Individual Line Main Station Service and Centrex Type Services applicable within the Base Rate Area of the serving foreign exchange, plus mileage charges and installation charges specified below and other nonrecurring charges, plus,

S8.1 FOREIGN EXCHANGE SERVICE (Cont'd)

C. Rates and Charges (Cont'd)

9. Methods of Applying Rates (Cont'd)

(2) Flat Rate banded usage charges. Usage charges are not applicable to residence customers and FX channels where the originating and terminating ends have identical Local Calling Areas.

10. Interexchange Channel

Each exchange has a Rate Center. Charges are based on the airline distance between Rate Centers except for the following.

a. Foreign Exchange Service from an Extended Area Service (EAS) group of exchanges to another exchange (home exchange) either within the EAS group or not a part of the group will be measured from the principal Toll Center exchange of the EAS group, or if no Toll Center exists, from the principal Rate Center of the group as determined by the Company. If the foreign exchange is part of more than one EAS group, mileage for the service will be measured to the principal Toll or Rate Center which is most distant from the home exchange in the case of S8.C.10.b. following.

b. Interexchange extensions for answering purposes only when terminated in secretarial switchboards or in instruments without a dial will be measured between the Rate Centers involved regardless of the EAS conditions existing. All other interexchange extensions will be rated as in S8.C.10.a. preceding. Airline distance between Rate Centers is determined as provided in provisions governing Private Line Service.

c. The Flat Rate banding schedule will be based upon mileage.

S8. FOREIGN EXCHANGE SERVICE

S8.1 FOREIGN EXCHANGE SERVICE (Cont'd)

C. Rates and Charges (Cont'd)

10. Interexchange Channel (Cont'd)

d. All calls utilizing Foreign Exchange Service that terminate outside the Local Calling Area will be billed as Measured Toll Service in addition to the Flat Rate banding schedule.

11. Interoffice Channel

a. When a customer requests Foreign Exchange Service from a Wire Center that is not the primary Wire Center, interoffice mileage charges apply. Charges are based on the airline distance between the primary Wire Center and the Wire Center from which the customer is served.

b. When a customer is located in a Wire Center, in the foreign exchange, that is not the primary Wire Center, interoffice mileage charges apply. Charges are based on the airline distance between the primary Wire Center and the Wire Center serving the area where the customer is located.

12. When, at the subscriber's request, the interexchange channel portion of the Foreign Exchange Service is furnished by TELPAK, a channel terminal charge will be applicable at each Rate Center in addition to the appropriate TELPAK interexchange channel charge, at rates specified in the Private Line Price list.

13. Provided facilities are available and technical equipment allows, extension line service will be furnished in the foreign exchange.

14. The Local Service Rate of, and Long Distance rates to and from, main stations or Centrex Type Services systems connected for foreign exchange service are the same as regularly apply to stations located in the foreign exchange area.

S8. FOREIGN EXCHANGE SERVICE (Cont'd)

C. Rates And Charges (Cont'd)

15. Where Foreign Exchange Service is provided at a location outside the exchange area boundary of the exchange from which service is desired and said location is not within the exchange area of another exchange or where the applicant for Foreign Exchange Service is so located that it would be more economical to the Company to provide the Foreign Exchange Service direct from the foreign exchange to applicant's location by the extension or utilization of existing plant, the foreign exchange mileage charge will apply as follows.
For the distance from the applicant's location to the Rate Center of the foreign exchange area from which service is to be furnished a mileage charge as specified below applies.

16. Foreign Exchange Service may be furnished involving two areas of the Company or involving an area of the Company and an area of a connecting company when the connecting company is willing to concur in arrangements for furnishing such service. Where the connecting company provides billing for its portion of the Foreign Exchange Service, the charges will be in accordance with the connecting company's tariff rates and terms and conditions.

17. Where alternate full period Foreign Exchange Service is provided, an intercept arrangement may be furnished which transfers the foreign exchange number to a receiving only local number when the service is in the full period condition. This arrangement contemplates a standard termination in a handset, key equipment and is furnished at the rates and charges as specified below.

18. The service charges for connections, move or change of service apply in addition to the installation charge.

[6] Not applicable to Centrex Type Services off premises station channels, residence customers or to foreign exchange channels where the originating and terminating ends have the same Local Calling Area. Applicable for channel services utilizing MegaLink* Channel Services or LightGate® service.

S9. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

CONTENTS

S9.1 Line Extension Changes 1

S9.2 Temporary Service 3

S9. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S9.1 LINE EXTENSION CHARGES

A. General

1. The Company shall provide tariffed basic telephone service to the premises of a permanent residence within its franchised service territory, if the costs, including, but not limited to costs of facilities, rights-of-way and equipment of providing basic telephone service to the requiring party does not exceed eight thousand dollars ($8,000).

2. Should cost of a new service installation for a permanent resident or business in the Company's franchised service territory exceed eight thousand dollars ($8,000) a customer may request that the Company allocate any unused universal service funds received by the Company which have been set aside for this purpose. A determination of whether such funds exist shall be made at the sole discretion of the Company. A customer may be required to pay such excess costs pending a final determination of the availability of such funds.

3. Construction or installation charges are non-recurring charges made under certain conditions as set forth in the Company’s Price list and are in addition to applicable charges for the class of service furnished, mileage charges and other charges that may be applicable.

4. Construction charges are payable at the time the application for service is signed or when the amount is rendered, as the Company, at its option, may require.

5. The word "Cost", wherever used in this section, is to be interpreted to mean the cost of labor and materials and include charges for supervision and other overhead expense associated with construction or installation.

6. When attachments are made to poles of other companies, in lieu of providing new pole line construction for which the subscriber would regularly be charged construction charges under the provision of this section, the attachment rental charges to the Company for such attachments may be borne in whole or in part by the subscriber as the particular circumstances may warrant.

S9. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S9.1 LINE EXTENSION CHARGES (Cont'd)

A. General (Cont'd)

7. Any poles, conduit, cable or other plant provided at the expense of the customer, on either a public highway or on private property shall not be used by the customer for any purpose other than service furnished by the Company for the support of cable, wire or other apparatus of the Company, except upon approval of the Company.

8. In all cases of construction on public highway or on private property to serve customers in general, ownership of the poles, conduit, and other plant must be vested either in the Company or some other company with which the Company has joint use arrangement. All plant is maintained and replaced at the expense of the Company.

B. Private Right of Way

When the applicant is so located that it is necessary to use private right of way to furnish service and the Company is unable to obtain the required right of way without cost, the applicant may be required to pay the cost incurred in securing, clearing and retaining such right of way.

C. Exceptions to Construction Charges

1. Except as provided under "Temporary Service", no construction charge is made for the provision of new pole lines or wire on public highways within the Base Rate Area.

2. Except as provided under "Temporary Service", where the applicant is located outside the Base Rate Area and the construction of outside plant is required to provide facilities to serve one or more applicants, the applicant or applicants may be required to bear the cost of such construction. Neither station installations, including drop wire, protector, or any plant within the Base Rate Area shall be considered as construction costs.

S9. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S9.2 TEMPORARY SERVICE

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber is required to bear the total cost of such construction and installation and the cost of removal, if removed, provided, however, that the salvage value of any plant removed, excluding the telephone set, shall be deducted from the total cost to be paid by the subscriber.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.1 GENERAL REGULATIONS

A. General

This section addresses the responsibilities and liabilities of the customer and company where customer provided terminal equipment and communication systems interconnect with the regulated services of the Telephone Company. Customer provided refers to any equipment purchased by the customer or leased by the customer from the deregulated operations of the Telephone Company or from any other provider of such equipment.

B. Responsibility of the Customer

Customer provided communications equipment may be used with the facilities furnished by the Telephone Company for telecommunications services as provided in this Price list. In all such cases the customer provided communications equipment will be constructed, maintained and operated as to work satisfactorily with the facilities of the Company.

Where telecommunications service is available under this Tariff for use in connection with customer provided communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the services offered by the Telephone Company. Such is subject to the further provisions that the customer provided equipment or system does not endanger the safety of Telephone Company employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Telephone Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Telephone Company's service.

Upon notice from the Telephone Company that the customer provided equipment or system is causing or is likely to cause such hazard or interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer indemnifies and saves the Telephone Company harmless against claims for infringement of patents arising from combining such equipment or system with, or using it in connection with, facilities of the Telephone Company; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone Company.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.1 GENERAL REGULATIONS(Cont'd)

C. Responsibility of the Telephone Company

The Company shall not be responsible for the installation, operation or maintenance of any customer-provided terminal equipment or communications system. Telecommunications or private line service is not represented as adapted to the use of customer-provided equipment or systems and where such are connected to the Company facilities the responsibility of the Company shall be limited to the furnishing, maintenance, and operations of facilities suitable for telecommunications service in a manner proper for such service. Subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or systems, or address signaling where such signaling is performed by customer-provided signaling equipment.

The Telephone Company will, at a subscriber's request, provide information concerning interface parameters, including the number of ringers which may be connected to a particular telephone line needed to permit customer provided terminal equipment to operate in a manner compatible with telecommunications or private line service.

The Telephone Company may make changes in its telecommunications or private line services, equipment, operations or procedures, where such action is not inconsistent with Part 68 of the Federal Communications Commission's Rules and Regulations.

If such changes can be reasonably expected to require modification or alteration of customer provided terminal equipment or communications systems or materially affect its performance, the Company will make a reasonable effort to notify the customer in advance, to allow the customer an opportunity to maintain uninterrupted service.

The Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or in connection with the use of facilities of customers and not caused solely by the negligence of the Company.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.1 GENERAL REGULATIONS (Cont'd)

D. Violation of Regulations

Where any customer provided equipment or system or communication system provided to a customer is used with telecommunications service in violation of any of the provisions in this Price list, the Telephone Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 5 days, following the receipt of written notice from the Company, that such use has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Telephone Company within the time stated above shall result in termination of the customer's service until such time as the customer complies with the provisions of this Price list. The right of the Telephone Company to terminate service, as provided above, includes the right to suspend the service or to disconnect such customer-provided equipment or communications system.

E. Hazardous or Inaccessible Locations

Customer provided equipment which serve a location which the Telephone Company considers impracticable to service because of hazard or inaccessibility may be connected with telecommunications service by means of connecting equipment furnished by the Telephone Company.

F. Provisions of Channels and Equipment

When the customer elects to provide his own communications system, it is contemplated that the customer shall provide all station apparatus and associated channels which are a part of the system and which are located on the same customer's premises as the system.

S10.1 GENERAL REGULATIONS (Cont'd)

G. Recording, Reproducing, and Automatic Answering and Recording Equipment

1. Recording or Two way Telephone Conversations

Telecommunications and private line services are not represented as adapted to the recording of two way telephone conversations. Customer provided voice recording equipment may be connected with telecommunications and private line services accordance with the provisions in this Price list, subject to the following conditions:

When recording equipment is in use and is a direct electrical connection with services of the Telephone Company, a recorder tone that is repeated at intervals of approximately fifteen seconds is required, except that the recorder tone described is not required:

a. When the equipment will be used by public fire and police departments exclusively for the receipt of intrastate fire and police calls, and attended at all times for such purpose.

b. For Federal Communications Commission licensed broadcast stations for the purpose of recording two way telephone conversations for broadcast over the air so long as those activities are consistent with the applicable broadcast regulations.

c. When such equipment is used by the United States Department of Defense at command centers for emergency communications transmitted over the Defense Department's private line system when connected to the telecommunications network.

d. For the United States Secret Service of the Treasury Department to record Telephone conversations which endanger the safety and security of the President of the United States, and members of his immediate family.

e. Customer provided voice recording equipment shall be so arranged that it can be physically connected to and disconnected from Telephone Company facilities and switched on and off.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS

A. Customer provided registered terminal equipment, registered protective circuitry, and registered communications systems may be directly connected at the customer's premises to the telecommunications network, subject to Part 68 of the Federal Communication Commission's Rules and Regulations:

1. A customer provided registered key system may be connected directly to the public switched network or behind a Company provided Centrex system provided that the customer provided equipment and the associated customer provided premises wiring are in compliance with Section 68.214 and 68.215 of the FCC's Rules and Regulations.

2. The customer shall notify the Company of each line to which registered equipment is to be connected and shall notify the Company when such registered equipment is permanently disconnected. The customer shall provide the Company the registration number and ringer equivalence number for the registered equipment. The customer is also responsible for specification of the appropriate protective connecting arrangement when other than the standard jack is required. (See FCC Part 68, Section 68.106, Notification to Telephone Company.)

3. The Company is not obligated to provide system and/or terminal equipment or station wiring beyond the point of connection (network interface) with customer provided systems and/or terminal equipment.

B. Premises Wiring Associated with Registered or Grandfathered Communications Systems

1. Premises Wiring is wiring which connects separately housed equipment entities or system components to one another, or wiring which connects and equipment entity or system component With the telephone network interface, located at the customer's premises and not within an equipment housing.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS (Cont'd)

B. Premises Wiring Associated with Registered or Grandfathered Communications Systems (Cont'd)

1. (Cont'd)

a. Fully protected Premises Wiring is premises wiring which is:

(1) No greater than 25 feet in length (measured linearly between the point where it leaves equipment or connector housings) and registered as a component of and supplied to the user with the registered terminal equipment or protective circuitry with which is to be used.

(2) A cord which complies with (1) preceding and which is extended once by a registered extension cord. Extension cords may not be used as a substitute for wiring which for safety reasons should be affixed to or embedded in a building's structure.

(3) Wiring located in an equipment room with restricted access, provided that this wiring remains exposed for inspection and is not concealed or embedded in the building's structure, and that it conforms to Part 68 of the Federal Communications Commission's Rules and Regulations.

(4) Electrically behind registered equipment, system components or protective circuitry which assure that electrical contact between the wiring and commercial power wiring or earth ground will not result in hazardous voltages or excessive longitudinal imbalance at the telephone network interface.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS (Cont'd)

B. Premises Wiring Associated with Registered or Grandfathered Communications Systems (Cont'd)

1. (Cont'd)

b. Protected Premises Wiring Requiring Acceptance Testing for Imbalance is premise wiring which is electrically behind registered equipment, system components or circuitry, which assure that electrical contact between the wiring and commercial power wiring will not result in hazardous voltages at the telephone network interface.

c. Unprotected Premises Wiring is all other premise wiring.

2. Customers who intend to connect premise wiring other than Fully Protected Premises Wiring to the telephone network shall give advance notice to the Company in accordance with the procedures specified in Part 68, Section 68.106(c) of the Federal Communication Commission's Rules and Regulations.

S10.3 CONNECTIONS OF GRANDFATHERED TERMINAL EQUIPMENT AND GRANDFATHERED COMMUNICATIONS SYSTEMS

A. Direct Connections and Connections Through Connecting Arrangements Provided by the Company

1. If the initial rule compliance connection was made prior to January 1, 1980, grandfathered Terminal Equipment and Grandfathered Communication Systems may remain directly connected and be moved and reconnected to the telecommunications network for the life of the equipment without registration. The equipment or system may be modified only in accordance with Part 68 of the Federal Communications Commission's Rules and Regulations, subject to the following:

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.3 CONNECTIONS OF GRANDFATHERED TERMINAL EQUIPMENT AND GRANDFATHERED COMMUNICATIONS SYSTEMS

A. Direct Connections and Connections Through Connecting Arrangements Provided by the Company

1. (Cont'd)

a. The customer shall notify the Company when grandfathered terminal equipment or a communication system is to be connected. Notification should include a description of the equipment, manufacturer's name, model number and type of equipment and state its previous connection, which qualifies it for continued connection. The customer shall also notify the Company when such communications equipment and systems are to be permanently disconnected.

b. All connections are made through a network interface agreeable to the Company and the customer.

c. All such connections shall comply with all the criteria contained in Subpart D of Part 68 of the Federal Communication Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

S10.4 ACOUSTIC OR INDUCTIVE CONNECTIONS

A. General

Customer provided voice or data terminal equipment and customer provided communications systems may be acoustically or inductively connected at the customer's premises to the telecommunications network provided the connection is made externally to the network control signaling unit when the unit is Telephone Company provided. The customer provided communications equipment must comply with all the criteria contained in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER (CONT'D)

S10.5 CONNECTION OF CUSTOMER PROVIDED COMMUNICATIONS SYSTEMS NOT SUBJECT TO PART 68 OF THE FCC RULES AND REGULATIONS

A. Customer provided communications systems not subject to Part 68 of the Federal Communications Commission's Rules and Regulations may be connected with telecommunications services in accordance with this Price list. These communications systems (including channels derived from such systems), not exceeding voice grade, may be connected at the customer's premises provided that:

1. Such telecommunications service or customer provided communications system is utilized for the origination or termination of communications at the customer's premises where the connection is made.

2. The connection shall be through a network control signaling unit and connecting arrangement furnished by the Company.

3. The connection shall be made through switching equipment provided either by the customer or by the Company.

4. The provisions relating to minimum protection criteria set forth in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section. As related to minimum protection criteria and when applied to the connection of customer provided communications systems, the term "Customer's premises" shall include any premises on which the customer provided communications system is terminated.

Where a telecommunications service is used in the provision of a composite data service for others and connection of such service is made to a communications system provided by a customer and the connection is made through customer provided data switching equipment, the provisions of a. and c. above do not apply.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.6 CONNECTIONS OF CUSTOMER PROVIDED TERMINAL EQUIPMENT SPECIFICALLY EXCLUDED FROM THE FCC REGISTRATION PROGRAM

A. Customer provided terminal equipment may be connected at the customer's premises to party line and semipublic coin services of the Company in accordance with the following:

1. The connection of customer provided terminal equipment to services specifically excluded from the Federal Communications Commission's Registration programs shall be through a protective connecting arrangement which must be furnished by the Company.

2. The connection of customer provided communications equipment must comply with all the criteria contained in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

S10.7 CUSTOMER PREMISES INSIDE WIRE

A. General Regulations

1. Customer premises inside wire and standard jacks associated with residence and business individual line basic local exchange services, as defined elsewhere in this Price list, may be provided by either the Company or the customer.

2. Customer premises inside wire is defined as that wire, including connectors, blocks and jacks, within a customer's premises that extends between the termination of the Exchange Access Line and those standard jack locations within the customer's premises to which terminal equipment can be connected for access to the Network Access Line.

3. Customer premises inside wire provided by the customer must be installed in accordance with the technical standards and installation guidelines furnished to the Commission by the Company and must comply with the National Electric Safety Code and applicable local codes.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.7 CUSTOMER PREMISES INSIDE WIRE (Cont'd)

A. General Regulations (Cont'd)

4. Customer premises inside wire provided by the customer may be connected to residence and business individual line basic local exchange service furnished by the Company at a specified network interface.

5. The network interface for the connection of customer premises inside wire consists of a standard modular jack or appropriate device and is provided as part of the network access line. This will be installed inside or outside the customer's premises at a location determined by the Company which is accessible to the customer. The normal location will be in close proximity to the protector or entrance facility, whenever practicable.

6. The Company is not obligated to connect telephone instruments and standard modular jacks to customer provided inside wire.

7. Maintenance of customer owned premises inside wire may be performed by either the Company or the customer.

B. Responsibility of the Customer

1. When the customer provides the inside wire and standard jacks, the installation must be in accordance with the technical standards furnished to the Commission by the Company.

2. In the event the customer maintains or attempts to maintain inside wire, the customer assumes the risk of loss of service, damage to property, or death to or injury of the customer or the customer's agent. The customer will save the Company harmless from any and all liability claims, or other damage suits arising out of the customer's wire maintenance activity.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.7 CUSTOMER PREMISES INSIDE WIRE (Cont'd)

C. Responsibility of the Company

1. The Company will make the technical standards and installation guidelines for customer provision of inside wire available to customers at Business office or other designated locations.

D. Violation of Regulations

1. Where customer provided inside wire is a violation of Section 2, the Company will properly notify the customer of the violation and will take such immediate action as is necessary for the protection of the telecommunications network and Company employees.

2. The customer shall discontinue use of the customer provided inside wire or correct the violation and notify the Company in writing that the violation has been corrected within 20 days after receipt of such notice.

3. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer's service until such time as the customer complies with the provision of this Price list.

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS

A. General Provision

Communications systems provided by Other Common Carrier hereafter referred to as the OCC, may be connected with the facilities furnished by the company for Exchange, Long Distance Message Telecommunication Service and Wide Area Telecommunications Service as specified in B through H following.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS (Cont'd)

B. Responsibility of the Customer

Where Exchange, Long Distance Message Telecommunications Services and Wide Area Telecommunications Service are available under this Price list for use in connection with OCC provided communications systems, the operating characteristics of such systems shall be such as not to interfere with any of the services offered by the company. Such uses is subject to the further provisions that the OCC provided systems do not endanger the safety of company employees or the public; damage, require change in, or alteration of, the equipment or other facilities unless the change or alteration is specifically permitted under the provisions of Equipment to Equipment Connections of this Price list; impair the operation of the telecommunications system or otherwise injure the public in its use of company's services. Upon notice from the company that the OCC provided system is causing or is likely to cause such hazard or interference, the customer shall arrange with the OCC to make such change as shall be necessary to remove or prevent such hazard or interference.

The customer shall be responsible for payment of a Maintenance of Service Charge, as set forth in Service Connection Charges for each repair visit by the company to the premises of the customer where the service difficulty results from the use of equipment, facilities, or services provided by another Common Carrier.

C. Network Control Signaling

Satisfactory performance of the telecommunications network requires continuing functional capability of the network control signals and the switching equipment involved. To assure such continuing capability, network control signaling (expect customer provided tone type address signaling through a Company provided or OCC provided connecting arrangement) in the furnishing of telecommunications service shall be performed by equipment furnished, installed and maintained by the Company or the OCC.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS (Cont'd)

D. Conditions for Connection of Other Common Carrier Provided Communications Systems at the Premises of the Customer

Other Common Carrier provided communications systems (including channels derived from such systems) analog, not exceeding voice or digital, may be connected with Exchange, Long Distance Message Telecommunications Services or Wide Area Telecommunications Service at the premises of the customer, provided that the connection is only made through a Service Terminating Arrangement in one of the following ways:

1. The connection is either through equipment which effects such connection externally to a company provided network control signaling unit by means of an acoustic or inductive connection for transmitting and/or receiving through direct electrical connection in accordance with "b" or "c" below.

2. Where the connection with the OCC provided communications systems involves direct electrical connection to the facilities furnished by the company for Exchange, Long Distance Message Telecommunications Service, such connection shall be made:

   a. Through switching equipment,

   b. Through a channel derivation device, or

   c. Directly to the Service Terminating Arrangement.

3. Where the connection is made by means of switching equipment provided by the customer, or by means of a channel derivation device provided by the customer, such switching equipment or derivation device, and the facilities provided by the OCC shall be treated as a customer provided communications system, and the regulations applicable to the connection of customer provided communications systems shall apply, as set forth in Connections of Registered Equipment and Connections of Grandfathered Terminal Equipment and Grandfathered Communications Systems.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS (Cont'd)

D. Conditions for Connection of Other Common Carrier Provided Communications Systems at Premises of the Customer (Cont'd)

4. Connection may be made if the forms of electrical communication are the same and consistent with those for which the company provided service is offered. Connections are not represented as being suitable for satisfactory transmission.

5. The rates and charges for connection with OCC provided communications systems shall be the same as those that would apply if company services were so connected. The rates and charges to the customer are in addition to the rates and charges made be the OCC for the services and channels which it provides.

6. The customer has a requirement to communicate over the WATS line to or from the premises of that customer located in the same state and state subdivision as that for which the WATS initial period rate applies. Other Common Carrier provided communications systems which are connected directly to the Service Terminating Arrangement must terminate only in that WATS same state and state subdivision in terminal equipment or a multiline terminating system.

E. Conditions for Connection of Other Common Carrier Provided Communications Systems at the Premises of the Company

1. Communications Systems (utilizing central office connecting facilities), not exceeding voice grade, provided by an OCC to a customer may be directly connected at the premises of the company with Exchange Service or Long Distance Message Telecommunications Service furnished by the company to the same customer, provided such connections are made through:

a. Individual exchange lines or PABX trunk exchange lines to permit communications via the OCC provided communications system, to or from the customer's premises located in an exchange foreign to the exchange in which the connection is made.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS(Cont'd)

E. Conditions for Connection of Other Common Carrier Provided Communications Systems at the Premises of the Company (Cont'd)

1. (Cont'd)

b. Centrex control switching equipment furnished in accordance with other provisions of this Price list.

2. Communications Systems (utilizing central office connecting facilities), not exceeding voice grade, provided by an OCC to a customer may be connected at the premises of the company with WATS furnished by the company to the same customer, provided the connection is made through:

a. Centrex control switching equipment furnished in accordance with other provisions of this Price List.

b. Common control switching arrangements or a switching center for enhanced private switched communications services in accordance with Section 4 of Tariff F.C.C. No. 260.

3. The connections specified above shall be made only if:

a. The customer has a requirement to originate or terminate communications over the WATS line to or from premises of that customer located in the same state and state subdivision as that for which the WATS initial period rate applies; and

b. The forms of electrical communications are the same and consistent with those for which the company provided service is provided.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS(Cont'd)

E. Conditions for Connection of Other Common Carrier Provided Communications Systems at the Premises of the Company (Cont'd)

3. (Cont'd)

c. Channels (utilizing central office connecting facilities), not exceeding voice grade, provided by an OCC, to a customer may be connected with WATS arranged for outward service furnished by the company to the same customer at the WATS central office which normally serves the customer's premises provided that:

(1) The customer has a requirement to originate communications over the WATS line from premises of that customer located in the same state and state subdivision as that for which the WATS initial period rate applies;

(2) Connection shall be made only if the forms of electrical communications are the same and consistent with those for which the company provided service is offered;

(3) Such OCC channel is dedicated to the exclusive use of the WATS customer and is terminated at the premises of the OCC in switching equipment provided by the OCC to the WATS customer as part of its authorized domestic switched Private Line Service;

(4) All communications over outward WATS will originate at the premises of the WATS customer via an access channel to the OCC's switching arrangement. That access channel will be dedicated to the private use of the WATS customer and not used or usable for public communications service.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS(Cont'd)

F. OCC Service

All arrangements for service provided by an OCC shall be made by the customer with that carrier. The furnishing of Exchange, Long Distance Message Telecommunications Service, and Wide Area Telecommunications Service by the company is not a part of a joint undertaking with the OCC.

G. Responsibility of the Company

The Company shall not be responsible for the installation, operation or maintenance of any OCC provided communications equipment or system. Exchange, Long Distance Message Telecommunications Services and Wide Area Telecommunications Service are not represented as adapted to the use of OCC provided equipment or systems and where such are connected to company facilities, the responsibility shall be limited to the furnishing of facilities suitable for Exchange or Long Distance Message Telecommunications Service and to maintenance and operation of such facilities in a manner proper for such telecommunications service; subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the OCC provided equipment or system or for the quality of, or defects in, such transmission, or (2) the reception of signals by the OCC provided equipment or system, or (3) network control signaling where such signaling is performed by OCC provided network control signaling equipment.

Where an OCC provided communications system utilizes satellite facilities, or is connected to a communications system which utilizes satellite facilities, the connection of such OCC provided system to WATS may result in the utilization of two or more satellite circuits on the same combined connected facilities.

The Company shall not be responsible to the customer or OCC if changes in minimum network protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by an OCC thereof, obsolete or require modification or alteration of such equipment or system, or otherwise affect its use or performance.

S10. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S10.8 CONNECTIONS OF OTHER COMMON CARRIER PROVIDED COMMUNICATIONS SYSTEMS(Cont'd)

H. Violation of Regulations

When any OCC provided system is connected to the Exchange, Long Distance Message Telecommunications Service or Wide Area Telecommunications Service, in violation of any of the provisions in Connections of Other Common Carrier Provided Communications Systems, the Company will take such immediate action as necessary for the protection of the network and will promptly notify the customer of the violation. The customer shall discontinue such connection of the equipment or system or correct the violation and shall confirm in writing to the Company within ten days, following the receipt of written notice from the Company, that such connection has ceased or that the violation has been corrected. Failure of the customer to discontinue such connection or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in suspension of the customer's service until such time as the customer complies with the provisions of this Price list.

S11. EMERGENCY SERVICE

CONTENTS

S11.1 Universal Emergency Number Service (911) 1

S11.2 Enhanced Universal Emergency Number Service (911) ... 4

S11. EMERGENCY SERVICE

S11.1 UNIVERSAL EMERGENCY NUMBER SERVICE (911)

A. General

1. When requested by local government authorities, and subject to the availability of facilities, the Company will provide a universal number "911" for use of Public Safety Answering Points (PSAP's) engaged in assisting local governments in the protection and safety of the general public. Use of the 911 number will provide each caller telephone access to a local PSAP.

2. No charge applies to the calling party for calls placed to the 911 emergency number.

B. Rules And Regulations

1. 911 Service is provided by the Company where facilities and operating conditions permit.

2. This offering is limited to the use of central office number 911 as the universal emergency number and only one 911 service will be provided within any government agency's locality.

3. The 911 emergency number is not intended to replace the telephone service of the various public safety agencies which may participate in the use of this matter.

4. The service is furnished to municipalities and other government agencies only for the purpose of voice reporting emergencies by the public.

5. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies and does not create any relationship or obligation, direct or indirect, to any person other than the customer contracting for 911 service. In the event of any interruption of the service, the Company shall not be liable for any loss or damage other than a pro rata allowance to the customer at the tariff rate for the time such interruption is due to the negligence or willful act of the customer of the service.

6. In the white pages of the directory, a seven-digit non-emergency number must be listed along with the 911 number for the participating public agencies.

S11.1 UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Cont'd)

B. Rules and Regulations (Cont'd)

7. Application for 911 service must be executed in writing by the customer (a municipality, a local government authority or their duly appointed agent). If execution is by an agent, satisfactory evidence of the appointment must be provided in writing to the Company. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.

8. The customer must furnish the Company, in writing, with its agreement to the following terms and conditions:

a. That at least one PSAP will be provided and staffed on a 24 hour coverage basis.

b. That the customer accepts responsibility for dispatching, or having others dispatch police, fire, ambulance or other emergency services as required, to the extent as such services are reasonably available.

c. That the customer will subscribe to a sufficient number of interoffice and 911 exchange lines to adequately handle incoming calls as determined by the Company but in all cases subject to a minimum of two lines required at any point in the 911 network including the 911 exchange lines terminated at the PSAP.

d. That the customer will subscribe for additional local exchange service at the PSAP location for administration purposes, for placing of outgoing calls and for receiving other emergency calls including any which may be relayed by Company operators.

S11. EMERGENCY SERVICE

S11.1 UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Cont'd)

C. Basic 911

1. Definition Of Service

A Basic 911 (B911) system includes the Company provision of the 911 code or the opening of this code to the exchange network in those central offices that fall within the boundaries of the municipalities or other governmental bodies (township, county, etc.) that subscribe for B911 service. The other components of a B911 system include the customer-provided station equipment at the PSAP and the one-way incoming 911 exchange lines. Basic 911 cannot be provisioned with any Caller ID service arrangements.

2. Rates And Charges

a. Messages

No charge applies to the calling party for calls placed to the 911 emergency number.

b. 911 Exchange Lines Filed rates as found elsewhere in this Price list, for Flat or Measured Rate Business Lines as appropriate will apply for 911 exchange lines (answering) that terminate at PSAP's. The monthly rate for the exchange line is the rate applicable for the exchange in which the central office originating the 911 exchange line is located.

c. Dedicated Facilities

When dedicated-direct arrangements are provided from exchanges other than that in which the PSAP is located due to the customer's request, or when dedicated-direct arrangements are provided from exchanges that do not have local calling to the exchange in which the PSAP is located, charges for Foreign Exchange or Foreign Central Office Service will apply.

S11. EMERGENCY SERVICE

S11.1 UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Cont'd)

C. Basic 911 (Cont'd)

2. Rates and Charges (Cont'd)

d. Inter-Office Lines

Non-dedicated lines required between central offices are provided at no charge when the central offices involved are located in exchanges which have local calling to the exchange in which the PSAP is located.

e. Access to Interexchange Carriers and Company tie lines, private lines, extension lines and other such channels connecting a PSAP to various agencies such as police, fire or ambulance service, are provided at filed tariff rates for such channels and facilities as specified in this Price list and other appropriate Tariffs.

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)

A. General

1. Enhanced Universal Emergency Number Service, also referred to as Enhanced 911 Service or E911, is a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. E911 Service requires the interaction of two distinct services: the functions provided via network-related "Service Features", and those associated with customer premises terminal equipment (PSAP equipment). "Service Features" is a regulated offering of the Local Exchange Company only, and rates and charges for same are included herein. PSAP equipment may be provided by the Company or other vendors. While the functionality of PSAP equipment is regulated by the terms and conditions set forth by the Alabama Public Service Commission, rates and charges for such equipment are subject only to economic market forces, and are therefore excluded.

S11. EMERGENCY SERVICE

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

A. General (Cont'd)

2. Enhanced 911 Service is offered subject to availability of facilities.

3. The E911 customer may be a municipality, other state or local governmental unit, an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated, or an authorized reseller. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling.

B. Definition Of Terms

ADDITIONAL E911 EXCHANGE LINE

Additional terminating line at a PSAP that may be ordered by the customer as an optional feature.

ALTERNATE ROUTING (AR)

A feature provided to allow E911 calls to be routed to a designated alternate location if

1. all E911 exchange lines to the primary PSAP are busy, or
2. the primary PSAP closes down for a period.

This is a standard feature of E911 Service.

AUTOMATIC LOCATION IDENTIFICATION (ALI)

A feature by which the name and address associated with the calling party's telephone number (identified by ANI as defined following) is forwarded to the PSAP for display. Multiple station lines with the same ANI will be identified with the address associated with that ANI. No ALI data is provided when a call is sent to Default Routing (DR). In the case of 911 calls from subscribers of wireless carriers that are interconnected to BellSouth's 911 Control Office and primary

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

B. Definition of Terms (Cont'd)

AUTOMATIC LOCATION IDENTIFICATION (ALI) (Cont'd)

and/or secondary PSAPs equipped with data communications links to BellSouth's ALI database, these Wireless 911 calls will be delivered with a version of the ALI feature that includes certain carrier identification, cell tower or antenna array descriptive data as agreed to by the customer and the wireless carrier, and the wireless subscriber's call-back number. This information is consistent with the requirements of FCC Order 94-102 for Phase I Wireless 911 interconnection. The customer is required to make any changes in the MSAG needed to accommodate the wireless carriers' loading of their respective Pseudo-ANI (P-ANI) records into BellSouth's 911 database management system when P-ANI records are associated with towers and/or antennas located in the customer's jurisdiction.

AUTOMATIC NUMBER IDENTIFICATION (ANI)

A feature by which the calling party's telephone number is forwarded to the E911 Control Office and to the PSAP's ANI/ALI controller.

CENTRALIZED AUTOMATED MESSAGE ACCOUNTING (CAMA) MF SIGNALING

A signaling protocol for sending 8 digits of ANI from the 911 tandem to the PSAP.

DATA MANAGEMENT SYSTEM (DMS)

A system of manual procedures and computer programs used to create, store and update the data required to provide the Selective Routing (SR) and ALI features.

DEFAULT ROUTING (DR)

A feature activated when an incoming E911 call cannot be selectively routed due to an ANI failure, garbled digits or other causes. Such incoming calls are routed from the E911 Control Office to a default PSAP. Each incoming E911 facility group to the Control Office is assigned to a designated default PSAP. This is a standard feature of E911 Service when the service is equipped for Selective Routing.

S11. EMERGENCY SERVICE

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

B. Definition of Terms (Cont'd)

EMERGENCY COMMUNICATIONS DISTRICT (ECD)

An area composed of the territory lying wholly within a municipality or of any part or all of the territory lying wholly within a county, created by the governing body of the municipality or the county by passage of a resolution or ordinance in accordance with the State Code of Alabama, 1975, Volume 10, Title 11, Chapter 98.

EMERGENCY SERVICE NUMBER (ESN)

A number that defines the set of emergency services (e.g. police, fire, hospital) within a particular district or zone. An ESN is associated with the primary PSAP and possibly one or more secondary PSAPs.

END OFFICE

The Central Office(s) in the E911 System which receives originating E911 calls.

ENHANCED 911 (E911) CONTROL OFFICE

The office providing tandem switching capability for E911 calls. It controls switching of ANI information to the PSAP and also provides the SR feature, standard ESS Speed Calling features, Call Transfer capability and certain maintenance functions for each PSAP.

ENHANCED 911 SERVICE AREA

The geographic area in which the customer will respond to all E911 calls and dispatch appropriate emergency assistance.

ENHANCED MF SIGNALING (EMFS)

A signaling protocol for sending 10 or 20 digits of ANI from the 911 tandem to the PSAP. EMF Signaling is required when five or more area codes are served by a single 911 tandem.

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

B. Definition of Terms (Cont'd)

FORCED DISCONNECT

A function of the E911 Central Office trunk circuit which enables the PSAP attendant to release a connection even though the calling party has not hung up. This feature prevents the jamming of the E911 exchange lines and is a standard feature of E911 Service.

MANUAL TRANSFER

A feature that enables the PSAP attendant to transfer an incoming E911 call by dialing either a 7-digit or 10-digit telephone number or a 2-digit Speed Calling Code. Manual Transfer is associated with the E911 trunk and is a standard feature of E911 Service.

MASTER STREET ADDRESS GUIDE (MSAG)

A listing of all streets and house number ranges within a 911 service area. The streets and address ranges are assigned selective routing codes, or emergency service numbers (ESNs), to enable proper routing of 911 calls.

PUBLIC SAFETY ANSWERING POINT (PSAP)

An answering location for 911 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first; Secondary PSAPs receive calls on a transfer basis only and generally serve as a centralized answering location for a particular type of emergency call. PSAPs are staffed by employees of public service agencies such as police, fire or emergency medical or by employees of a common bureau serving a group of such entities.

SELECTIVE ROUTING (SR)

A feature that routes an E911 call from a central office to the designated primary PSAP based upon the identified number of the calling party.

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

B. Definition of Terms (Cont'd)

SERVING CENTRAL OFFICE

The central office from which a PSAP, either primary or secondary, is served.

UNIVERSAL EMERGENCY NUMBER SERVICE

A telephone exchange communication service for receiving telephone calls placed by persons in need of assistance who dial the number 911. Such calls are answered at PSAPs established and operated by the customer. The lines and the equipment specified in this Price list section that are associated with the service arrangement for the answering, transferring and dispatching of public emergency telephone calls are included.

WIRELESS CARRIER

A person or entity who provides Commercial Mobile Radio Service (CMRS). The term wireless carrier includes service provided by any wireless real-time, two-way voice communication device, including radio-telephone communications used in cellular telephone service, personal communication service (PCS), or the functional or competitive equivalent. The term does not include service providers whose customers do not have access to 911 or a 911-like service.

C. Rules And Regulations

1. This service is limited to the use of central office telephone number 911 as the universal emergency telephone number. Only one E911 service will be provided within any government agency's locality.

2. The 911 emergency telephone number is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies will subscribe to other exchange telephone service as provided in other sections of this Price list.

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

3. The service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.

4. E911 Service is classified as Business Exchange Service and is arranged for one-way incoming service to the appropriate PSAP. Outgoing calls can only be made on a transfer basis.

5. E911 Service is provided solely for the benefit of the customer operating the PSAP as an aid in handling assistance calls in connection with fire, police and other emergencies. The provision of E911 Service by the Company shall not be interpreted, construed, or regarded, either expressly or implied, as being for the benefit of or creating any relationship with or any Company obligation direct or indirect, to any third person or legal entity other than the customer.

6. The Company does not undertake to answer and forward E911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.

7. Temporary suspension of service is not provided for any part of the E911 Service.

8. Central offices that are not currently equipped to transmit ANI will not be modified to provide ANI just for E911 Service. When the Selective Routing feature is provided, in such circumstances, Default Routing and central office identification will be provided in lieu of Selective Routing and ANI Display.

9. The Company's entire liability to any person for interruption or failure of E911 Service shall be limited to the terms set forth in this section and other sections of this Price list.

S11. EMERGENCY SERVICE

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

10. The rates charged for E911 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.

11. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures, or malfunctions of this service or any part thereof shall not exceed the greater of $50.00 or an amount equivalent to the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative. These limited damages shall be in addition to any credit which may be given for an out-of-service condition.

12. It will be the intent of the Company to provide facilities designed to provide a call blocking probability of one call per hundred during normal busy hours for E911 Service.

13. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all E911 calls that originate from telephones served by central offices in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

14. Application for E911 service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. A negotiated date will be agreed upon with the customer. Should the customer choose to delay the original cut date by more than three months and the system is available for cut, installation charges may be charged effective with the originally scheduled date. Further, the cut date will be renegotiated so as not to interrupt other scheduled cutovers. When an order for E911 Service and facilities or requests for additions, rearrangements, relocations or modifications of service and equipment are cancelled in whole or in part, the customer is required to reimburse the Company for all expenses incurred in handling the request before notice of cancellation is received. Such charges, however, are not to exceed all charges which would apply if the work involved in complying with the request had been completed. At least one local law enforcement agency must be included among the participating agencies in any E911 offering.

15. Any terminal equipment used in connection with E911 Service, whether such equipment is provided by the Company or the customer, shall be configured so that it is unable to extract any information from the Data Management System other than information relating to a number identified through the ANI feature as the source of an in-progress 911 call and must comply with the guidelines for such equipment adopted by the Alabama Public Service Commission.

16. The customer must furnish the Company its agreement to the following terms and conditions.

    a. That all E911 calls will be answered on a 24-hour day, seven-day week basis.

S11. EMERGENCY SERVICE

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

16. (Cont'd)

b. That the customer has responsibility for dispatching the appropriate emergency service vehicles within the E911 Service area, or will undertake to transfer all E911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.

c. that the customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the E911 PSAP by calling parties.

d. that the customer will subscribe to local exchange service at the PSAP location for administrative purposes, for placing outgoing calls, and for receiving other calls.

e. that the customer will subscribe to, or provide, telephone equipment with a capacity adequate to handle the number of incoming E911 lines recommended by the Company to be installed.

17. When the Selective Routing feature is provided, the customer is responsible for identifying primary and secondary PSAP locations as well as the unique combinations of police, fire and emergency medical agencies or any other appropriate agencies responsible for providing emergency service in the E911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Company. The customer will associate these ESNs with street address ranges or other mutually agreed upon routing criteria in the E911 serving area. These ESNs will be carried in the Data Management System (DMS) to permit routing of E911 calls to the primary and secondary PSAPs responsible for handling of calls from each telephone in the E911 serving area. The Company may assist the customer through the provision of information from its records concerning the names,

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

17. (Cont'd)

telephone numbers and service addresses of subscribers within the customer's E911 serving area. The following terms define the customer's responsibility in providing information to the Company.

a. Initial and subsequent ESN assignments by street name, address range and area or other mutually agreed upon routing criteria shall be furnished by the customer to the Company prior to the effective date of service.

b. After establishment of service, it is the customer's responsibility to continue to verify the accuracy of the routing information contained in the master address file, and to advise the Company of any changes in street names, establishment of new streets, closing and abandonment of streets, changes in police, fire, emergency medical or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of E911 calls to the proper PSAP.

c. The Company will provide to the customer on request a complete written copy of the master address file to permit the customer to verify the accuracy of the police, fire, and emergency medical PSAP routing designations.

d. Changes, deletions and additions which the customer desires to have made in the master address file should be submitted on an "as occurred" basis.

e. The Company will furnish a written copy of the transaction to the customer for verification showing each change, deletion and addition to the master address file.

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

18. Emergency Service Numbers (ESNs) are only available as part of the Selective Routing feature. Single and Multi-PSAP customers who desire to use ESNs for administrative purposes may do so as long as they subscribe to Selective Routing. Administrative ESNs can only be used to identify a unique set of responding agencies. For the purposes of this Tariff, a responding agency is defined as a municipality's police, fire, emergency medical service or other appropriate agency. ESNs will not be assigned to specific police precincts, fire stations, emergency medical zones, etc. ESNs will not be assigned to allow wireless pseudo-ANIs of multiple Emergency Communications Districts (ECDs) to be aggregated for auditing and billing purposes under a single ECD.

19. The customer is responsible for preparing a map with a complete list of road names and another map that identifies jurisdictional boundaries. This includes the naming and/or renumbering of streets and the assignment of numbers for previously unnumbered property. This information is then merged with Company records to form the initial Master Street Address Guide (MSAG). The customer is provided prints of the MSAG for verification and correction purposes at various intervals in the creation process. The Company may assist the customer through the provision of information from its records concerning the names, telephone numbers and service addresses of subscribers within the customer's serving area.

20. The following terms define the customer's responsibilities with respect to any information provided by the Company to the customer concerning the Company's subscribers and/or with respect to geographical information or maps:

    a. Such information shall be used by the customer solely for the purpose of aiding the customer in more accurately identifying, updating and/or verifying the addresses of subscribers within the customer's E911 serving areas in connection with the customer's provision of E911 services.

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

20. (Cont'd)

b. Customer shall strictly limit access to the information to those authorized employees of the customer with a need to know and those employees actually engaged in the provision of emergency assistance services.

c. Customer shall use due care in providing for the security and confidentiality of the information.

d. Customer shall make no copies of the information except as may be essential for the verification of emergency assistance services.

e. As soon as customer has completed using the information for the purposes authorized in the Tariff or upon the request of the Company, customer shall return all information and all copies of information to the Company or certify that the information has been destroyed.

21. Each customer agrees to release, indemnify, defend and hold harmless the Company from any and all loss, claims, demands, suits, and other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person: (1) for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others, and which arises out of the negligence or other wrongful act of the Company, the customer, its user agencies or municipalities or employees or agents of any one of them, or (2) for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of 911 service features and the equipment associated therewith, including, but not limited to, the identification of the telephone number, address, or name associated with the

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

C. Rules and Regulations (Cont'd)

21. (Cont'd)

telephone number used by the party or parties accessing 911 service hereunder, or (3) arising out of any act or omission of the customer, in the course of using services provided pursuant to this Price list.

D. Service Features

1. E911 Service is available in five service feature offerings.

a. Automatic Number Identification (ANI)

Charges are based on the total number of access lines served by the local switching offices equipped for ANI only.

b. Selective Routing (SR)

Charges are based on the total number of access lines served by the local switching offices equipped for SR only.

c. Automatic Number Identification and Selective Routing (ANI/SR)

Charges are based on the total number of access lines to which both ANI and SR applies.

d. Automatic Number Identification and Automatic Location Identification (ANI/ALI)

Charges are based on the total number of access lines served by the local switching office equipped for ANI and ALI but not SR.

S11. EMERGENCY SERVICE

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

D. Service Features (Cont'd)

1. (Cont'd)

e. Automatic Number Identification, Automatic Location Identification and Selective Routing (ANI/ALI/SR)

Charges are based upon the total number of access lines to which ANI, ALI, and SR apply. When SR is introduced, different features may be applied to the SR subsets without being applied to the total access lines served by the local switching office. Thus, where two jurisdictions are served by a local switching office each jurisdiction may select a different feature combination as long as SR is one of the features.

2. The service feature offerings include provision of E911 Exchange Lines to all primary PSAPs and to secondary PSAPs that are equipped to display ANI information. The number of lines to a PSAP will be determined by the Company based upon anticipated call volumes. Secondary PSAPs that do not meet these specifications will receive calls on a transfer basis over the exchange network.

3. The following standard features are included with each of the service offerings:
- Forced Disconnect
- Alternate Routing (Night Service)[7]
- Speed Calling
- Central Office Transfer Arrangements
- Default Routing

[7] Night service is implemented by employing a private line circuit between the E911 control office and the PSAP. This circuit will be billed at rates specified in the Private Line Service Price list.

S11. EMERGENCY SERVICE

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

E. Rates and Charges

1. A Service Ordering Charge - premises visit not required will be applied on a per service order basis.

2. Messages

a. The calling party is not charged for calls placed to the 911 number.
b. Charges for toll messages transferred over exchange facilities from a PSAP are billed according to rates applicable from the central office serving the PSAP initiating the transfer to the point of termination of the transfer.

3. Service Features

a. Rounded to nearest 1000 access lines per service feature per Company (excluding WATS terminations). This count is based upon the number of access lines in service at the time service is established. The count will be adjusted annually for purposes of updating customer billing. For each Service Feature, where the count of access lines has been adjusted upward, only monthly recurring rates apply for each 1000 access lines so adjusted (after rounding).

(1) Per 1000 Access Lines Served

		Nonrecurring Charge	Monthly Rate
(a)	Automatic Number Identification	$370.00	$38.50
(b)	Combined Automatic Number Identification and Selective Routing	$3,190.00	$115.00
(c)	Combined Automatic Number and Location Identification	$3,290.00	$145.00
(d)	Combined Automatic Number and Location Identification and Selective Routing	$3,290.00	$150.00

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

E. Rates and Charges (Cont'd)

3. Service Features (Cont'd)

b. Optional additional E911 Exchange Line terminating at PSAP

(1) The monthly rate for business individual line with grouping is applicable.

	Nonrecurring Charge	Monthly Rate
(a) Each	$85.00	$-

S11. EMERGENCY SERVICE

S11.2 ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

E. Rates and Charges

4. Service Features for Access Lines in a Jointly Provided System.

a. Where the Independent Company, other Local Exchange Company, or Wireless Carrier chooses to directly bill the E911 subscriber for its services, the following rates apply.

These rates include the provision of the E911 control office and the control office to PSAP trunks.

(1) Per 1000 access lines served[8]

		Nonrecurring Charge	Monthly Rate
(a)	Combined Automatic Location Identification and Selective Routing[9]	$2,655.00	$97.00
(b)	Selective Routing[10]	$2,625.00	$77.00

[8]Rounded to nearest 1000 access lines per service feature (excluding WATS terminations). This count is based upon the number of access lines in service at the time service is established. The count will be adjusted annually for purposes of updating customer billing. All non-Bell lines, including wireless pseudo-ANI (P-ANIs), will be grouped together and rounded to the nearest 1,000 access lines for billing purposes. For each Service Feature, where the count of access lines has been adjusted upward, for each 1000 access lines so adjusted (after rounding) only the monthly rate will apply. For purposes of counting access lines for Wireless Carriers, the quantity of pseudo-ANI records will be used in lieu of access lines. Pseudo-ANIs will be counted for each Emergency Communications District (ECD) which they serve and will not be aggregated between multiple ECDs.

[9]This rate applies to Independent Company, other Local Exchange Company, or Wireless Carrier access lines located within the E911 subscriber's jurisdiction where the subscriber selects a full-featured system (E8Z).

[10]This rate applies to Independent Company, other Local Exchange Company, or Wireless Carrier access lines located outside the subscriber's jurisdiction where the subscriber selects a full-featured system (E8Z).

E. Rates and Charges (Cont'd)

	Nonrecurring Charge	Monthly Rate
5. Enhanced Multi-Frequency Signaling (EMFS)[11]		
Per PSAP	$-	$-

[11] Enhanced Multi-Frequency Signaling (EMFS) is required per PSAP on all tandem-to-PSAP trunk groups when five or more NPAs (area codes) are resident in one of the 911 tandems serving the PSAP. EMFS delivers ten digits of ANI that includes the 3-digit NPA and the 7-digit telephone number.

S12. RESERVED FOR FUTURE USE

S13. GENERAL RULES AND REGULATIONS

CONTENTS

S13.1 Use of Service 1

S13.2 Establishment and Furnishing of Service 5

S13.3 Obligation of the Company 11

S13.4 Limitations and Use of Service 14

S13. GENERAL RULES AND REGULATIONS

S13.1 USE OF SERVICE

A. Abuse of Fraudulent Use of Service

1. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the Service. Abuse or fraudulent use of service includes:

   a. the use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service;

   b. rearrangement of, tampering with or connection of equipment to the facilities of the Company to obtain, to attempt to obtain or to assist others to obtain service without payment (in total or in part) of regular charges for the service.

   c. false representation, scheme, trick or device whatsoever intended to avoid payment (in total or in part) of regular charges for the service;

   d. the use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment or harass another;

   e. the use of profane or obscene language;

   f. the use of the service in such manner as to interfere unreasonably with the use of the service by one or more other customers;

   g. the impersonation of another;

B. Use of Customer Service

Customer telephone service, as distinguished from public and semi public telephone service, is furnished only for use by the customer, his family, employees, or business associates, or persons residing in the customer's house hold, except as the use of the service may be extended to joint users or to persons temporarily subleasing a customer's residential premises. The Company has the right to refuse to install customer service or to permit such service to remain on premises of a public or

S13. GENERAL RULES AND REGULATIONS

S13.1 USE OF SERVICE (Cont'd)

B. Use of Customer Service (Cont'd)

semipublic character when the station is so located that the public in general, or patrons of the customer may make use of the service. At such locations, however, customer service may be installed, provided the instrument is so located that it is not accessible for public use.

C. Minimum Contract Period

1. Except as specified elsewhere, the minimum contract period is one month from the date that service or additions to service are established and the minimum charge is the authorized rate for one month. For purposes of rate administration, each month is considered to have 30 days.

2. The Company may require a contract period longer than one month at the same location in connection with special types or arrangements of equipment or for unusual construction necessary to meet specific demands for service.

D. Termination of Service

1. By the Company

a. The Company may refuse to furnish, or may terminate the service and remove its equipment under the following circumstances, provided suitable notice has been given to the customer:

(1) upon the continuance of any unpaid regulated amount due for a period of 5 days following temporary suspension;

(2) upon the continuance of any unauthorized attachment as stated elsewhere in this Price list.

S13. GENERAL RULES AND REGULATIONS

S13.1 USE OF SERVICE (Cont'd)

D. Termination of Service (Cont'd)

1. By the Company (Cont'd)

a. (Cont'd)

(3) upon objection to the furnishing of a service made in writing by or on behalf of any governmental law enforcement agency acting within its jurisdiction, on the grounds that such service is, or will be, used for an illegal purpose;

(4) upon the use of a service in such a manner that, in the opinion of the Company, constitutes abuse or fraud or may tend to injuriously affect the efficiency of the Company's plant, property, or service;

(5) upon a violation of any of the regulations governing the furnishing of a service.

2. At Customer's Request

a. Contracts for service may be terminated prior to the expiration of the contract period if advance notice is given to the Company and upon agreement to pay all charges due for the service furnished, plus any applicable termination charges.

b. Where a contract for service with a one month minimum period is cancelled before establishment of the service is completed, a charge not to exceed the service charge specified, is applied if all or a portion of the facilities have been installed.

c. No minimum or termination charge will apply (unless otherwise stated specifically in this Price list) where a new customer takes over the service of the former customer provided the service is to be furnished at the same location without interruption and that the new customer assumes all unpaid charges on the original contract. Minimum and termination charges will apply for any service furnished under the original contract which is not retained by the new customer.

S13. GENERAL RULES AND REGULATIONS

S13.1 USE OF SERVICE (Cont'd)

D. Termination of Service (Cont'd)

2. At Customer's Request (Cont'd)

d. No minimum or termination charge applies if the service is terminated because of condemnation, destruction, or damage to property by fire or other cause, beyond the control of the customer.

E. Resale of Service

The resale of any service, provided by the Company is not permitted except as provided elsewhere in this Price list or as specifically authorized by the Company.

F. Alabama Relay Center Restrictions

1. The following calls may not be placed through the Alabama Relay Center:

- Calls to 976, 900, or 700 numbers.
- Calls to time or weather recorded messages.
- Calls to other informational recordings.
- Station sent paid calls from coin telephones.
- Operator handled conference service and other teleconference calls.
- All calls billed to Cards (i.e., Credit Cards & Calling Cards) other than those issued by Pine Belt.

2. The Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections. Employees are forbidden to accept either oral or written messages to be transmitted over the facilities of the Company, except where the Company transmits messages for Telecommunications Devices for the Deaf (TDD).

3. Where the Company transmits messages through the Relay Center, the Company shall not be liable for errors in translating, transmitting, receiving or delivering messages by telephone, TDD or any other instrumentality over the Company's facilities, connecting utilities or through the Relay Center, in the absence of gross negligence or willful misconduct.

S13. GENERAL RULES AND REGULATIONS

S13.2 ESTABLISHMENT AND FURNISHING OF SERVICE

A. Applications for Service

1. Applications for service may be made orally or in writing.

2. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to establish service for former subscribers of the Company who are indebted for previous service, regardless of the listing requested for such service, until satisfactory arrangements have been made for the payment of such indebtedness.

3. If telephone service is established and it is subsequently determined that either condition in 3 above exists, the Company may suspend or disconnect such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

B. Application of Business Rates

1. Business rates apply in offices, stores, factories, and all other places of a strictly business nature.

2. In boarding houses (except as noted elsewhere) offices of hotels, halls and offices of apartment buildings, quarters occupied by clubs or lodges, public, private, or parochial schools, or colleges, hospitals, libraries, churches, college fraternity houses, and other similar institutions (but excluding dormitory rooms at such schools or colleges).

S13. GENERAL RULES AND REGULATIONS

S13.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

B. Application of Business Rates (Cont'd)

3. At residence locations when the customer has no regular business telephone and the use of the service either by himself, members of his household, or his guests, or parties calling him can be considered as more of a business than of a residence nature, which fact might be indicated by advertising, either by business cards, newspapers, hand bills, billboards, circulars, motion picture screens, or other advertising matter, such as on vehicles, etc., or when such business use is not such as commonly arises and passes over to residence telephones during the intervals when, in compliance with the law or established custom, business places are ordinarily closed.

4. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence.

5. At residence locations, when a telephone station or extension bell is located in a shop, office, or other place of business.

6. At any location where the listing of service at that location indicates a business, trade, or profession, except as specified below.

C. Application of Residence Rates

1. Residence rates apply in private residences where business alphabetical or classified telephone directory listings are not provided.

2. In private apartments of hotels, rooming houses, or boarding houses where service is confined to the customer's use, and elsewhere in rooming houses which are not advertised as a place of business or which have less than five rooms for roomers or which furnish meals to less than ten boarders, provided business telephone directory listings are not furnished.

S13. GENERAL RULES AND REGULATIONS

S13.2 ESTABLISHMENT AND FURNISHING OF SERVICE

C. Application of Residence Rates (Cont'd)

3. In the places of residence of a clergyman, and in the place of residence of a physician, dentist, veterinary, surgeon or other medical practitioner, provided the customer does not maintain an office in the residence. In the residence of a Christian Science practitioner, nurse or midwife, or in the office of any of this group of persons, provided the office is located in the customer's residence and is not part of an office building. In any of such cases the listing may indicate the customer's profession, but only in connection with an individual name. If listings of firms or partnerships, etc., or additional listings of persons not residing in the same household are desired, business rates apply.

4. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence.

D. Customer Billing

1. The customer is responsible for all charges in conjunction with the services furnished him including collect toll messages which have been accepted at the customer's telephone.

2. Monthly recurring charges are billed in advance and toll charges are billed in arrears. Special billing arrangements may be established for services provided to Governmental agencies.

3. Bills are due when rendered unless otherwise specified on the bill and may be paid at any business office of the Company or at any agency authorized to receive such payments.

4. For billing purposes each month is presumed to have thirty days.

5. Retroactive billing adjustments will not be made for a period exceeding three years.

S13. GENERAL RULES AND REGULATIONS

S13.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

D. Customer Billing (Cont'd)

6. The Company may temporarily suspend service in the event the customer fails to pay any regulated amount due. Such suspension shall not be made until at least five days following written notification to the customer of the intention to suspend service.

E. Telephone Numbers

1. The customer has no property right to the telephone number nor any right to continuance of service through any particular central office.

2. The Company reserves the right to change the customer's telephone number or the central office associated with such number, or both, as may be required for the proper conduct of its business.

F. Alterations

The customer agrees to notify the Company promptly whenever alterations or new construction on premises owned or leased by him necessitate changes in the Company's equipment; and the customer agrees to pay the Company's current charges for such changes.

G. Special Construction

1. Private Property (See also Section 9, Charges Applicable Under Special Conditions)

a. An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service.

S13. GENERAL RULES AND REGULATIONS

S13.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

G. Special Construction (Cont'd)

1. (Cont'd)

b. If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment, maintenance or methods of construction; if the stability of the customer has not been established; if the installation is for a temporary or semi-permanent purpose or if for any other reason the construction costs are excessive as compared with the revenue to be derived, the applicant shall be required to pay the costs over and above those applicable for a normal installation.

c. The customer will provide the Company without charge written permission for the placing of the Company's facilities on the property.

2. Underground

When feasible conduit will be furnished by the Company at cost, or conduit may be provided by the applicant subject to the Company's specifications. Conduit used for telephone company facilities may not be used for any other purpose without the consent of the Company. The distance between the conduit and any Electric Light or Power Conduit or Conductor shall be in accordance with the Company's specifications.

The customer shall be required to pay the entire cost of maintenance of conduit including subsequent excavations and replacements necessary because of damage resulting from negligence on the part of the customer or his representatives or from freezing or improper drainage.

The cost of relocating underground entrance facilities at the customer's request will be borne by the customer.

S13. GENERAL RULES AND REGULATIONS

S13.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

H. Special Assemblies of Speculative Projects

1. Special assemblies of speculative projects for which provision is not otherwise made in this Price list may be provided where practicable, if not detrimental to any of the services furnished by the Company.

a. The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge or any combination thereof and will include, when applicable, one or more of the following estimated expense items associated with the special service provided:

(1) maintenance expense
(2) depreciation expense including reusable and non-recoverable items
(3) administration expense
(4) taxes including Federal Income Tax
(5) any other specific items of expense that may be associated with the facility provided
(6) a reasonable return on investment

b. The estimated installation cost used in the derivation of the various expense items shall include the following:

(1) material
(2) material overhead
(3) installation labor
(4) installation labor overhead

S13. GENERAL RULES AND REGULATIONS

S13.3 ESTABLISHMENT AND MAINTENANCE OF CREDIT

A. Adjustments for Local Taxing Authority Payments

1. In the event a municipality imposes, collects or receives from the Company any license, occupational, franchise, privilege, inspection, or other similar tax or fee, or otherwise, whether in a lump sum, or at a flat rate, or based on receipts, or based on poles, wires, conduits, or other facilities, or otherwise, so much of the aggregate amount of such tax or fee will be billed, insofar as practical, pro rata to the customers receiving exchange service within such municipality.

2. In the event a county or other local taxing authority, excluding municipalities, imposes, collects or receives from the Company any license, occupational, franchise, privilege, inspection or other similar tax or fee, or otherwise, whether in a lump sum, or at a flat rate, or based on receipts, or based on poles, wires, conduits or other facilities, or otherwise, the amount of such tax or fee will be billed, insofar as practical, pro rata to the customers receiving exchange service within such county or territory of other local taxing authority.

   Note: Nothing in this Price list shall prohibit the billing to customers of the amount of any tax or fee imposed by a county or other local taxing authority at the time of the filing of this Price list.

S13.4 OBLIGATIONS OF THE COMPANY

A. Undertaking of the Company

The Company does not undertake to transmit messages, but offers the use of its facilities, where available, for communication between parties subject to the terms and conditions specified in this Price list.

S13. GENERAL RULES AND REGULATIONS

S13.4 OBLIGATIONS OF THE COMPANY (Cont'd)

B. Provision of Equipment

1. All equipment necessary for the provision of a given service will be furnished by the Company on a deregulated basis or by the customer except as provided elsewhere in this Price list. The customer may be required to provide suitable housing or other protective measures where equipment is to be installed in locations exposed to weather or other hazards. Commercial power will be furnished by the customer on his premises in suitable outlets when required.

2. No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company; whether physically, by induction, acoustically or other; except as provided in this Price list or as otherwise authorized in writing by the Company. In case any such unauthorized attachment or connection is made, the Company shall have the right to remove or disconnect the same or to terminate the service.

3. The provisions of the preceding shall not be construed or applied to bar a customer from using devices which serve his convenience in his use of the facilities of the Company provided any such device so used does not:

   a. endanger the safety of Company employees or the public;

   b. damage, require change in or alteration of, or involve direct electrical connection to, the equipment or other facilities of the Company, unless as provided for elsewhere in this Price list;

   c. interfere with the proper functioning of such equipment or facilities;

   d. impair the operation of the communication system;

   e. otherwise injure the public in its use of the Company's services.

S13. GENERAL RULES AND REGULATIONS

S13.4 OBLIGATIONS OF THE COMPANY (Cont'd)

B. Provision of Equipment (Cont'd)

4. Except as otherwise provided in this Price list, nothing herein shall be construed to permit the use of a recording device or of a device to interconnect any line or channel of the Company with any other communication line or channel of the Company or of any other person.

5. Facilities of an electric power company or oil, oil products or natural gas pipe line company, or railroad company, provided primarily to communicate with points located along a right-of-way (including premises of such company anywhere in cities, towns, or villages along the right-of-way) owned or controlled by such company and extending between or beyond exchange areas of the Telephone Company, may be connected with deregulated Private Branch Exchange, station, or regulated private line facilities furnished by the Telephone Company, subject to terms and conditions found elsewhere in this Price list.

C. Furnishing of Service

The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment.

D. Maintenance and Repair

1. All costs associated with the maintenance and repair of regulated services furnished by the Company will be borne by the Company, except as specified elsewhere in this Price list.

2. The Company will be reimbursed for any loss or damage to its facilities on the customer's premise resulting from intentional destruction or any other cause, except from fire or unavoidable accidents.

3. Access to customer's premises, at any reasonable hour, will be given to representatives of the Company for the purpose of inspecting, repairing, testing or removing any part of the Company's facilities.

S13. GENERAL RULES AND REGULATIONS

S13.4 OBLIGATIONS OF THE COMPANY (Cont'd)

E. Directories

1. The Company will furnish to its customers, without charge, a directory for each access line. Additional directories will be furnished at the discretion of the Company at rates specified in the Directory Price List.

S13.5 LIMITATIONS AND USE OF SERVICE

A. Network Facilities for Use With Automatic Dialing and Announcing Devices

1. Subscribers who wish to use automatic dialing and announcing devices for solicitation purposes must do so pursuant to the following terms and conditions.

a. No numbers will be called in sequential fashion. Sequentially placed calls refer to those calls automatically dialed by successively increasing or decreasing integers, or similar methods.

b. Where facilities permit, the equipment shall be so programmed or utilized in such a manner as to automatically disconnect a called party's line not later than ten seconds after the called party hangs up.

c. Within 20 seconds after the called party answers, the name and telephone number of the individual or firm making or paying for the call, including but not limited to, the name of the individual or firm on whose behalf the call is made, must be clearly stated.

d. At the conclusion of the call, the name and telephone number of the individual or firm making or paying for the call, including but not limited to, the name of the individual or firm on whose behalf the call is made, must again be clearly stated.

e. If the customer's response is to be recorded, they must be informed of such and permission must be granted.

S13. GENERAL RULES AND REGULATIONS

S13.5 LIMITATIONS AND USE OF SERVICE (Cont'd)

A. Network Facilities for Use With Automatic Dialing and Announcing Devices (Cont'd)

1. (Cont'd)

f. If the solicitation call requires a response by the customer and a charge will apply, the customer must be informed that the response is not a free call. The vendor at this time, must give the customer the amount of the charges that will be applied if they respond.

g. No calls will be placed to organizations providing emergency services, including but not limited to hospitals, nursing homes, fire departments, and law enforcement agencies.

h. No calls will be placed on Sundays or Holidays. No calls will be place between the hours of 8:00 p.m. and 8:00 a.m., Monday through Saturday.

i. The Telephone Company is under no obligation to provide lists of telephone numbers or any directory information other than normally issued telephone directories.

j. Messages must not contain obscene or profane language.

k. Solicitation calls for the sale of pornographic material will not be allowed.

l. This type telecommunication service will not be used for any unlawful purpose.

m. Connection of customer provided communication systems must meet the Telephone Company's requirements as well as Part 68 of the Federal Communications Commission's Rules and Regulations.

n. Emergency and unlisted telephone numbers will not be used with recorded solicitation communication.

S13. GENERAL RULES AND REGULATIONS

S13.5 LIMITATIONS AND USE OF SERVICE (Cont'd)

A. Network Facilities for Use With Automatic Dialing and Announcing Devices (Cont'd)

2. In cases where there is an existing business relationship between the called party and the subscriber and where the subscriber uses the dialing and announcing devices strictly as a follow up device to supply information related to these prior dealings, the preceding terms and conditions will not apply. However, even subscribers who have had prior dealings with the called party will not be allowed to utilize the automatic dialing and announcing devices for solicitation purposes.

3. Any subscriber operating or utilizing automatic dialing equipment who does so in violation of the provisions set forth preceding will be subject to immediate disconnection of telephone service.

S14. DEFINITIONS

S14.1 Definitions 1

S14.2 Acronyms and Abbreviations 17

S14. DEFINITIONS

S14.1 DEFINITIONS

ACCESS LINE - A circuit directly connecting the central office switching equipment with the subscriber's termination point.

ACCESSORIES - Devices attached to, or used with, the facilities furnished by the Telephone Company and which are independent of, and not electrically, acoustically or inductively connected to the communication path of the telephone system.

ALABAMA RELAY CENTER - The Alabama Relay Center permits hearing and speech impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

APPLICANT - An individual, firm, corporation, partnership, institution, association or organization whether public or private, applying for or requesting provision of telecommunications service in accordance with this tariff.

BASE RATE - A schedule rate for any form of exchange service which does not include mileage charges.

BASE RATE AREA - The developed sections which are a part of or contiguous to the community in which the exchange is located as set forth in the telephone utility's tariffs and within which specified area local exchange service is furnished at uniform rates without mileage or zone rate charges.

BUSINESS OFFICE - The office of the Telephone Company which handles subscriber billing collections and public requests for service.

BUSINESS SERVICE - Telephone service furnished to customers where the actual or obvious use is principally or substantially of a business, professional, or occupational nature.

CALL - An attempted or completed communication.

CENTRAL OFFICE - A unit in which connections are made and switching is accomplished between telephone access lines and to the toll network.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

CENTRAL OFFICE EQUIPMENT - Switching, transmission and power equipment located within a central office for the purpose of connecting local and toll calls.

CHANGE - Revisions in telephone service, lines or equipment subsequent to the establishment of such services, lines or equipment, and also to rearrangements of outside or inside wiring (including house cable which does not involve moves, at the customer's request).

CHANNEL - A path for communication between two or more stations, or central offices, furnished in such a manner as the Company may elect, whether by wire, radio or a combination thereof and whether or not by a single physical facility or route.

CLASS OF SERVICE - A description of telecommunications service furnished a customer which denotes such characteristics as nature of use (business or residence) or type of rate (flat rate, measured rate, or message rate). Classes of service are usually subdivided in "grades", such as individual line, two-party, or four-party.

COMMUNICATIONS SYSTEM - Channels and other facilities which are capable, when not connected to exchange telecommunications service, of two-way communications between customer-provided terminal equipment or deregulated Company provided stations.

COMPANY - Wherever used in this tariff, refers to Pine Belt Telephone Co., Inc. unless the context clearly indicates otherwise.

CONNECTING ARRANGEMENT - The equipment provided by the Company to accomplish the direct electrical connection of customer-provided facilities with the facilities of the Company or of facilities of the Company with other facilities of the Company.

CONNECTING COMPANY - A corporation, association, partnership or individual owning or operating one or more exchanges and with which communications services are interchanged.

CONSTRUCTION CHARGE - A separate nonrecurring charge made for the construction of facilities in excess of those contemplated under the rates quoted in the service order schedule.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

CONTIGUOUS PROPERTY - The land, including any building or buildings thereon, occupied or used in the conduct of one establishment or business, throughout which there is general access without the necessity of crossing land used publicly or privately by others. Contiguous property has a single mailing address.

CONTINUOUS PROPERTY - The plot of ground, together with any buildings thereon, occupied by the customer, which is not divided by public highways or separated by property occupied by others. Where a customer occupies property on both sides of a street, alley, highway, body of water, railroad right-of-way, etc., and the properties would otherwise be continuous, such properties are treated as continuous property provided local wire or cable facilities are used and the customer furnished all local distribution pole line facilities or underground conduit required in connection therewith.

CONTRACT - The arrangement between a customer and the Company under which service and facilities are furnished in accordance with the applicable provisions of this Price list.

COST - The cost of labor and materials, which includes appropriate amounts to cover the Company's general operating and administrative expenses.

CREDIT CARD - Denotes a billing arrangement by which a long distance call may be charged to an authorized Company credit card number.

CUSTOM CALLING - Special calling features such as call waiting, call forwarding, three-way calling and speed calling. Available only in areas equipped with special equipment at the central office.

CUSTOMER - The individual, partnership, association or corporation which contracts for telephone service and is responsible for the payment of charges and compliance with the rules and regulations of the Company.

CUSTOMER PREMISES EQUIPMENT (CPE) - All telecommunications equipment located at a customer's premises (except pay phones).

DEMARCATION POINT - The point of physical interconnection between the telephone network and the customer premises wiring. This is part of the telephone network and maintained by the Telephone Company.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

DIAL SWITCHING EQUIPMENT - A unit of electro-mechanical or electronic switching equipment used in a central office or in connection with a private branch exchange system.

DIRECTORY LISTING - A publication in the Company's alphabetical directory of information relative to a customer's name or other identification and telephone number.

DISCONNECT - Discontinuance of telephone service made at the request of the subscriber or at option of the Telephone Company for nonpayment of service or other valid reasons; the facilities so disconnected by the Telephone Company may be made immediately available for use by another subscriber.

DROP WIRE - Paired wires, insulated and under a common cover, which connect a subscriber's line from the terminal on the pole to the point of demarcation on the customer's premises.

DUAL NAME LISTING - Provided for customers subscribing to residence service who share the same surname and reside at the same address, and for a person known by two first names.

EXCHANGE - A geographical area established for the administration of telephone service in a specified area, called the "Exchange Area", which usually embraces a city, town, or village, and its environs. It may contain one or more central offices together with the associated plant, equipment, and facilities used in furnishing communication service within that area.

EXCHANGE AREAS - The territory served by an exchange as specified in the Subscriber Services Tariff and the Company's Price list.

EXCHANGE SERVICE - The furnishing of facilities for the telephone communication within an exchange area, in accordance with the regulation and charges specified in the tariff. Exchange facilities are used to establish and maintain connection between an exchange station and the other telephone plant and facilities in connection with long distance calls.

EXISTING CUSTOMER - Reference to existing customer means customer as of the date of this Price list.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

FACILITIES - All property and means owned, operated, leased, licensed, used, furnished, or supplied for, by or in connection with the rendition of telephone service.

FLAT RATE SERVICE - Service furnished at a fixed monthly charge which provides unlimited local calling.

FOREIGN CENTRAL OFFICE - Any central office other than that which serves the area in which the customer is located.

FOREIGN EXCHANGE - Any other exchange but that in which the customer is located.

FOREIGN EXCHANGE SERVICE - Telephone exchange service furnished to a customer through a central office of an exchange other than the exchange regularly serving the area in which the customer is located.

GRANDFATHERED SERVICE - Services no longer offered to new subscribers. Existing subscribers may continue service until moves or changes or service occur.

INDIVIDUAL LINE - An access line designed for the exclusive use of a subscriber.

INITIAL SERVICE PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

INSIDE WIRING - The wire and incidentals installed on the subscriber's premises to connect the communication devices with the connecting terminal.

INSTALLATION - Any activity required by the Telephone Company in order to initiate, rearrange, delete or otherwise provide or modify service or facilities for use by the general public.

INSTALLATION CHARGE - A nonrecurring charge applying to the provision of certain items of equipment or facilities as distinguished from the service connection charge applicable for establishment of basic telephone service.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

INTERCONNECTIONS - A term used to indicate the connection of customer-provided communicating device with the facilities owned by the Telephone Company.

INTEREXCHANGE CHANNEL - That portion of a channel which connects stations in two or more exchanges.

INTERFACE - That point on the premises of the subscriber at which facilities owned by others is connected to Telephone Company facilities.

JOINT USER - An individual or concern authorized by the Telephone Company and the subscriber to share in the use of the customer's telephone service, subject to rules and regulations of this Price list.

JOINT USE OF SERVICE - An arrangement whereby an individual, firm or corporation whose telephone needs are not such as to justify the provision of separate customer service is permitted to use the service of a customer.

KEY LINE - A circuit connecting a key system with a central office.

KEY LINE TELEPHONE SERVICE - A service that enables access lines to terminate in an expandable multi-button telephone set utilizing common equipment which continuously connects a subscriber to a switching center (exchange) or common carrier operating center.

LEASE LINE - A channel tying together two or more points in the exchange area for the sole use of the subscriber. It is terminated at each point on the subscriber owned equipment and is not connected to the central office switching equipment.

LINE EXTENSION - The outside plant required in addition to existing facilities to render telephone service, exclusive of instruments.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

LOCAL ACCESS AND TRANSPORT AREA (LATA) - Geographic area established for the purpose of defining the territory within which a Bell Operating Company may offer its telecommunications services.

LOCAL CALLING AREA - The areas within which telecommunications service is furnished subscribers under a specific schedule of exchange rates and without toll charges. A local calling area may include one or more exchange service areas, or portions of exchange service areas.

LOCAL CHANNEL - That portion of a channel which connects a station to an interexchanging channel or a channel connecting two or more stations within an exchange area.

LOCAL MESSAGE - A completed communication between customer's stations located within the same exchange area or local service area.

LOCAL PRIVATE LINE TELEPHONE SERVICE - A line located wholly within an exchange, furnished for the subscriber's own use for communicating or signaling between points on that line.

LOCAL SERVICE AREA - The area within which telephone service is furnished customers under a specific schedule of exchange rates and without toll charges. A local service area may include one or more exchange areas.

LOCAL TELEPHONE SERVICE - Service available within the Telephone Company service area for communication between subscribers located within that Telephone Company service area only.

MESSAGE - A completed telephone call regardless of length of call or time and distance involved.

MESSAGE RATE - Local exchange service billed on a per-message basis.

MESSAGE TOLL SERVICE OR MESSAGE TELECOMMUNICATION SERVICE (MTS) – Long distance telecommunications service between exchange areas, categorized as intraLATA/intrastate, intraLATA/interstate, interLATA/intrastate, or interLATA/interstate and rated on a time and distance basis.

MESSAGE UNIT - A unit charge established for calls within the local service area as provided in the Company's Price list.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

MILEAGE - The measurement upon which charges are computed for Foreign Exchange, tie lines and private lines.

MILEAGE CHARGE - Additional recurring charges based upon distance measurement as provided for in this Price list.

MINIMUM CONTRACT PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

MISCELLANEOUS COMMON CARRIERS - Miscellaneous Common Carriers, as defined in Part 21 of the Federal Communications Commission Rules, are communications common carriers which are not engaged in the business of providing either a public landline message telephone service or public message telegraph service.

MISCELLANEOUS SERVICE - Service not regularly furnished with the various classes of exchange service.

MOBILE TELEPHONE SERVICE - A communication service provided by means of radio frequencies through a land radio telephone base station. Connections may be established between a wire station and a mobile or fixed unit or between two mobile or fixed units.

MOVE - A transfer of telephone service from one location to another on the same premise where there is no interruption of service other than is incident to the work involved. Transfers of telephone service from one premise to another, or from location to another on the same premise involving a break in the continuity of service and resulting in cessation of local service charges but not considered as moved but as new service and service charges that may be applicable.

MOVE OR CHANGE CHARGE - Initial nonrecurring charges made for a change of location or type of equipment on the same premises made at the subscriber's request where there is no interruption of service other than incident to the work involved and which is not initiated by the Telephone Company or required for the proper maintenance of the equipment or service.

S14. DEFINITIONS

S14.1 DEFINITIONS(Cont'd)

NETWORK CONTROL SIGNALING UNIT - The terminal equipment furnished, installed, and maintained by the Company for the provision of network control signaling.

NETWORK INTERFACE DEVICE (NID) - A standard FCC Registration Program jack or equivalent that is installed by the Telephone Company as part of the network access line on a customer's premises at a location determined by the Company which is accessible to the customer and consistent with RCC Registration regulations governing the location of the network interface. The network interface is located on the customer's premises and serves as the point of connection for all premises services to the telecommunications network.

NEW SUBSCRIBER - Applicants having no basic monthly service or those subscribers changing service premises.

NONLISTED TELEPHONE - An exchange station which has the listing omitted from the telephone directory but listed in the directory assistance records.

NONPUBLISHED TELEPHONE - An exchange station which has the listing omitted from both the telephone directory and directory assistance records at the customer's request.

NORMAL WORKING SITUATION - Those situations which can be reasonable anticipated by the Telephone Company, planned for in advance and handled as a part of the usual day-to-day operations, without requiring substantial deviation from standard operating practices.

OFF-PREMISES STATION - Service which provides a connection from the access line termination (station) to another station located on property or in a building not contiguous to the access line termination.

OTHER COMMON CARRIER (OCC) - Specialized Common Carriers, Domestic and International Records Carriers, Domestic Satellite Carriers and Value-Added Carriers that are authorized by the FCC to provide private of off-network MTS/WATS equivalent services.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

PREMISES - The building, portion or portions of a building on continuous property used and/or occupied at one time by the customer in the conduct of his business or as a residence. Where floor space adjoining buildings is made continuous at one or more floor levels, all floor space in both buildings is considered the same premises insofar as the customer who uses and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

PREMISES WIRE - All wiring within the same building or between buildings on the same continuous property of a customer and located on the customer's side of the network interface. In the absence of a network interface, all wiring on the customer's side of the first point of connection at a customer's premise.

PRIVATE LINE CIRCUIT (DEDICATED) - A circuit provided to a subscriber which is not connected to the switching equipment of the Telephone Company and does not provide general access to the local exchange.

PRIVATE LINE TERMINAL - Each end of a private line dedicated circuit.

PUBLIC TELEPHONE - An exchange station, either attended or equipped with a coin collecting device, designed and placed for use by the public in general at locations chosen or accepted by the Company.

RESIDENCE SERVICE - Telephone service furnished to customers when the actual or obvious use is for domestic purposes.

RESTORATION CHARGE - A charge applying to restore service following a temporary suspension of such service for nonpayment of charges.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

ROTARY HUNTING - Routes a call to an idle station line in a prearranged group when the called station line is busy.

a. Terminal - The hunt always starts with the called station line and ends with the last station line in the prearranged group completing the call to the first idle station line encountered. Unless the first station line is called, only a portion of the group is tested.

b. Circular Hunting - The hunt starts with the called station line and always proceeds in a prearranged order to test all lines in the group once, completing the call to the first idle station line.

ROUTE MILEAGE - The distance measured along the route of the circuit between any two or more given points on that circuit.

SEMIPUBLIC TELEPHONE - An exchange station, equipped with a coin collecting device, designed for a combination of customer and public use at locations more or less public in character. Semipublic telephone service is considered as a form of customer service.

SERVICE CHARGE - A nonrecurring charge applying to the establishment of telephone service for a subscriber and subsequent alterations to that service.

SERVICE CONNECTIONS - The establishment of telephone service, lines or equipment for a customer, and transfers of telephone service, lines or equipment from one premises to another or non-contiguous property subsequent to the establishment of such service lines or equipment for a customer.

SERVICE ORDER CHARGE - The charge for receiving and recording information and/or taking action in connection with a subscriber or applicant and processing the necessary data.

SERVICE POINT - Used in connection with customer-owned communications, the point on the customer's premises where customer-provided equipment connects with the facilities of the Telephone Company.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

SPECIAL BILLS - A bill for accumulated exchange and toll service charges rendered in lieu of the requirement of a cash deposit for the re-establishment of credit before disconnection of service as provided in the tariff schedules, or a bill for accumulated exchange and toll charges rendered at such a time as the amount of the unpaid charges, billed and unbilled, materially exceed the normal amount of any prepaid charges or any deposits made in connection with a particular service.

STATION - Each telecommunications instrument location on the premises of a subscriber or authorized user and connected for his benefit.

SUBSCRIBER - See "CUSTOMER".

SUPPLEMENTAL EQUIPMENT - Attachments, apparatus, and accessories or devices which, at the request of the subscriber, the Telephone Company provides in accordance with the rate schedule of this Price List.

SWITCH - A unit of dial switching equipment which provides interconnection between station lines or trunks.

TELECOMMUNICATIONS SERVICES - The provision of facilities for the transmitting and reception of messages, impressions, pictures and signals by means of electricity, electromagnetic waves, and any other kind of energy, force variations, or impulses whether conveyed by cable, wire, radiation through space, or transmitted by means of other media within a specific area or between designated points.

TELEPHONE COMPANY - See "COMPANY".

TELEPHONE NUMBER - A designation assigned to a telephone station or private branch exchange necessary for placing calls to the telephone station or private branch exchange for identification in the assessment of message charges, etc.

TEMPORARY SERVICES - Local service definitely known to be needed for a short period, such as service for contractors while constructing a building, for a sales campaign, or for events such as conventions, fairs, circuses, and athletic contests.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

SPECIAL BILLS - A bill for accumulated exchange and toll service charges rendered in lieu of the requirement of a cash deposit for the re-establishment of credit before disconnection of service as provided in the tariff schedules, or a bill for accumulated exchange and toll charges rendered at such a time as the amount of the unpaid charges, billed and unbilled, materially exceed the normal amount of any prepaid charges or any deposits made in connection with a particular service.

STATION - Each telecommunications instrument location on the premises of a subscriber or authorized user and connected for his benefit.

SUBSCRIBER - See "CUSTOMER".

SUPPLEMENTAL EQUIPMENT - Attachments, apparatus, and accessories or devices which, at the request of the subscriber, the Telephone Company provides in accordance with the rate schedule of this Price list.

SWITCH - A unit of dial switching equipment which provides interconnection between station lines or trunks.

TELECOMMUNICATIONS SERVICES - The provision of facilities for the transmitting and reception of messages, impressions, pictures and signals by means of electricity, electromagnetic waves, and any other kind of energy, force variations, or impulses whether conveyed by cable, wire, radiation through space, or transmitted by means of other media within a specific area or between designated points.

TELEPHONE COMPANY - See "COMPANY".

TELEPHONE NUMBER - A designation assigned to a telephone station or private branch exchange necessary for placing calls to the telephone station or private branch exchange for identification in the assessment of message charges, etc.

TEMPORARY SERVICES - Local service definitely known to be needed for a short period, such as service for contractors while constructing a building, for a sales campaign, or for events such as conventions, fairs, circuses, and athletic contests.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

TERMINAL - A point at which a circuit element may be directly connected to one or more other elements.

TERMINAL EQUIPMENT - All equipment provided by common carriers and located on customer premises except over voltage protection equipment, coin-operated or pay telephones, and multiplexing equipment to deliver multiple channels to the customer. Mobile radio equipment transmit earth stations are also not considered to be terminal equipment.

TERMINATION CHARGE - A charge applying when a customer discontinues an item of service or equipment prior to the expiration of the initial service period designated for such item.

TIE LINE - A dedicated telephone circuit connecting two private branch exchange systems for the purpose of interconnecting the stations of one system with the stations of the other.

TIE LINE MILEAGE - The measurement on which the rates for tie lines connecting customer's switchboard is based.

TOLL CALL - A call to a point outside the local calling area of an exchange for which a long distance charge applies.

TOLL CENTER - A telephone switching center at which the operations (manual or dial) function (message timing, switching, and recording) takes place in connection with the provision of toll message service.

TOLL LINE - A circuit used exclusively for the transmission of messages between points located in different exchange areas where specific charges for each such message are applicable.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

TOLL MESSAGE - A message between stations in different exchange areas and furnished under the provisions of "Message Toll Telephone Service", Section 4.

A. PERSON TO PERSON TOLL MESSAGE - A toll message in which the user stipulates a desire for communication with a specified person or station at a specified location.

B. STATION TO STATION TOLL MESSAGE - A toll message in which the user stipulates a desire for communication only with a specified telephone or switchboard.

C. COLLECT MESSAGE - A toll message in which the user stipulates that the called party accept and pay all charges associated with the message.

D. THIRD NUMBER MESSAGE - A toll message in which associated charges are billed neither to the calling station nor to the called station, but rather to a station not involved in the message.

E. CREDIT CARD MESSAGE - A toll message in which associated charges are billed to a credit card number assigned by a telephone company and issued to either the called or calling party.

TOLL RATE - The initial period charge prescribed for toll messages based upon a minimum initial period and distance between exchanges.

TOLL SERVICE - Toll Service (Long Distance Service) is that part of the total telephone service rendered by the Company which is furnished between customers in different exchange areas in accordance with the rates and regulations specified in the Company's Price list.

TROUBLE LOCATION CHARGE - The charge for each visit by the Telephone Company to the premises of the customer, or authorized user, where the report results from the use of equipment provided by the customer, or authorized user.

S14. DEFINITIONS

S14.1 DEFINITIONS (Cont'd)

TRUNK LINE - A circuit over which customers' messages are sent between two central offices or between a central office and a private branch exchange system.

TYPE OF SERVICE - The grade or level of service provided to a subscriber in a particular circumstance.

UNDERGROUND SERVICE CONNECTION - A customer's "drop" wire which is run underground from a pole line or an underground distributing cable.

USER - The user of a service regardless of the identity or location of the subscriber or customer of the service.

ZONE - One of a series of specified areas, beyond the base rate area of an exchange in which service is furnished at rates in addition to base rates.

ZONE BOUNDARY - The limit of a specified area beyond the base rate area of an exchange.

ZONE CHARGES - A charge applying in addition to the base rate for service when a subscriber's main station, PBX, or Centrex system is outside the base rate area but is located within the exchange area.

S14. DEFINITIONS

S14.2 ACRONYMS AND ABBREVIATIONS

CMRS - Cellular Mobile Radio Telecommunications Service

S15. DIRECTORY LISTINGS

CONTENTS

S15.1 General 1

S15.2 Conditions 1

S11.3 Rates 4

S15. DIRECTORY LISTINGS

S15.1 GENERAL

A. Directory listings encompassed by this Price list are applicable to listings in the alphabetical section in the telephone directory covering the exchange from which such customers receive service.

S15.2 CONDITIONS

A. Primary listing which may include the name, address and telephone number of the individual, organization, firm or corporation for whom the service has been contracted will be furnished without additional charge.

1. Listings will be limited to such information as is necessary for identification to facilitate use of the service.

2. The length of a listing may be limited by the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.

3. The Company may refuse to insert any listing, which in its judgment does not facilitate the use of the directory.

B. An additional listing may include the same address and telephone number as the primary listing, except that a different address may be shown for off-premises stations located on other premises occupied solely by the customer. Additional listings may be furnished with businesses who occupy the same premises at the rates shown above.

C. An alternate call listing refers to a calling party to certain other telephone numbers after business hours or on Sundays or holidays or if there is no answer on the first listed number. Where the alternate call number is to be that of another customer, the listing will be furnished only with written approval of the other customer.

S15. DIRECTORY LISTINGS

S15.2 CONDITIONS

D. A foreign or noncustomer listing may be furnished customers requesting that their listing be included in a directory of an exchange other than that from which service is rendered. The rate of a foreign company listing will be the rate applicable in the directory where the listing appears.

E. Unlisted service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the information operator.

F. Nonpublished service is the withholding of a customer's listing from both the telephone directory and information records. When nonpublished service is to be furnished, the customer will hold the Company harmless from any damages which might arise, and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the nonpublished listing.

G. The charge for additional, alternate unlisted or unpublished listings begin on the day the information records are posted.

H. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is distributed to the customers to the day the succeeding directory is distributed to the customers. Unless the listing no longer serves the customer because of disconnection, removal, etc., of the service, the minimum contract period will be for 30 days.

I. A dual name listing consists of a surname, two given names, the address and telephone number. A dual name listing may be provided for residence subscribers when either the two names listed are those of persons sharing the same surname and live at the same address

S15.2 CONDITIONS (Cont'd)

I. (Cont'd)

or the two names listed are those of one person known by both names. This listing may be a primary listing of an additional listing provided at the tariffed rates.

J. Enterprise or WX Service Listing

This service provides an arrangement in connection with message toll service whereby a customer offers patrons the privilege of calling him without the payment of a toll charge and without having to request specific reversal of this charge.

This service is available only to customers having Private Branch Exchange Service or Individual Line Service, excepting coin box.

The exchanges in which such service is furnished are selected by the customer subject to the approval of the Company and the Company assigns and lists in the directory a special call number designation for the use of patrons in such exchange.

Calls for the special number are accepted only when originating at telephones located in the exchange or zone with which the special call number is associated and only those toll calls placed by calling this special number are considered as coming within the scope of the service.

The customer assumes the charges for all toll calls placed by calling this special number in each exchange.

The initial contract period for this service is three months. Service may be terminated within the initial contract period by payment of the minimum service charge to the end of the initial contract period.

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

CONTENTS

S17.1 INTERCONNECTION SERVICES FOR MOBILE
SERVICE PROVIDERS (MSP's) 1

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

S17.1 INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

A. General

1. The services offered herein are for use by Mobile Service Providers (MSP's) to allow interconnection of the wireless or radio network of these carriers to that part of the Public Switched Network (PSN) owned and operated by the Company. (MSP's are licensed common carriers operating under authority of the FCC, as defined in the FCC Rules and Regulations, Part 32, Subpart K). Circuits furnished by the Company to Mobile Service Providers (MSP's) which do not connect to the PSN, such as radio transmitter control links, are not covered in this Price List.

2. Except as noted, services provided in this Section are subject to all general regulations applicable to the provision of service by the Company as stated in other sections of this Price list.

3. The services provided under this Price list shall be used by the MSP only for the handling of traffic originating or terminating on the MSP's network in conjunction with its authorized services.

4. The services provided by the Company shall not be connected together by the MSP, except on an ancillary basis such as call forwarding, for the purpose of completing a call from one landline telephone to another landline telephone.

5a. The price for a digital trunk termination used in providing DS1 service for twenty-four voice equivalent channel increments contemplates the termination of all twenty-four channels at the same Company switch and at the same physical location at the Company switch. When the mixing of services on the same DS1 does not meet these requirements, the rates and charges for less than twenty-four voice equivalent channels are applicable.

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

S17.1 INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's) (Cont'd)

A. General (Cont'd)

5b. The mixing of "line side" and "trunk side" services on the same DS1 is considered to be terminating service at two different physical locations at the Company switch. MSP lines, one-way outward MSP trunks, and two-way MSP trunks are "line side" connections to the Company switch. One-way inward MSP trunks, Type 1, Type 2A, Type 2B, and 800/DID Service Access trunks are considered "trunk side" connections to the Company switch.

5c. Because Type 1 and Type 2A terminate at different physical locations at a Company switch, the mixing of these services on the same DS1 requires that the rates for less than twenty-four voice equivalent channels be applied.

B. Other Associated Terms, Rates And Conditions

1. These services are offered at the rates and specified herein from central offices where necessary service options are available.

2. The rates contained in this offering contemplate the use of standard serving arrangements normally provided by the Company. Non-standard facility requirements, equipment, or service options may be requested via the special assembly process as defined in other sections of this Price list.

3. In order to provide compliant interconnection arrangements, it may be necessary for the Company to place equipment at the MSP's point of termination. The MSP shall furnish or arrange to have furnished to the company, at no charge, equipment space and electrical power required to provide services under this Price list. The MSP shall also provide the Company reasonable access for installing, testing, maintaining, or removing equipment. Facilities and equipment utilized by the Company to provide services under the provisions of this Price list shall remain the property of the Company and shall be returned by the MSP upon reasonable request.

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

S17.1 INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's) (Cont'd)

B. Other Associated Terms, Rates And Conditions (Cont'd)

4. Directory listings for MSP's are provided in accordance with regulations and rates found in Schedule 17.

5. Customers of the MSP may be provided additional directory listings as specified in other sections of this Price List.

6. Charges for Operator Assisted Local Call and Local Calling Card Service, and Local Operator Verification/Interruption Service as defined in other sections of this Price list are applicable and will be individually itemized on the MSP's bill.

7. Charges for IntraLATA Long Distance Operator Verification/Interruption Service as defined in other sections of this Price list are applicable and will be individually itemized on the MSP's bill.

8. When the MSP wants to prohibit third number and collect calls to mobile numbers, Billed Number Screening is available upon request. Certain calls cannot be screened, including but not limited to calls handled by independent Company (ICO) operators, Maritime, Air-to-Ground, and International calls, or calls handled by companies that do not subscribe to the data base where toll billing exception data is stored. The MSP is, however, responsible for the charges for these calls.

9. Service and installation charges are included in the nonrecurring rates specified for services offered under the Price List.

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

S17.1 INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's) (Cont'd)

B. Other Associated Terms, Rates And Conditions (Cont'd)

10. Billing disputes must be communicated to the Company in writing within 30 days from the billing date. The Company will make every effort to investigate such disputes and reconcile any differences within 30 days from receipt of such notification.

C. Usage Charges for Mobile Originating Traffic

1. Usage charges apply to mobile originated calls: (1) terminating within the local calling area (LCA), and (2) inter-LCA/intraLATA calls terminating within the franchised serving area of the Company.

2. Usage charges will not apply to calls to Company Business Offices, Directory Assistance, E911 Emergency Service, or operator assisted and other services for which a charge or surcharge already applies.

D. Usage Charges - Miscellaneous

1. When the Company relies on data supplied by the MSP to prepare and render a bill to the MSP, a right of audit by the Company is reserved. The audit of the call records shall be performed by an independent third party at the Company's discretion, but no more than annually. If the reported traffic is found to be understated by more than five percent, the MSP shall reimburse the Company for the reasonable cost of the audit.

E. Miscellaneous Information - Type of Interconnection Service

1. The MSP shall provide a voice intercept announcement of distinctive tone signals to the calling party when a call is directed to a number that is not assigned by the carrier.

2. The MSP shall return answer supervision on all calls except that routed to certain recordings indicating network conditions.

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

S17.1 INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's) (Cont'd)

E. Miscellaneous Information – Type of Interconnection Service (Cont'd)

3. These services may be optioned for one-way inward (to the MSP), one-way outward (from the MSP), or two-way signaling.

4. These services are four wire circuits using only multifrequency (MF) address pulsing with wink start operation and E&M supervision.

F. Type 1 Interconnection

1. A Type 1 interconnection is a connection between a Company end office and a MSP's point of termination. With a Type 1 interconnection, the MSP can establish connections to valid NXX codes in the LATA, Directory Assistance, Operator Services (0- and 0+), Service Access Codes (such as 700, 800, 900) and access to Interexchange Carriers (IC's) and International Carriers (INC's).

2. Trunk groups containing the Type 1 connection must be presubscribed to an IC chosen by the MSP to complete inter-LATA calls. The MSP can access other IXC's by using the 10XXX code.

3. Selective Class of Call Screening or Call Screening and Restriction are optional services available with Type 1 Service, subject to availability of suitably equipped central offices.

G. Type 2 Interconnection

1. Type 2A

a. A Type 2A interconnection is a connection between a Company access tandem or local tandem office to a MSP's point of termination. The MSP switch acts like an end office.

b. Type 2A interconnection to access tandems can be optioned so that the MSP switch appears as either an equal access end office (EAEO) or a non-confirming end office.

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

S17.1 INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's) (Cont'd)

G. Type 2 Interconnection (Cont'd)

1. Type 2A (Cont'd)

c. For a MSP that offers equal access to its customers, a Type 2A interconnection to an access tandem can establish connections to valid NXX codes in the LATA, to Service Access Codes (such as 700, 800, 900), to IC's and INC's. Access to Operator Services (0- and 0+) and N11 codes is not permitted; those calls must be completed over a separate Type 1 interconnection.

d. For a MSP that does not offer equal access to its customers, a Type 2A interconnection to an access tandem can establish connections to valid NXX codes in the LATA, to Service Access Codes (such as 700, 800, 900), and to a Feature Group A (FGA), FGB, or FGC IC, Access to Operator Service (0- and 0+) and N11 codes is not permitted; those calls must be completed over a separate Type 1 interconnection.

e. If a Type 2A interconnection is optioned for two-way inward (to the MSP), an NXX code dedicated to the MSP is required.

S17. INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's)

S17.1 INTERCONNECTION SERVICES FOR MOBILE SERVICE PROVIDERS (MSP's) (Cont'd)

G. Type 2 Interconnection (Cont'd)

2. Type 2B

a. Type 2B interconnection is a connection between a Company end office and the MSP's point of termination. This type connection provides a high usage route to/from NXX codes located in the end office. This type connection is intended to be used with a Type 2A interconnection, with first choice routing from the MSP to the end office and overflow allowed via a type 2A connection.

H. Rates and Charges

Unless otherwise specified, the following charges apply to Type 1 interconnection services.

		Nonrecurring Charge	**Monthly Rate**
1.	MSP Line	See Business Service Connection Charges, Section 6	See Business Line Rate, Section 2
2.	Voice Grade Service		
a.	Local Loop (1)		
	(i) Local loop, 1st	$335.00	$45.00
	(ii) Local loop, each additional (2)	$145.00	$45.00
b.	Signaling		
	(i) E&M (per loop)	$44.00	$10.00
c.	Equipment termination		
	(i) Trunk termination (per loop)	$24.60	$37.55

3. DS1 Service (1) (Cont'd)

b. Less than Twenty Four (24) Voice Equivalent Channel Increments

(i) Facilities

(a) Facilities are provided at the rates specified for MegaLink® or Lightgate® service, per South Central Bell Private Line Services with which the company concurs. Note that any service establishment fee for these services is applicable.

(b) Channelization - Channelization is provided at the rates specified for MegaLink® or Lightgate® service, per South Central Bell Private Line Services, with which the company concurs. This will include a basic system of 24 channels at the central office, plus feature activation charges for the number of channels ordered.

(c) Voice grade trunk terminations

(i) When less than 24 channels are provided on DS1 service, rates and charges for voice grade trunk terminations apply in addition to facility and channelization rates and charges, for one-way inward MSP trunks, Type 1, Type 2A, and Type 2B circuits. A voice grade trunk termination applies for each channel activated.

(ii) MSP Trunks

	Nonrecurring Charge	Monthly Rate
(a) Direct Inward Dialing (DID) Trunk termination	$50.00	$31.50
(b) Type 1, Type 2A or Type 2B Circuits		
(i) Per voice equivalent channel activated	$24.60	$37.55

30.4 Rates Schedules 8

S30. LONG DISTANCE SERVICE

S30.1 INTRASTATE LONG DISTANCE

A. General

Service is offered to residential or business customers. The regulations set forth below explain how to apply the rate tables associated with the various service offerings described in this subsection.

B. Timing of Calls

1. Billing for calls placed over the Company's network is based in part on the duration of the call. Timing of each call begins as specified below, and ends upon disconnection by either party.

   a. Collect Calls – Timing begins when the called party accepts the responsibility for payment.

   b. Person-to-Person (non-collect) Calls – Timing begins when the designated party comes on the line, or when the caller agrees to speak with a substitute party.

   a. All Other Calls – Timing begins when the called station is answered, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection.

2. The minimum call duration, initial period, and each additional timing period for billing purposes is specified by product in Section 30.1.D. below.

3. No charges apply for incomplete calls.

S30. LONG DISTANCE SERVICE

S30.1 INTRASTATE LONG DISTANCE (Cont'd)

C. Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the rate center involved. The coordinates are produced by utilizing the Bell Communications Research Terminating Point Master File Data Set.

D. Product Description

All services are offered in conjunction with interstate service.

1. Schedule A – MTS Service

2. Schedule B – WATS Service

3. Schedule C – Switched 800/888 Services

Schedule C Service is an inbound 800/888 service with which callers within the state of Alabama may place toll free calls to a telephone number in the 800/888 area code assigned to the Customer. Calls can be terminated via the Customer's local exchange telephone service. Calls are billed in one minute increments based on rates specified in this Section of the Price List.

4. Schedule D – Dedicated 800/888 Service

Schedule D Service is an inbound 800/888 service with which callers within the state of Alabama may place toll free calls to a telephone number in the 800/888 area code assigned to the Customer. Calls must be terminated to Customer's premises via a special access connection between the Company's point of presence and the Customer's premises. Calls are billed in one minute increments based on rates specified in this Section of the Price List.

S30. LONG DISTANCE SERVICE

S30.1 INTRASTATE LONG DISTANCE (Cont'd)

D. Product Description (Cont'd)

5. Schedule E – Calling Card Service

Customers dial an 800/888 number or other access code to reach the Company's network. Customers also must enter a billing authorization code for identification and the destination telephone number. Calls are terminated over switched access facilities and are billed in one minute increments based on rates specified in this Section of the Price List.

6. Schedule F – Operator Services

The Company will provide access to operator services through an arrangement with operator service providers. Rates for operator services will be those in effect for that provider.

7. Schedule G – Debit-Card Service

The company will provide prepaid call completion services to Customers subscribing to Debit-Card Service. The network-based debit-card service allows callers to make prepaid calls from any touch tone phone or pay phone. By dialing an access number from any touch tone phone or pay phone, callers can access the debit-card service. The system can inform the caller of the time and/or dollar balance remaining on the card. Services will be provided at the rates specified in this Section of the Price List.

S30. LONG DISTANCE SERVICE

S30.1 INTRASTATE LONG DISTANCE (Cont'd)

E. Rate Periods

Unless otherwise provided elsewhere in this Tariff, the following time periods apply to rates for all services:

Residence	Rates and Applicable Periods						
	Mon.	Tues.	Wed.	Thur.	Fri.	Sat.	Sun.
8:00 AM to 5:00 PM	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate	***Full Rate***	***Full Rate***
5:00 PM to 11:00 PM	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***
11:00 PM to 8:00 AM	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***	***Full Rate***

Day rate period = full rate
Evening rate period = ***full rate***
Night and Weekend rate period = ***full rate***

Calls are billed based on the rate in effect for the actual time period(s) during which the call occurs. Calls which overlap rate periods will be charged according to the rates applicable to the time recorded in each period.

S30. LONG DISTANCE SERVICE

S30.3 INTERSTATE LONG DISTANCE

A. Service Description.

International Message Telecommunications Service is offered to residential and business Customers of the Company to provide direct dialed termination of international station-to-station calls placed from origination points in the United States, using the Company's network to the countries or areas designated which are not part of the United States or its territories. Interstate Telecommunications Service is offered to residential and business Customers of the Company to provide direct dial and Operator Assisted Calls placed in the United States. The Service is provided by the Company for switched long distance network services for voice grade and low speed dial-up data transmission services offered on a usage sensitive basis. All services are provided subject to the terms and conditions included in this Service Guide.

B. Interconnection with Other Common Carriers.

The Company reserves the right to interconnect its Service with those of any other Common Carrier, Local Exchange Carrier, or alternate access provider of its election, and to utilize such Service concurrently with its own facilities for the provision of Service offered herein.

C. Determination of Time of Day.

1. International – Peak and Off-Peak times are established for each terminating point as listed in this Service Guide. All times are defined with reference to originating U.S. locations, as interpolated to Eastern Time.

2. Interstate – Day, Evening and Night/Weekend times are determined by the local time of the location of the rate center of the calling service point.

The evening rate applies to the holidays listed below unless a lower rate period is in effect.

- New Year's Day January 1
- Independence Day July 4
- Labor Day
- Thanksgiving Day
- Christmas Day December 25
